Corruption and Economic Growth in Africa David N. Abdulai, 2023-12-28 Corruption is one of the major challenges impeding Africa s growth and development efforts and its impact is much more pronounced at this point of the continent s development trajectory Corruption has political economic and social consequences and this book argues that any efforts to help Africa grow and develop must prioritise the fight against it so that the aid and funding given for projects in the region can continue to be sustained The book also tackles the issue of national security and instability caused by corruption The author argues that progress cannot happen in countries and environments where instability exists and persists Corruption in Africa has contributed to instability and other national security challenges especially in fragile states on the continent The book starts by looking at the three major types of corruption petty grand and systemic and then goes on to address the different categories of corruption such as bureaucratic legislative political as well as public and private sector aspects It also deals with common forms of corruption as well as some of the causes such as bad governance and excessive greed to mention a few Further it critically examines how current political systems on the continent contribute to this condition The book argues that some of the solutions that have been proposed to date are not viable or have not worked in practice and through applied research offers workable solutions that policy makers African politicians academics and students of economics and development can use as a reference guide in the fight against corruption

A History of Christianity in Africa Elizabeth Isichei, 1995 Isichei s thorough study surveys the full breadth of Christianity in Africa from the early story of Egyptian

Christianity to the churches of the Middle Years 1500 1800 to the prolific success of missions throughout the 1900s This important book fills a conspicuous void of scholarly works on Africa s Christian history Includes 26 maps **Modeling Servant-Leaders for Africa** Ndung'u John Brown Ikenye,2010 This book seeks to help African Christian leaders to follow the notions of biblical leadership as servant hood and to train men and women with biblical and academic knowledge which will be critical practical pastoral and applicable in the Kenyan context and participate in the discovery transmission and preservation of knowledge and stimulate the intellectual life and cultural development of Kenya **The Church in the Modern Age** Jeremy Morris,2007-03-28 Given the diversity and complexity of developments in the twentieth century a history of the Christian Church in the modern period is in some ways the most challenging volume of all to write But Jeremy Morris succeeds in presenting a coherent account of the Church He emphasises the changing relationship of Western churches to the many forms of Christianity in other parts of the world while also departing from the Eurocentric worldview of previous histories His volume offers three major perspectives The first is political in which the history of the modern Church is assessed through a prism of international conflicts and international relations The second perspective is regional in which coverage is given not only to Europe and the Americas but to Christianity in Africa the Middle East Asia the Pacific Rim and Australasia The author s third major perspective is institutional in which he discusses particular Christian traditions and their relationships with each other with other faiths and with wider cultures An epilogue evaluates the future and prospects for Christianity in the new millennium The Palgrave Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes,Toyin Falola,2024-03-07 This comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers scholarly study of what these voices teach us about how the world s most adhered to religion is practiced and understood on the continent of Africa **Handbook of Christian Prophetism in Africa** ,2025-08-14 More than half a century has passed since the first monographs on African Christian prophetism were published The prophetic element was only the most dramatic and prominent part of developments that sought to bring the biblical material alive in ways that had not been experienced in the ecclesiology of Western mission Christianity The ministries of African charismatic figures of the early 20th century were oriented towards the biblical phenomenon of the prophetic and the related issue of divine or faith healing sometimes even to the neglect of the use of bio medical resources

The developments have been interrogated in religious studies theology and the sociology and psychology of religion showing how important these churches have been in the African public sphere *Proceedings of the Church Missionary Society for Africa and the East...* Church Missionary Society,1907 Religion and Social Development in Post-apartheid South Africa Ignatius Swart,Hermann Rocher,Sulina Green,Johannes Erasmus,2010-10-01 It reflects original research and contributes to new developments in the field of theology and religion with regard to its developmental role within a transformation context The book may easily stand out in future as seminal in the way that it promoted the social development debate of the church and its organisational structures from an interdisciplinary focus Prof Antoinette Lombard Department of Social Work and Criminology University of Pretoria Africans in Diaspora and Diasporas in Africa Bulus Galadima,Sam George,2024-09-14 Africans are on the move They are moving within their nations across the continent and around the world This is not a new phenomenon From the days of historic slavery to modern times Africans in pursuit of education jobs business and safety have created a vibrant global diaspora Whether voluntarily or forcibly displaced they carry their values of spirituality community and hospitality wherever they go As the largest Christian continent in the world African Christianity is inevitable in diasporic discourses This collection of essays from leading scholars and seasoned practitioners reveals the journeys of modern African diasporas from a Christian perspective Timely and unprecedented it reveals how God moves with African people making himself known amongst them and through them **Modeling Servant-Leaders for Africa** Brown Ikenye,2010-12-29 This book seeks to help African Christian leaders to follow the notions of biblical leadership as servanthood and to train men and women with biblical and academic knowledge which will be critical practical pastoral and applicable in the Kenyan context and participate in the discovery transmission and preservation of knowledge and stimulate the intellectual life and cultural development of Kenya **A History of West Africa** Toyin Falola,2023-12-29 This book introduces readers to the rich and fascinating history of West Africa stretching all the way back to the stone age and right up to the modern day Over the course of twenty seven short and engaging chapters the book delves into the social cultural economic and political history of West Africa through prehistory revolutions ancient empires thriving trade networks religious traditions and then the devastating impact of the Trans Atlantic slave trade and subsequent colonial rule The book reflects on the struggle for independence and investigates how politics and economics developed in the post colonial period By the end of the book readers will have a detailed understanding of the fascinating and diverse range of cultures to be found in West Africa and of how the region relates to the rest of the world Drawing on decades of teaching and research experience this book will serve as an excellent textbook for entry level History and African Studies courses as well as providing a perfect general introduction to anyone interested in finding out about West Africa **The Legacy and Limits of Vatican II in an Age of Crisis** Catherine E. Clifford,Kristin M. Colberg,Massimo Faggioli,Edward P. Hahnenberg,2025-04-15 A renewed approach to the critical study of the event and documents of Vatican II necessary for responding to the challenges facing today s church

Packed with new insights from some of today's most highly regarded voices on the Second Vatican Council *The Legacy and Limits of Vatican II in an Age of Crisis* enacts the living tradition of the church by proposing a richer history to be told sixty years from its celebration and a broader theology to inspire our work today. Vatican II did not anticipate our contemporary challenges nor do its documents provide specific guidelines or step by step instructions for addressing them. But that does not make the council irrelevant. As a touchstone of the church's magisterial tradition, the Second Vatican Council remains foundational for the life and mission of the Catholic Church today. However, like any monument of the tradition, the council requires ongoing investigation, critical analysis, and constant reconsideration from a diversity of contemporary perspectives if it is going to contribute to the living tradition of the church. Through historical and theological lenses, the contributors aim to rediscover forgotten voices and overlooked moments of Vatican II that may have something even more important to say today. Each chapter promises to surprise, enlighten, inspire, and teach in fresh and unexpected ways. The contributors offer readers striking insights on the council's teaching related to the sexual abuse crisis, antiracism, politics, the Synod on Synodality, and much more. By reexamining the teaching of Vatican II from the perspective of our present ecclesial crisis, readers will have a better understanding of how its legacy and limits affect the ongoing reform of the church in a much changed theological, ecclesial, and social landscape.

The Church Struggle in South Africa John W. De Gruchy, 2005. No more heartrending yet hopeful case study in Christian ethics exists than in the story of South African apartheid and its recent decisive transformation. John de Gruchy's authoritative and newly updated account of Christian complicity with and then resistance to one of the world's most notoriously repressive regimes holds indispensable lessons and dangerous memories for all concerned about evil, justice, and racial reconciliation.
