The Girl Crusoes: A Story of the South Seas Herbert Strang, At noon on a day late in September the express train from London rested panting and impatient for a brief halt at the little countryside station of Poppicombe The arrival and departure of this train was the event of the day to most of the inhabitants not only of Poppicombe but of the surrounding villages There were quite half a dozen people standing on the platform and the station staff consisting of two men and a boy were moving about briskly One man was busily engaged in handing various newspapers and packages which had been thrown from the guard s van to the people who had been awaiting them the other man the stationmaster was exchanging a few words with the guard at the end of the platform while the boy porter looking about disconsolately for some doors to bang distinguished himself by suddenly slamming the open door of the luggage van much to the astonishment of the guard As soon as the train had rumbled away the young porter seized a newspaper from a pile standing on a trolley opened it at a particular page and after reading a few words let forth a wild war whoop Then in spite of the glare in the stationmaster s eye he rushed madly out of the station and looked excitedly up

Longhill Avenue There in the distance he saw coming slowly towards the station a young girl of twelve or thirteen years of age seated upon a sturdy Exmoor pony Although she sat her mount with the ease that comes only to the born rider a close observer would have noticed that the slight droop about her slim young shoulders became more pronounced as she neared her destination She was dressed in black and her plain wide brimmed sailor hat was trimmed only with a narrow band of crape She rode forward with an eye that seemed to ignore all outward objects her thin small featured face betokening a mood of deep despondency Her errand had been the same for many days and day after day she had met with nothing but disappointment A few weeks ago she had taken the journey at a canter Now in spite of her natural high spirits Tommy as she was called by her family and friends held the reins in such a listless fashion that the pony merely sauntered through the Avenue as though he too shared her depression Her lack of vigour was perhaps the more noticeable because her thin wiry body looked framed for energy There was an unmistakable air of health about the young girlish figure but Tommy although she was quite unconscious of it was suffering from fatigue of the spirit She had borne up bravely enough at first but successive daily disappointments had at length proved too much for her Now Longhill Avenue does not belie its name It has a hill and the hill is long and gently sloping with rows of tall chestnut trees on either side When Tommy had reached the foot of the hill she suddenly became aware that some one was shouting lustily She started and looking up quickly saw a quaint little figure dressed in corduroys with a peaked cap much too large for him wildly waving a paper and rushing towards her from the station yard as fast as hobnailed boots allowed She touched up her pony and was soon within hail of the freckled rosy cheeked young porter whose face was spread abroad with smiles

The Collage Aesthetic in the Harlem Renaissance

Rachel Farebrother, 2009 Beginning with a subtle and persuasive analysis of the cultural context Farebrother examines collage in modernist and Harlem Renaissance figurative art and unearths the collage sensibility attendant in Franz Boas's anthropology This strategy makes explicit the formal choices of Harlem Renaissance writers by examining them in light of African American vernacular culture and early twentieth century discourses of anthropology cultural nationalism and international modernism At the same time attention to the politics of form in such texts as Toomer's *Cane* Locke's *The New Negro* and selected works by Hurston reveals that the production of analogies juxtapositions frictions and distinctions on the page has aesthetic historical and political implications Why did these African American writers adopt collage form during the Harlem Renaissance What did it allow them to articulate These are among the questions Farebrother poses as she strives for a middle ground between critics who view the Harlem Renaissance as a distinctive and necessarily subversive kind of modernism and those who foreground the cooperative nature of interracial creative work during the period A key feature of her project is her exploration of neglected connections between Euro American modernism and the Harlem Renaissance a journey she negotiates while never losing sight of the particularity of African American experience Ambitious and wide ranging Rachel Farebrother's book offers us a fresh lens through which to view this crucial moment in American culture
