The Evolution of Individuality Leo W. Buss, 2014-07-14 Leo Buss expounds a general theory of development through a simple hierarchical extension of the synthetic theory of evolution He perceives innovations in development to have evolved in ancestral organisms where the germ line was not closed to genetic variation arising during the course of ontogeny Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Universitas Thomas E. Boudreau, 1998-05-12 Believing that current educational policies and practices in American institutions of higher learning contribute to an incoherent disjunctive and wasteful four year experience for many undergraduates the author provides a sense of new direction to aid in the restructuring and reform of undergraduate education in America The primary question of the work is How can the years of undergraduate education empower the student with the knowledge and integrated set of skills needed for a lifetime of learning and productive work Boudreau focuses on the primary responsibility of all institutions of higher learning to provide a superior undergraduate education All other functions of a university should be secondary to this commitment Unfortunately this basic premise seems lost today This work argues that universities must undergo significant reform and renewal especially at the undergraduate level if they are to prepare students successfully for the future

The War Hotel Arlene Audergon, 2004-12-10 Human Nature is the fuel of violent conflict The War Hotel looks at how we get aroused and how we get silenced into violent conflict We are pulled apart in the name of justice and loyalty Past trauma is triggered into a replay Out of love and longing to step beyond the ordinary world we sacrifice ourselves and others Dehumanizing the enemy disinformation torture stirring fear in order to crack down these terror tactics too are based in psychology The manipulation of psychological dynamics to create violent conflict is distressing But if our emotions and behaviour are the fuel then our awareness can impact world events There is something truly hopeful here Awareness makes a difference Examples draw particularly from the author's work in the Balkans Other examples include Nazi Germany Rwanda the Israeli Palestinian conflict Communism and its fall in Europe South Africa the treatment of Native Americans and African Americans in the USA Vietnam and the war on terror

had a conversation with your spirit guide or talked to the spirit of someone who has passed away doesn't mean you are having a breakdown. It could mean you are having a breakthrough to a higher level of functioning. The author is a psychologist and knows the territory. **Depth Psychology** Dennis Patrick Slattery, 2004-10. Developed in the spirit of C. G. Jung and extended by the work of James Hillman. Areas covered include: The visible psyche, ego, persona, typology, The hidden psyche, self, shadow, unconscious, archetypes, instincts, Becoming who we are, early development, gender, Obstacles and helps to growth, complexes, projection, psychopathology, Helps from the psyche, psychic energy, self-regulation, compensation, symbol, synchronicity, creativity. Moore, 2003. Structured around a series of lectures presented at the Jung Institute of Chicago in a program entitled Jungian Psychology and Human Spirituality: Liberation from Tribalism in Religious Life, this book-length essay attacks the related problems of human evil, spiritual narcissism, secularism, and ritual and grandiosity. Robert Moore dares to insist that we stop ignoring these issues and provides clear, sighted guidance for where to start and what to expect. Along the way, he pulls together many important threads from recent findings in theology, spirituality, and psychology, and brings us to a point where we can conceive of embarking on a corrective course. Traditional doctrinal and historical interpretation both rely heavily on rational analysis. But from the disciples at Emmaus to the beginnings of the present century, it has been the impact of scripture upon the human heart that has changed human lives. In recent decades, this impact has been strengthened by advances in linguistic and literary theory, by such disparate influences as feminism, structuralism, Jungianism, deconstructionism, the analysis of archaic imagery and myth, the recovery of Gnostic texts, and finally, an openness to pluralism, whether ethnic, geographic, religious, or interpretive. All of these factors are treated here with a brevity and comprehensiveness which convincingly show that the reader of scripture has a creative and not merely passive role. If you would understand the deepest roots of terrorism, greed, and

religious fanaticism read *Facing the Dragon* But be forewarned you may find some offshoots in your own garden June Singer Jungian analyst author of *Boundaries of the Soul* Robert Moore Phd was an internationally recognized psychotherapist and consultant in private practice in Chicago He was considered one of the leading therapists specializing in psychotherapy with men because of his discovery of the Archetypal Dynamics of the Masculine Self King Warrior Magician Lover He served as Distinguished Service Professor of Psychology Psychoanalysis and Spirituality at the Graduate Center of the Chicago Theological Seminary and has served as a Training Analyst at the C G Jung Institute of Chicago He is Co founder of the Chicago Center for Integrative Psychotherapy

Bergson and History Leon ter Schure, 2019-09-27 Henri Bergson is famous for his explorations of time as duration yet he rarely referred to history in his writings Simultaneously historians and philosophers of history have generally disregarded Bergson's ideas about the nature of time Modernity has brought change at an ever accelerating rate and one of the results of this has been a tendency toward presentism Only the here and now matters as past and future have been absorbed by the omnipresent present of the digital age In highlighting the role of history in the work of Bergson Bergson and History shows how his philosophy of life allows us to revise the modern conception of history Bergson's philosophy situates history within a broader framework of life as a creative becoming allowing us to rethink important topics in the study of history such as historical time the survival of the past and historical progress
