The Omphalos And The Cross Pagans And Christians In Search Of A Divine Center:

The Omphalos and the Cross Paul Ciholas, 2003 In a post Constantine cultural and religious setting Christian theology was marked by a dialectical tension in which the spiritual could no longer be freed from the secular or the eternal from the temporal The Sibyls Mama Zogbé, 2007 What is now currently the holy seat of the Vatican in Italy was originally the sacerdotal seat of these ancient black Sibyl Queen Mothers Centuries before for Christ they were known to heal the sick restore dignity and strength to the weak and restore sight to the blind They were famous for curing lameness epileptics deaf mutes and lepers They were said to cast out demons and even to raise up the dead Their prophecies are the oldest and most authentic in the world They were the basis for Greek and Roman tragedies and plays More astonishing their prophetic books were later collected by the Roman authorities who needed a western theological foundation in order to compete with the powerful levitical Jews These Sibyl prophecies soon became the sole and undisputed precursor to the western Christian Bible

The Myth of Paganism Robert Shorrock, 2013-10-16 Traditional and still prevalent accounts of late antique literature draw a clear distinction between pagan and Christian forms of poetry whereas Christian poetry is taken seriously in terms its contribution to culture and society at large so called pagan or secular poetry is largely ignored as though it has no meaningful part to play within the late antique world The Myth of Paganism sets out to deconstruct this view of two contrasting poetic traditions and proposes in its place a new integrated model for the understanding of late antique poetry As the book argues the poet of Christ and the poet of the Muses were drawn together into an active often provocative dialogue about the relationship between Christianity and the Classical tradition and ultimately about the meaning of late antiquity itself An analysis of the poetry of Nonnus of Panopolis author of both a pagan epic about Dionysus and a Christian translation of St John s Gospel helps to illustrate this complex dialectic between pagan and Christian voices Re-appropriating "Marvelous Fables" Noël Pretila, 2013-10-17 Edwin Hatch provided a colorful portrait of the religious world to which Justin Martyr belonged The main subject matter of literary education amongst the pagans was the poets They were read as we read the Bible They were committed to memory The minds of men were saturated with them A quotation from Homer or from a tragic poet was apposite on all occasions and in every kind of society The Influence of Greek Ideas on Christianity 1957 So when some of these pagans converted to Christianity in Justin s day is it reasonable to assume that they simply forgot these mythical narratives in which they had been reared from childhood Re appropriating Marvelous Fables sets out to argue that this was hardly the case Rather Justin in 1 Apology can be seen taking full advantage of this mythical framework that still loomed large in the minds of fledgling Christian believers and students in his care masterfully re appropriating this popular form of religious discourse for the purpose of solidifying their newfound faith **Re-Appropriating 'Marvellous Fables'** Noel Wayne Pretila, 2014-09-25 Edwin Hatch provided a colourful portrait of the religious world to which Justin Martyr belonged The main subject matter of literary education amongst the pagans was the poets They were read as we read the

Bible They were committed to memory The minds of men were saturated with them A quotation from Homer or from a tragic poet was apposite on all occasions and in every kind of society The Influence of Greek Ideas on Christianity 1957 So when some of these pagans converted to Christianity in Justin's day is it reasonable to assume that they simply

Prophets and Profits Richard Evans, 2017-09-07 This volume examines the ways in which divination often through oracular utterances and other mechanisms linked mortals with the gods and places the practice within the ancient sociopolitical and religious environment Whether humans sought knowledge by applying to an oracle through which the god was believed to speak or used soothsayers who interpreted specific signs such as the flight of birds there was a fundamental desire to know the will of the gods In many cases pragmatic concerns personal economic or political can be deduced from the context of the application Divination and communication with the gods in a post pagan world has also produced fascinating receptions The presentation of these processes in monotheistic societies such as early Christian Late Antiquity where the practice continued through the use of curse tablets or medieval Europe and beyond where the role of religion had changed radically provides a particular challenge and this topic has been little discussed by scholars This volume aims to rectify this desideratum by providing the opportunity to address questions related to the reception of Greco Roman divination oracles and prophecy in all media including literature and film Several contributions in this volume originated in the 2015 Classics Colloquium held at the University of South Africa and the volume has been augmented with additional contributions

Translating the Message Lamin Sanneh, 2015-02-25

Ancient Apologetic Exegesis Stuart Parsons, 2015-02-05 New Testament scholarship uncovers much about first century Christianity Early Christian masters such as Origen and Augustine draw great attention to the third and following centuries Yet oddly despite this flood of attention to both the first century and to the third and later centuries the second century often escapes notice this despite its almost living memory of Jesus and his apostles from only a generation or two prior A distinctive biblical exegesis was used by those second century apologists who challenged Greco Roman pagan religionists Along with introducing the general shape of this ancient apologetic exegesis Ancient Apologetic Exegesis aims at its recovery as well Current literature often misunderstands or dismisses second century exegetical approaches But by looking behind anachronistic views of ancient genre literacy and rhetoric we can rediscover a forgotten form of early Christian exegesis

A Pledge of the Truth Taylor Evan Walls, 2024-04-12 Persecution false accusations and philosophical criticisms were all a common part of the life of the church in the second century Many Christian writers took up the mighty pen to defend the Christian faith Though often overlooked Theophilus of Antioch was one of these apologetic writers who boldly identified himself as a Christian and a believer in God's word In his only remaining work Ad Autolycum Theophilus shows the irrationality of the pagan worldview and defends the Christian faith with a firm commitment to the authority of Scripture The Scriptures are foundational to his defense of the Christian faith He presents the Scriptures both from the Old and New Testaments as a faithful guide and guarantee of truth on the nature of God the world and ethics The

Scriptures were efficacious in his own conversion to Christianity and so he uses those same divine words in order to call his pagan friend from idolatry to the truth of the one God In this book Taylor Evan Walls offers a systematic presentation of Theophilus understanding of the nature of Scripture and shows how this doctrine provided the foundation and structure for his defense of Christianity

On the Via Dolorosa with Christ Paul Ciholas, 2004 After two millennia the death and resurrection of Jesus Christ remain the foundation of Christian faith No matter how often the story of Easter is told and how much it is explained we are awed by the inscrutability of God's incarnation in Christ and find ourselves caught up in an event that transcends our understanding and surrounds us in a sea of divine love that belongs to the realm of mystery These forty mediations invite the reader to reflect on Christ's walk on the Via Dolorosa the path of suffering that a bruised and exhausted Jesus had to trudge from the place of his condemnation to the site of his crucifixion It is a sobering journey It is also a holy path toward God With the author the reader can walk from sacred place to sacred place and feel the transforming power of the presence of Christ In this pilgrimage we encounter a tormented Judas a bewildered Peter a transformed Thomas and two startled disciples on the road to Emmaus The passion story leads believers and readers through the tragic disintegration of moral and spiritual claims to a fresh reaffirmation of the promise of transfiguration and resurrection

Undoing Babel Tristan Major, 2018-01-01 Undoing Babel is the first extensive examination of the development of the Babel narrative amongst Anglo Saxon authors from late antiquity to the eleventh century

Disciples of All Nations Lamin O. Sanneh, 2008 Tracing the rise of Christianity to its key role in Europe's maritime and colonial expansion this text sheds light on the ways in which societies in Africa Asia and Latin America have been drawn into the Christian orbit

Uncovering Jewish Creativity in Book III of the Sibylline Oracles Ashley Bacchi, 2020-04-28 In Uncovering Jewish Creativity in Book III of the Sibylline oracles Ashley L Bacchi reclaims the importance of the Sibyl as a female voice of prophecy and reveals new layers of intertextual references that address political cultural and religious dialogue in second century Ptolemaic Egypt This investigation stands apart from prior examinations by reorienting the discussion around the desirability of the pseudonym to an issue of gender It questions the impact of identifying the author's message with a female prophetic figure and challenges the previous identification of paraphrased Greek oracles and their function within the text Verses previously seen as anomalous are transferred from the role of Greek subterfuge of Jewish identity to offering nuanced support of monotheistic themes

An Armenian Mediterranean Kathryn Babayan, Michael Pifer, 2018-05-07 This book rethinks the Armenian people as significant actors in the context of Mediterranean and global history Spanning a millennium of cross cultural interaction and exchange across the Mediterranean world essays move between connected histories frontier studies comparative literature and discussions of trauma memory diaspora and visual culture Contributors dismantle narrow national ways of understanding Armenian literature propose new frameworks for mapping the post Ottoman Mediterranean world and navigate the challenges of writing national history in a globalized age A century after the Armenian genocide this book

reimagines the borders of the Armenian pointing to a fresh vision for the field of Armenian studies that is omnivorously comparative deeply interconnected and rich with possibility Mami Wata: Africa's Ancient God/dess Unveiled Vol. I Mama Zogbé, 2007-11-26 This first definitive work on the predomiance of this powerful African deity throughout the ancient world has quickly become a cult classic The evolution of Mami Wata in establishing shaping and expanding the spiritual and sacerdotal foundation of world religion reveals also the lost but glorious past of African women s spirituality Hailed as the new bible on the history of African women this comprehensive well researched body of work will benefit academics students and all who are seeking to fill the missing void in world religious and cultural history Totaling over 800 pages it is reccomended that both heavily illustrated Volumes I II be purchased as a set *The City Lament* Tamar M.

Boyadjian, 2018-12-15 Poetic elegies for lost or fallen cities are seemingly as old as cities themselves In the Judeo Christian tradition this genre finds its purest expression in the book of Lamentations which mourns the destruction of Jerusalem in Arabic this genre is known as the ritha al mudun In *The City Lament* Tamar M Boyadjian traces the trajectory of the genre across the Mediterranean world during the period commonly referred to as the early Crusades 1095 1191 focusing on elegies and other expressions of loss that address the spiritual and strategic objective of those wars Jerusalem Through readings of city laments in English French Latin Arabic and Armenian literary traditions Boyadjian challenges hegemonic and entrenched approaches to the study of medieval literature and the Crusades *The City Lament* exposes significant literary intersections between Latin Christendom the Islamic caliphates of the Middle East and the Armenian kingdom of Cilicia arguing for shared poetic and rhetorical modes Reframing our understanding of literary sources produced across the medieval Mediterranean from an antagonistic orientalist model to an analogous one Boyadjian demonstrates how lamentations about the loss of Jerusalem whether to Muslim or Christian forces reveal fascinating parallels and rich cross cultural exchanges More Than a Memory Johan Leemans, 2005 Throughout its history persecutions and martyrdom have been Christianity s faithful companions Remarkably enough Christians have always valued martyrdom in a positive way This positive evaluation of martyrdom most certainly has to do with the absolute uncompromising nature of it The martyrs lives and deaths represent the most uncompromising of answers to the divine call The focus of the contributions in this volume is not in the first place on reconstructing the historical events of the martyr s life and death wie es eigentlich gewesen ist but on the discourse generated by this event as mediated in texts *More than a Memory* aims to explore the reciprocal relationship between this discourse of martyrdom and the construction of Christian identity It will do so by presenting a number of test cases in which this dynamic can be seen at work They will lead the reader through the entire history of Christianity starting with the Martyrdom of Lyons and Vienne in the second century and ending in the Latin America of the 1960 s Each article will present a test case of discourse analysis attempting to explore the issue of how a document or coherent group of documents contributed to create a distinct Christian identity Taken together the essays provide an array of examples of how martyrdom

impinged on the way Christian identity has been negotiated in the Christian past In doing this the volume at the same time illustrates the sheer importance of martyrdom and the reflection and writing about it throughout the history of Christianity until today *Traditionalism and Radicalism in the History of Christian Thought* C. Simut, 2010-09-27 This book is concerned with the presentation and analysis of certain dogmatic issues such as christology ecclesiology pastoral work anthropology faith and bioethics among many others all meant to illustrate how Christian thoughts stands between traditionalism and radicalism It is both a dogmatic study and a historical overview of the topic The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 Containing more than 300 articles covering the alphabetical entries P Sh this book also includes articles on significant topics ranging from Paul political theology and the Qur an to religious liberty salvation history and scholasticism **Elenchus of Biblica** , 2005
