

The intent of this book is to supply members of this discomfited and threatened group—here provisionally defined as the American Majority—with a systematic diagnosis of the diseases and debilities that have laid them low and some suggestions for their recovery.

So many liberals having become minority racists and so many conservatives having become rootless cranks, so much religion having become social science and so much social science having become intellectual sleight-of-hand, the thoughtful Majority member has nowhere to turn but to himself. This, however, may be his salvation. In isolation the critical faculty cuts deeper. Only now is it possible to understand the tragic and humiliating fate of the American Majority because only now are a few Majority minds, deepened by decades of solitary contemplation and sharpened by the grim chronicle of events, finally tuning to the emergency wavelength of collective survival.

No one who reads this all-encompassing study of the American predicament will ever again view his country and himself in the same light. The author brilliantly recounts the tragedy of a great people, the Americans of European descent, who founded and built The United States and whose decline is the chief cause of America's decline. Although replete with cogent criticism of the people and events which have brought America low, the book ends on a positive, optimistic note, which envisions a resurgent American Majority liberating its institutions from the control of intolerant intellectuals innately programmed to destroy what they could never create.
