Wood,2015-03-23 The fifth edition of this practical guide to interdisciplinary instruction focuses on the thinking and reasoning skills mandated by the Common Core State Standards and the content learning standards required by an increasing number of states The author provides an easy to follow step by step guide to designing creating and implementing unit and lesson plans for all learners Both pre service and in service elementary and

middle school teachers will find Wood's approach to be comprehensive with a strong theoretical foundation. Using Wiggins and McTighe's backward design process, Wood offers specific protocols for creating unit and lesson plans at the elementary and middle school levels.
