This thoughtful examination of a century of travel writing about the American West overturns a variety of popular and

academic stereotypes Looking at both European and American travelers accounts of the West from de Tocqueville s

Democracy in America to William Least Heat Moon s Blue Highways David Wrobel offers a counter narrative to the nation s romantic entanglement with its western past and suggests the importance of some long overlooked authors lively and

perceptive witnesses to our history who deserve new attention Prior to the professionalization of academic disciplines the reading public gained much of its knowledge about the world from travel writing Travel writers found a wide and respectful

audience for their reports on history geography and the natural world in addition to reporting on aboriginal cultures before the advent of anthropology as a discipline Although in recent decades western historians have paid little attention to travel

writing Wrobel demonstrates that this genre in fact offers an important and rich understanding of the American West one that extends and complicates a simple reading of the West that promotes the notions of Manifest Destiny or American

exceptionalism Wrobel finds counterpoints to the mythic West of the nineteenth century in such varied accounts as George Catlin s Adventures of the Ojibbeway and Ioway Indians in England France and Belgium 1852 Richard Francis Burton s The City of the Saints 1861 and Mark Twain s Following the Equator 1897 reminders of the messy and contradictory world that

people navigated in the past much as they do in the present His book is a testament to the instructive ways in which the best travel writers have represented the West Literature of Travel and Exploration Jennifer Speake,2014-05-12 Containing

The Cambridge Introduction to Travel Writing Tim Youngs, 2013-05-27 Critics have long struggled to find a suitable category for travelogues From its ancient origins to the present day the travel narrative has borrowed elements from various genres from epic poetry to literary reportage in order to evoke distant cultures and exotic locales and sometimes those closer to hand Tim Youngs argues in this lucid and detailed Introduction that travel writing redefines the myriad genres it comprises and is best understood on its own terms To this end Youngs surveys some of the most celebrated travel literature from the medieval period until the present exploring themes such as the quest motif the traveler's inner journey postcolonial travel and issues of gender and sexuality The text culminates in a chapter on twenty first century travel writing and offers predictions about future trends in the genre making this Introduction an ideal guide for today's students teachers and travel writing enthusiasts

Tourism and Sustainability Martin Mowforth, Ian Munt, 2008-09-22 If unequal opportunities are large within many countries they are truly staggering on a global scale so concludes the World Bank's 2006 World Development Report It is a global unevenness within which the barriers to in migration of Third World migrants to wealthy first world nations go ever higher whilst the barriers to travel in the reverse direction are all but extinct So how exactly can tourism contribute to narrowing this glaring inequality and gap between the rich and the poor Are ever expanding tourism markets and the new responsible forms of tourism in particular a smoke free socio culturally sensitive form of human industrialisation Is alternative tourism really a credible lever for lifting poverty stricken countries out of the mire of global inequality setting them on the right track to development and making poverty history Tourism and Sustainability critically explores and challenges what have emerged as the most significant universal geopolitical norms of the last half century development globalization and sustainability and through the lens of new forms of tourism demonstrates how we can better understand and get to grips with the rapidly changing new global order This third edition has been extensively updated and includes new material on poverty reduction livelihoods and pro poor tourism new forms of tourism in cities continuing growth of the fair trade movement tourism's contribution to climate change volunteer and gap tourism affect of disasters on new tourism Drawing on a range of examples from across the Third World Tourism and Sustainability illustrates the social economic and environmental conditions for the growth of new tourism The book is original in its assessment of tourism through the lens of power who holds it how it is used and who benefits from the exercise of power in the tourism industry Additionally the analysis is an interdisciplinary one and the book will therefore be useful to students of Human Geography Environmental Sciences and Studies Politics Development Studies Anthropology and Business Studies as well as Tourism itself

Tourism and Responsibility Martin Mowforth, Clive Charlton, Ian Munt, 2008 This book discusses the responsibility or otherwise of tourism activities in Latin America and the Caribbean It considers issues such as the reduction of poverty through tourism and the conflict between increasing volumes of air travel spent in our continuing search for pleasure and the resulting contribution to global warming The authors believe that tourism can only be adequately assessed through a consideration of how it fits into the structure of power It is also argued that tourism cannot be analyzed without a consideration of its impacts on and links with development This relationship between tourism responsibility power and development is explored in chapters covering both the macro and the micro level of responsibility The authors look at methods of practising tourism responsibly or irresponsibly at the personal company national and international levels The questions and dilemmas of placing responsibility in the tourism industry are examined throughout Widely illustrating all these themes and issues with examples and case studies from throughout the sub continent this book will be of importance to students and academics and to the work of practitioners of development and tourism related projects run by both
