Experience, Evidence, and Sense Anna Wierzbicka, 2010-06-24 This book is based on two ideas first that any language English no less than any other represents a universe of meaning shaped by the history and experience of the men

and women who have created it and second that in any language certain culture specific words act as linchpins for whole networks of meanings and that penetrating the meanings of those key words can therefore open our eyes to an entire cultural universe In this book Anna Wierzbicka demonstrates that three uniquely English words evidence experience and sense are exactly such linchpins Using a rigorous plain language approach to meaning analysis she unpacks the dense cultural meanings of these key words disentangles their multiple meanings and traces their origins back to the tradition of British empiricism In so doing she reveals much about cultural attitudes embedded not only in British and American English but also English as a global language An interdisciplinary work Experience Evidence and Sense will be of interest to both scholars and students in linguistics and English as well as historians of ideas sociologists anthropologists literary scholars and scholars of communication

The Making of Americans - Gertrude Stein Gertrude Stein,2025-03-03 *The Making of Americans* by Gertrude Stein is an experimental modernist novel that explores themes of identity history and the nature of American culture The novel presents a detailed and repetitive narrative about the lives of the Dehning and Hersland families using an unconventional stream of consciousness style that reflects Stein s interest in linguistic rhythm and psychological depth Through this fragmented and abstract approach Stein examines the ways in which individuals and families evolve over generations capturing the essence of human behavior and societal change Since its publication *The Making of Americans* has been recognized as a groundbreaking work in modernist literature challenging traditional narrative structures and redefining the novel s form Its emphasis on repetition variation and observation creates a unique reading experience that mirrors the process of memory and perception Though complex and demanding the novel has been influential in literary circles inspiring later experimental writers The novel s enduring significance lies in its ambitious attempt to chronicle the American experience through language and structure rather than conventional plot *The Making of Americans* remains a landmark of literary innovation offering readers a profound meditation on identity transformation and the fluidity of personal and collective history

Slips of the Mind Jennifer Soong, 2025-04-07 An audacious account of what happens when forgetting becomes a way of writing and writing becomes a way of forgetting In *Slips of the Mind* poet and critic Jennifer Soong turns away from forgetting s long standing associations with suppression privation and error to argue that the absence or failure of memory has often functioned as a generative creative principle Exploring forgetting not as the mere rejection of a literary past or a form of negative poetics Soong puts to the test its very aesthetic meaning What new structures forms of desires styles and long and short feelings do lapses in time allow What is oblivion s relationship to composition And how does the twentieth century poet come to figure as the quintessential embodiment of such questions Soong uncovers forgetting s influence on Gertrude Stein Lyn Hejinian Tan Lin Harryette Mullen Lissa Wolsak and New York School poets John Ashbery James Schuyler Bernadette Mayer and Ted Berrigan among others She reveals that forgetting s shapeshifting produces differences in poetic genre interest and degrees of intentionality and that such malleability is part of forgetting s nature Most provocatively Soong shows how losing track of things leaving them behind or finding them already gone resists overdetermination and causality in the name of surprise as poets leverage forgetting in order to replace identity with style *Slips of the Mind* is the kind of literary criticism that will reward all readers of modern and contemporary poetry
