New Land, New Lives Janet Elaine Guthrie,2016-06-01 New Land New Lives captures the voices of Scandinavian men and women who crossed the Atlantic during the early decades of the 20th century and settled in the Pacific Northwest Based on oral history interviews with 45 Danes Finns Icelanders Norwegians and Swedes more than half of them women the book is illustrated with family photographs and also includes background information on Scandinavian culture and immigration Standardization as Sociolinguistic Change Marie Maegaard,Malene Monka,Kristine Køhler Mortensen,Andreas Candefors Stæhr,2019-12-06 This volume seeks to extend and expand our current understanding of the processes of language standardization drawing on both quantitative and qualitative approaches to examine how linguistic variation plays out in various ways in everyday life in Denmark The book compares linguistic variation across three different rural speech communities underpinned by a transversal framework which draws upon different methodological and analytical approaches as well as data from different contexts across different generations and results in a nuanced and dynamic portrait of language change in one region over time Examining communities with varying degrees of linguistic variation with this multi layered framework demonstrates a broader need to re examine perceptions of language standardization as a

unidirectional process but rather as one shaped by a range of factors at the local level including language ideologies and mediatization A concluding chapter by eminent sociolinguist David Britain brings together the conclusions drawn from the preceding chapters and reinforces their wider implications within the field of sociolinguistics Offering new insights into language standardization and language change this book will be of particular interest to students and scholars in sociolinguistics dialectology and linguistic anthropology

Caught in the Enchanter's Net Amalie Skram, 2003 Amalie Skram was a major nineteenth century Norwegian novelist whose novels such as *Lucie* evoke both the atmosphere of her native town and the battles of the sexes at a time when sexual morality was the subject of a great Nordic debate Erik Skram wa *Minority Education and Ethnic Survival* Michael Byram, 1986 This book is a study of the relationship between the education system of a minority and its ethnic identity The study is based on ethnographic fieldwork in one of the minority s schools and focuses particularly on the experience of school leavers

The Well Spring of the Goths Ingemar Nordgren, 2004 The Goths a rumored people first known by history around the river Vistula in present Poland was the people that more than other contributed to the fall of the Roman Empire It was however also the Goths who preserved the Roman culture against other Germanic tribes Earlier it has been generally assumed the Goths originated in Scandinavia but during the 20th c many scholars have grown skeptical The author has using both Classical and Nordic sources and supplementary sciences made probable there is an intimate connection between the Goths and the Nordic countries Consequently it is quite possible that at least part of the Goths have a Nordic origin The book rests on the basic hypothesis that the Goths are not a people but a number of tribes and peoples united through a common religious cultic origin The old dispute concerning the relationship between Svear and Gautar also gets quite a new meaning The book is interdisciplinary and embraces history religion arts linguistics and archaeology In 1999 Ingemar Nordgren received his Ph D at Odense University Denmark The book builds to a considerable extent on his dissertation but has been updated and partly rewritten with brand new material
