Telling the Old Testament Story Dr. Brad E. Kelle, 2017-10-17 While honoring the historical context and literary diversity of the Old Testament Telling the Old Testament Story is a thematic reading that construes the OT as a complex but coherent narrative Unlike standard introductory textbooks that only cover basic background and interpretive issues for each Old Testament book this introduction combines a thematic approach with careful exegetical attention to representative biblical texts ultimately telling the macro level story while drawing out the multiple nuances present within different texts and traditions The book works from the Protestant canonical arrangement of the Old Testament which understands the story of the Old Testament as the story of God and God's relationship with all creation in love and redemption a story that joins the New Testament to the Old Within this broader story the Old Testament presents the specific story of God and God's relationship with Israel as the people called created and formed to be God's covenant partner and instrument within creation The Old Testament begins by introducing God's mission in Genesis The story opens with the portrait of God's good intended creation of right relationships Gen 1-2 and the subsequent distortion of that good creation as a result of humanity's rebellion Gen 3-11 Genesis 12 and following introduce God's commitment to restore creation back to the right relationships and divine intentions with which it began Coming out of God's new covenant engagement with creation in Gen 9 this divine purpose begins with the calling of a people who turn out

to be the manifold descendants of Abraham and Sarah to be God's instrument of blessing for all creation and thus to reverse the curse brought on by sin. The diverse traditions that comprise the remainder of the Pentateuch then combine to portray the creation and formation of Israel as a people prepared to be God's instrument of restoration and blessing. As the subsequent Old Testament books portray Israel's life in the land and journey into and out of exile, the reader encounters complex perspectives on Israel's attempts to understand who God is, who they are as God's people, and how therefore they ought to live out their identity as God's people within God's mission in the world. The final prophetic books that conclude the Protestant Old Testament ultimately give the story of God's mission and people an open-ended quality, suggesting that God's mission for God's people continues, and leading Christian readers to consider the New Testament's story of the Church as an extension and expansion of the broader story of God introduced in the Old Testament. The main methodological perspective that informs the book includes work on the phenomenological function of narrative, especially story's function to shape the identity and practice of the reader, as well as more recent so-called missional approaches to reading Christian scripture. Canonical criticism provides the primary means for relating the distinctive voices within the Old Testament texts that still honor the particularity and diversity of the discrete compositions. Accessibly written, this book invites readers to enter imaginatively into the biblical story and find the Old Testament's lively and enduring implications.

The Tradition of the Elders T. Hoogsteen, 2014-09-16 The Tradition of the Elders based on Matt 15 1-20 and Mark 7 1-23 explores how the oral law upheld and promoted the anti-Christian forces of Pharisaism and Sadduceism As such they appear repeatedly in the New Testament documents often as the law and the works of the law For example consider When Gentiles who have not the law do by nature what the law requires

they are a law to themselves even though they do not have the law Rom 2 14 We ourselves who are Jews by birth and not Gentile sinners yet who know that a man is not justified by works of the law but through faith in Christ Jesus even we have believed in Christ Jesus in order to be justified by faith in Christ and not by works of the law because by works of the law shall no one be justified Gal 2 15 16 Tell me you who desire to be under law do you not hear the law Gal 4 21 But which law do these legal references concern the Torah the oral law or the Decalogue This important distinction between the oral law and the Ten Commandments is what The Tradition of the Elders sets out to make clear All New Testament exegetes including teachers and students can benefit from an increased understanding of the enmity of the oral law against the Gospel embed container position relative padding bottom 56 25% height 0 overflow hidden max width 100% embed container iframe embed container object embed container embed position absolute top 0 left 0 width 100% height 100% **The Living Church**,1948
