The Dilemma Of Modernity Philosophy Culture And Anticulture Suny Series In Philosophy:

The Dilemma of Modernity Lawrence E. Cahoon, 1988-01-01 The development of modern culture along subjectivist lines has led to an analogue of psychological narcissism to philosophical narcissism in the culture The intrinsic value of human cultural activity has been lost and the intellectual foundation of the modern world view has been destroyed Cahoon carefully develops the idea of subjectivity and narcissism using psychological theory the dialectical theory of the Frankfurt school and historians The core of his interpretive argument is developed through careful analysis of Descartes and Kant as well as of Husserl and Heidegger Cahoon maintains a carefully controlled continuity between the analysis of philosophic positions and what they reveal about culture In the conclusion he moves toward a recreation of culture in non subjectivist naturalism Insights are drawn from Freud Fairbairne Winnicott Kohut Sennett Lasch Horkheimer Adorno Dewey Cassirer Kundera and Buchler

The Emergence of Value Lawrence Cahoon, 2023-09-01 Philosophers social scientists and natural scientists argue over whether a natural scientific account of human being is compatible with uniquely human norms like ethics justice art and the concern for truth Many attempts at such an account have been tried and failed others like evolutionary psychology have tried but stumbled *The Emergence of Value* argues that a broad enough understanding of nature and human nature can incorporate human values and norms without reducing them to inhuman processes Lawrence Cahoon advances the position that nature includes values as well as facts and human uniqueness is therefore compatible with nature as it must be To demonstrate this we must consider multiple sciences and recent philosophical traditions and their impact on our notions of truth morality justice and beauty

The Presence of Feeling in Thought Bernard D. den Ouden, Bernard Den Ouden, Marcia Moen, 1991 The essays in this volume focus on the cognitive functions of feeling and the body They are wide ranging in terms of methodologies and problematics represented Authors argue for example that the body functions as a schema of logical thought that through the body we have access to an intricacy more ordered than language and logic that we benefit morally and socially by attention to the cognitive function of emotions and that we cannot maintain the dignity of the world nor extend value without aesthetic engagement Both

traditional philosophy and contemporary developments come into play in the essays **The Dilemma of Modernity**
