Iran and Christianity Mark Bradley, 2011-10-27 In this enlightening study Mark Bradley looks at the growing underground church in Iran. Given the hostility of the regime it is often assumed that Christianity is withering in Iran but in fact more Iranian Muslims have become Christians in the last 25 years than since the seventh century when Islam first came to Iran. Beginning with an in-depth look at the historical identity of Iran religiously, culturally and politically, Bradley shows how this identity makes Iranians inclined towards Christianity. He goes on to look at the impact of the 1979 revolution, an event which has brought war, economic chaos and totalitarianism to Iran and its implications for Iranian faith. The study concludes with an analysis of church growth since 1979 and an examination of the emerging underground church. This is a fascinating work guaranteed to improve any reader's knowledge of not only Iranian faith and church growth but of Iranian culture and history as a whole thanks to the thorough treatment given to the country's background.

Hopkins,2020-09-22 This work explores the interaction of American Protestant missionaries with Iranians during the 1960s and 1970s It focuses on the missionary activities of four American Protestant groups Presbyterians Assemblies of God International Missions and Southern Baptists It argues that American missionaries predisposition toward their own culture confused their message of the gospel and added to the negative perception of Christianity among Iranians This bias was seen primarily in the American missionaries desire to modernize Iran through education and healthcare and between the missionaries relationship with Iranian Christians Iranian attitudes towards missionary involvement in these areas are investigated as is the changing American missionary strategy from a traditional method where missionaries had the final say on most matters related to American and Iranian Christian interaction to the beginnings of an indigenous system where a partnership developed between the missionary and the Iranian Christian     **Edinburgh 2010** David A. a postcolonial literary perspective and a focus on the interaction between aesthetics and politics this book analyses Iqbal's Islamism through his poetry. It argues that his notion of an Islamist selfhood was expressed in his verse through the interplay between poetic tradition and creative innovation. It also considers how Iqbal expressed an Islamist geopolitical imagination in his work and examines his exploration of the relationship between the modern West and a reconstructed Islam. For the first time Iqbal's personal letters have been drawn upon to provide an insight into his inner conflicts as articulated in his poetry. Concentrating on the complexity of his work in its own right, the book eschews the standard appropriation of Iqbal into any one political agenda, be it Indian nationalism, Muslim separatism or Iranian Islamic republicanism. With its analytical and in-depth reading of Iqbal's verse and prose, this book opens a fresh perspective on Islam and postcolonialism. It will be a fascinating study for general readers and readers with interests in the intellectual and political history of modern South Asia, colonialism and postcolonialism, Islamic studies and modern South Asian literature, especially Urdu and Persian poetry.

The Church Going Global Tormod Engelsen, Erling Lundby, Dagfinn Solheim, 2011      **Cries for a Lost Homeland**

Guli Francis-Dehqani, 2021-08-25 Guli Francis Dehqani was born in Isfahan, Iran, to a family who were part of the tiny Anglican Church established by 19th-century missionaries. Her father, a Muslim convert, became the first indigenous Persian bishop. As the Islamic Revolution of 1979 swept across the country, church properties were raided, confiscated or closed down. Guli's father was briefly imprisoned before surviving an attack on his life which injured his wife. Soon after, whilst he was out of the country for meetings, Guli's 24-year-old brother, Bahram, a university teacher in Tehran, was murdered. No one was ever brought to justice and the family were advised to leave Iran. Guli was 14. They eventually settled in England with refugee status. Drawing on the riches of Persian culture and her own dramatic experience of loss of a homeland, Guli offers

*Fearful Times; Living Faith* Robert Boak Slocum, Martyn Percy, 2021-11-19 We live in fearful times with many threats and horrors. We've seen a pandemic, systemic racism and violence, resurgent nationalism and tribalism, polarization and mutual suspicion, insurrection, environmental peril due to climate change and on. We can feel helpless. But these threats give impetus for reflection on what faith has to say in any time of challenge. Where do we turn in real need? What makes a difference? What do we really believe? Can we speak in Christ's name against dishonesty, cruelty and neglect of the most needy and vulnerable in times of crisis? The recent pandemic and other horrors provide the catalyst for theology that lives today and in the future in fearful times and whatever comes next. As Christians, as people of faith, how do we find God alive in us and present in our

turmoil And how do we share that hope with others How can Christian faith help us bring the best out of the worst Can we rediscover our faith our church our lives in these times of crisis This volume presents a variety of perspectives and answers for questions of fearful times and living faith Toward the Twenty-first Century in Christian Mission James M.

*The Unthinkable Revolution in Iran* Charles Kurzman,2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre revolutionary Iran and that characterizes major protest movements His book provides a striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U S ambassador did revolutionary expectations become a self fulfilling prophecy A corrective to 20 20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect
