Patients and Healers in the Context of Culture Arthur Kleinman, 2023-04-28 From the Preface by Arthur Kleinman Patients and Healers in the Context of Culture presents a theoretical framework for studying the relationship between medicine psychiatry and culture That framework is principally illustrated by materials gathered in field research in Taiwan and to a lesser extent from materials gathered in similar research in Boston The reader will find this book contains a dialectical tension between two reciprocally related orientations it is both a cross cultural largely anthropological perspective on the essential components of clinical care and a clinical perspective on anthropological studies of medicine and psychiatry That dialectic is embodied in my own academic training and professional life so that this book is a personal statement I am a psychiatrist trained in anthropology I have worked in library field and clinic on problems concerning medicine and psychiatry in Chinese culture I teach cross cultural psychiatry and medical anthropology but I also practice and teach consultation psychiatry and take a clinical approach to my major cross cultural teaching and research involvements The theoretical framework elaborated in this book has been applied to all of those areas in turn they are used to illustrate the theory Both the theory and its application embody the same dialectic The purpose of this book is to advance both poles of that dialectic to demonstrate the critical role of social science especially anthropology and cross cultural studies in clinical
