hills the battle finally ended with the signing of the armistice that concluded the First World War The Meuse Argonne had fallen at the cost of more than 120 000 American casualties including 26 000 dead In the bloodiest battle the country had ever seen an entire generation of young Americans had been transformed forever To Conquer Hell is gripping in its accounts of combat studded with portraits of remarkable soldiers like Pershing Harry Truman George Patton and Alvin York and authoritative in presenting the big picture It is military history of the first rank and incredibly the first in depth account of this fascinating and important battle Gendered Hierarchies of Dependency Patrizia Kokot-Blamey,2023-07-19

Accountancy is an elite profession wielding its influence in every step we take in business and political life from takeover to bankruptcies and from Brexit to war we need accountants to help us see the bigger picture and to enable us to trust one another in public life But for much of the profession's history women were excluded from it and while we have seen great advances in women's access to the profession women remain significantly underrepresented at the top of the hierarchy and amid partnership ranks across the industry and globally Importantly there are noteworthy differences in the severity of this underrepresentation across national borders which remain underexplored Gendered Hierarchies of Dependency considers this underrepresentation of women at partnership level cross nationally and through a feminist lens analysing interviews with female partners in Germany and the United Kingdom In doing so Kokot Blamey innovatively merges insights from accountancy and organization studies political economy and the feminist ethics of care literature to contribute to contemporary debates about women at work neoliberalism and the capitalist fiction of the autonomous self Beyond career advancement to partnership Kokot Blamey examines several timely issues such as the persistence of discrimination and sexism at work motherhood and weathering recessions and economic crises in accountancy Revealing important insights into the day to day working and private lives of modern elites this book shows how hierarchies are negotiated differently across borders but that the outcomes are always gendered **An Architect's Experiences** Alfred Darbyshire,1897
