The Heidegger Case On Philosophy And Politics:

The Heidegger Case Tom Rockmore, Joseph Margolis, 1992-04-29 Original essays raising issues concerning Heidegger s involvement with the Nazis Calhoun's Philosophy of Politics Guy Story Brown, 2000 John C Calhoun's A Disquisition on Government has been hailed since its publication in 1851 as a classic in political science and has been called the greatest work of American political theory Guy Story Brown s Calhoun s Philosophy of Politics is the first comprehensive explication de texte of Calhoun's great work on political theory. This traditional textual analysis places Calhoun's theory within the broader context of the political philosophy he himself studied from Aristotle to Bacon and the moderns on up to Rousseau and the Federalists It also pays close attention to Calhoun's literary models such as Livy The result is the definitive interpretation of Calhoun's political philosophy and theory This book makes Calhoun's philosophy accessible to contemporary thinkers and shows what Calhoun thought about issues such as world government Topics discussed in Calhoun's Philosophy of Politics include nature and political science empire and world government political science and government and political science and Heidegger's Polemos Gregory Fried, 2008-10-01 Gregory Fried offers in this book a careful investigation of Martin Heidegger's understanding of politics Disturbing issues surround Heidegger's commitment to National Socialism his disdain for liberal democracy and his rejection of the Enlightenment Fried confronts these issues focusing not on the historical debate over Heidegger's personal involvement with Nazism but on whether and how the formulation of Heidegger s ontology relates to his political thinking as expressed in his philosophical works. The inquiry begins with Heidegger's interpretation of Heraclitus particularly the term polemos war or in Heidegger's usage confrontation Fried contends that Heidegger invests polemos with broad ontological significance and that his appropriation of the word provides important insights into major strands of his thinking his conception of the human being understanding of truth and interpretation of history as well as the meaning of the so called turn in his thought Although Fried finds that Heidegger's politics are continuous with his thought he also argues that Heidegger's work raises important guestions about contemporary identity politics Fried also shows that many postmodernists despite attempts to distance themselves from Heidegger fail to avoid some of the same political pitfalls his thinking entailed Historical Destiny and National Socialism in Heidegger's Being and Time Johannes Fritsche, 2023-04-28 There has been much debate over the relationship of Heidegger's philosophy in particular his book Being and Time to his practical involvement with National Socialism Yet the guestion has never been addressed through a comparison of Being and Time with other texts on history and politics written at the time Johannes Fritsche does this providing a detailed interpretation of the relevant passages in Being and Time especially sections 72 77 on fate community and society He analyzes for comparison two other authors who explicitly regarded themselves as rightists Adolf Hitler Mein Kampf and Max Scheler Formalism in Ethics and other writings and two authors on the left Georg Luk cs History and Class Consciousness and Paul Tillich The Socialist Decision Fritsche concludes that Being and Time is a brilliant

summary of right wing politics in general which proposes the destruction of liberal society in order to regenerate an idealized community In addition Heidegger rejects positions on the right such as Scheler's that enabled their authors to distance themselves from the most extreme political rightists and thus he paves the way for National Socialism Being and Time Fritsche demonstrates must be seen as a clear case for the National Socialists and their project of revitalization of the Volksgemeinschaft the community of the people This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1999 There has been much debate over the relationship of Heidegger's philosophy in particular his book Being and Time to his practical involvement with National Socialism Yet the question has never been addressed through a comparison of Being and Ti **Revolutionary Saints:** Heidegger, National Socialism, and Antinomian Politics ,2002 The Political Vocation of Philosophy Donatella Di Cesare, 2021-05-27 It is time for philosophy to return to the city In today s crisis ridden world of globalised capitalism increasingly closed in on itself it may seem harder than ever to think of ways out Philosophy runs the risk of becoming the handmaiden of science and of a hollowed out democracy Donatella Di Cesare calls on philosophy instead to return to the political fray and to the city the global p lis from which it was banished after the death of Socrates Suggesting a radical existentialism and a new anarchism Di Cesare shows that Western philosophy has been characterised by a political vocation ever since its origins in ancient Greece and argues that the separation of philosophy from its political roots robs it of its most valuable and enlightening potential But critique and dissent are no longer enough Mindful of a defeated exile and an inner emigration philosophers should return to politics and forge an alliance with the poor and the downtrodden This passionate defence of the political relevance of philosophy and its radical potential in our globalised world will be of great interest to students and scholars of philosophy and to a wide general readership The Heideggar Case Tom Rockmore, Joseph Margolis, 1992 The relation between Martin Heidegger's philosophical thought and his political commitment has been widely discussed in recent years following the publication of Victor Far as s controversial study Heidegger and Nazism published in this country by Temple University Press The Heidegger Case is a collection of original essays by both American and European philosophers on issues raised by Heidegger's involvement with the Nazis The contributors consider such matters as the relationship between Heidegger's philosophical theories and his public statements and activities the ways in which his ideas on social and political life compare with those of other philosophers and the role of philosophy with respect to politics

An Ethical and Theological Appropriation of Heidegger's Critique of Modernity Zohar Atkins, 2018-08-18 This book is at once a deeply learned and original reading of Heidegger and a primary text in its own right It demonstrates the relevance of Heidegger's thought in responding to the moral and religious challenges of 21st century existence It shows that

Heidegger's project can be defended against many criticisms once its existential character is taken seriously What emerges is a powerful exercise in thinking not about Heidegger but with and against him As such Atkins engages Heidegger as a means of advancing a defense of spirituality in the modern world that holds spirituality itself accountable for its lapses into the mundane Addressing the most influential figures in recent Continental philosophy such as Emmanuel Levinas and Theodor W Adorno this is a work that will be of timely use to philosophers theologians artists and seekers **Racializing** Jesus** Shawn Kelley, 2005-07-08 Shows how the major intellectual movements of the modern world are infused with the idea of race and how this thinking has influenced modern biblical scholarship Explores a wide range of current debate

Shomali,2010-02-10 In the post positivist era in which Cartesian epistemology must be overcome we require a normative criterion of truth Without it rationality of our beliefs and justifiability of our political acts are in question This study seeks an epistemological criterion of truth that is attentive to the sociopolitical conditions that determine meaning
