The Dynamics Of Soviet Politics Russian Research Center Studies:

The Dynamics of Soviet Politics Paul Cocks, Robert Vincent Daniels, Nancy Whittier Heer, 1976 The Dynamics of Soviet Politics is the result of reflective and thorough research into the centers of a system whose inner debates are not open to public discussion and review a system which tolerates no public opposition parties no prying congressional committees and no investigative journalists to ferret out secrets The expert authors offer an inside view of the workings of this closed system a view rarely found elsewhere in discussions of Soviet affairs Their work building as it does on the achievements of Soviet studies over the last thirty years is firmly rooted in established knowledge and covers sufficient new ground to enable future studies of Soviet politics and social practices to move ahead unencumbered by stereotypes sensationalism or mystification Among the subjects included are attitudes toward leadership and a general discussion of the uses of political history the dramatic cycles of officially permitted dissent the legitimacy of leadership within a system that has no constitutional provision for succession the gradual adoption of Western inspired administrative procedures and systems management a study of group competition and bureaucratic bargaining Khrushchev's virgin lands experiment and its subsequent retrenchment the apolitical values of adolescents the problems of integrating Central Asia into the Soviet system a history of peaceful coexistence and its current importance in Soviet foreign policy priorities and finally an overview of Soviet government as an extension of prerevolutionary oligarchy with an emphasis on adaptation to political change [The Politics of Soviet Culture](#) Timothy Edward O'Connor, 1983 *Productivity and the Social System* Abram Bergson, 1978 The question of the comparative efficiency of socialism long debated in theoretical discussions is explored in depth in these studies Abram Bergson one of the foremost Western scholars of the Soviet system focuses especially on socialism as found in the USSR and thus on the famous Soviet model **Russian Research Center Studies**, 1964 *The International Politics of Eurasia: v. 2: The Influence of National Identity* S. Frederick Starr, Karen Dawisha, 2016-09-16 First Published in 1995 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The contributors were chosen not only for their recognized expertise but also to ensure a stimulating diversity of perspectives and a dynamic mix of approaches This is Volume 2 on National Identity and Ethnicity In Russia and the New States of Eurasia edited by Roman Szporluk *The International Politics of Eurasia: v. 4: The Making of Foreign Policy in Russia and the New States of Eurasia* S. Frederick Starr, Karen Dawisha, 2024-11-01 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The collapse of the Soviet Union and the discrediting of Marxism Leninism as a source of political legitimacy have prompted a search for fresh

principles of political organization that will shape the nature of political culture in all the post Soviet countries This volume looks at the making of foreign policy in Russia and the new states of Eurasia [The International Politics of Eurasia: v. 5: State Building and Military Power in Russia and the New States of Eurasia](#) S. Frederick Starr, Karen Dawisha, 2024-11-01 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The collapse of the Soviet Union and the discrediting of Marxism Leninism as a source of political legitimacy have prompted a search for fresh principles of political organization that will shape the nature of political culture in all the post Soviet countries This volume looks at military power and state building *Political Survival and Sovereignty in International Relations* Jesse Dillon Savage, 2020-03-12 Why do political actors willingly give up sovereignty to another state or choose to resist sometimes to the point of violence Jesse Dillon Savage demonstrates the role that domestic politics plays in the formation of international hierarchies and shows that when there are high levels of rent seeking and political competition within the subordinate state elites within this state become more prepared to accept hierarchy In such an environment members of society at large are also more likely to support the surrender of sovereignty Empirically rich the book adopts a comparative historical approach with an emphasis on Russian attempts to establish hierarchy in post Soviet space particularly in Georgia and Ukraine This emphasis on post Soviet hierarchy is complemented by a cross national statistical study of hierarchy in the post WWII era and three historical case studies examining European informal empire in the nineteenth and early twentieth centuries *Defending Memory in Global Politics* Erica Resende, Dovilė Budrytė, Douglas Becker, 2025-01-27 This book explores the securitization of memory in times of crisis using overlooked cases from the Global South and the Global North Instead of focusing exclusively on national identities and state actors it explores various identities including substate and transnational actors and their role in defending memory during times of crisis Embracing a broad definition of conflict that includes mnemonic societal and armed conflicts the expert contributors engage with political trauma demonstrating its power to evoke commemorations and other shared practices of collective remembrance shaping and perpetuating collective memory the construction of national and transnational identities national interests and foreign policy behaviors The book contributes to the fields of memory and trauma studies and ontological security in international relations It will also be of interest to scholars and students of political science sociology international relations history nationalism and identity international studies cultural geography social psychology cultural studies and anthropology [The International Politics of Eurasia](#) Karen Dawisha, Bruce Parrott, 2024-11-01 This ambitious ten volume series develops a comprehensive analysis of the evolving world role of the post Soviet successor states Each volume considers a different factor influencing the relationship between internal politics and international relations in Russia and in the western and southern tiers of newly independent states The collapse of the Soviet

Union and the discrediting of Marxism Leninism as a source of political legitimacy have prompted a search for fresh principles of political organization that will shape the nature of political culture in all the post Soviet countries This volume analyzes the nature of the emerging political cultures and their impact on the processes of democratization in these new states
