Heritage and Its Missions Cristóbal Gnecco, Adriana Schmidt Dias, 2025-03-04 Explores how heritage discourses and local publics interact at Catholic mission sites in the southwestern United States northern Mexico and the Southern Cone Interdisciplinary in scope and classed under the name critical heritage studies Heritage and Its Missions makes extensive use of ethnographic perspectives to examine heritage not as a collection of inert things upon which a general historical interest is centered but as a series of active meanings that have consequences in the social political and economic arenas This approach considers the places of interaction between heritage discourses and local publics as constructed spaces where the very materiality of the social and the political unfolds Heritage and Its Missions brings together researchers from several countries interested in the pre republican Catholic missions in the Americas as heritage Each essay discusses the past and

current heritage meanings applied to a specific mission by national and multicultural states local Indigenous and non Indigenous communities international heritage institutions and scholars They then address how heritage actors produce knowledge from their positioned perspectives how different actors collectives communities and publics relate to them how heritage representations are deployed and contested as social facts and how different conceptions of heritage collide collaborate and intersperse to produce the meanings around which heritage struggles unfold *Federal Register* ,1996-03

Ostrow,2003-12-15 The story of the missions is a compelling human drama that is a vital piece not only of California history but also of American history Indeed many keys to California s past lie in the stories of the 20 missions that stretch along the state s west coast from San Diego to San Francisco This vital series is compatible with the mission baed curriculum used in fourth grade California classrooms It resonates equally with all social studies programs that explore the defunct notion of colonialism and its controversial role in the history of the United States and with curricula that seek to explore the interaction of different cultures and the rights and voices of indigenous peoples **Mission Santa Cruz** Kim

Ostrow,2003-12-15 The Santa Cruz mission stands atop a hill just a few blocks away from downtown While the plain one story building seems to lack character inside is the story of soldiers settlers missionaries and pirates The content provided in this book aligned to California state standards will provide students with a greater insight into the story of Santa Cruz and California s mission system This book is filled with excellent primary source materials and visuals including illustrations paintings and maps **South San Francisco Bay Shoreline Project, Santa Clara County, California** United States.
