 the sounds of rock music some brave musicians looked back instead trying to recover the lost treasures of English roots
 music and update them for the new age The records of Fairport Convention Pentangle Steeleye Span and Nick Drake are
 known as folk rock today but Rob Young's epic electrifying book makes clear that those musicians led a decades long quest to

recover English music and with it the ancient ardor for mysticism and paganism for craftsmanship and communal living It is a commonplace that rock and R B came out of the folk and blues revivals of the early 1960s and Young shows through enchanting storytelling and brilliant commentary that a similar revival in England inspired the Beatles and Pink Floyd Led Zeppelin and Traffic Kate Bush and Talk Talk Folklorists notated old songs and dances Marxists put folk music forward as the true voice of the people Composers like Benjamin Britten and Ralph Vaughan Williams devised rich neo traditional pageantry Today the pioneers of the acid folk movement see this music as a model for their own Electric Eden is that rare book which has something truly new to say about popular music and like Greil Marcus's *Lipstick Traces* it uses music to connect the dots in a thrilling story of art and society of tradition and wild idiosyncratic creativity Distant Cycles Richard Kramer, 1994-07-20 Franz Schubert's song cycles *Schöne Müllerin* and *Winterreise* are cornerstones of the genre But as Richard Kramer argues in this book Schubert envisioned many other songs as components of cyclical arrangements that were never published as such By carefully studying Schubert's original manuscripts Kramer recovers some of these distant cycles and accounts for idiosyncrasies in the songs which other analyses have failed to explain Returning the songs to their original keys Kramer reveals linkages among songs which were often obscured as Schubert readied his compositions for publication His analysis thus conveys even familiar songs in fresh contexts that will affect performance interpretation and criticism After addressing problems of multiple settings and revisions Kramer presents a series of briefs for the reconfiguring of sets of songs to poems by Goethe Rellstab and Heine He deconstructs *Winterreise* using its convoluted origins to illuminate its textual contradictions Finally Kramer scrutinizes settings from the *Abendrote* cycle on poems by Friedrich Schlegel for signs of cyclic process Probing the farthest reaches of Schubert's engagement with the poetics of *lieder* *Distant Cycles* exposes tensions between Schubert the composer and Schubert the merchant entrepreneur **For the Sake of a Song** Marett, Allan, Barwick, Linda, Ford, Lysbeth, 2013-06-27 Wangga originating in the Daly region of Australia's Top End is one of the most prominent Indigenous genres of public dance songs This book is organised around six repertories four from the Belyuen based songmen Barrtjap Muluk Mandji and Lambudju and two from the Wadeye based Walakandha and Ma yawa wangga groups the repertories being named after the ancestral song giving ghosts of the Marri Tjavin and Marri Ammu people respectively Framing chapters include discussion of the genre's social history musical conventions and the five highly endangered languages in which the songs are composed The core of the book is a compendium of recordings transcriptions translations and explanations of over 150 song items Thanks to permissions from the composers families and a variety of archives and recordists this corpus includes almost every wangga song ever recorded in the Daly region The American Booksellers Guide, 1869 *Work Songs* Ted Gioia, 2006-04-13 *DIV* The place of music in different forms of work from the earliest hunting and planting to the contemporary office *div* Enough to Say It's Far Chaesam Pak, 2006-07-03 This is the first English translation of selected poems by one of the most important and unusual modern poets of South Korea In contrast
