Massimello, Russell Guest, Frank Olynyk, Winfried Bock, 2016-08-05 The third volume in the epic military aviation series focuses on the Allied invasion of North Africa during World War II This work of WWII history takes us to November 1942 to explain the background of the first major Anglo American venture Operation Torch the invasion of French North Africa Describing the fratricidal combat that followed the initial landings in Morocco and Algeria it then considers the unsuccessful efforts to reach northern Tunisia before the Germans and Italians could get there to forestall the possibility of an attack from the west on the rear of the Afrika Korps forces then beginning their retreat from El Alamein The six months of hard fighting that followed as the Allies built up the strength of their joint air forces and gradually wrested control of the skies from the Axis are recounted in detail The continuing story of the Western Desert Air Force is told as it advanced from the east to join hands with the units in the west Also covered are the arrivals over the front of American pilots and crew the P 38 Lightning the Spitfire IX and the B 17 Flying Fortress and of the much feared Focke Wulf Fw 190 The aerial activities over Tunisia became one of the focal turning points of World War II yet are frequently overlooked by historians Here the air sea activities the reconnaissance flights and the growing day and night bomber offensives are examined in detail Official Records of the Union and Confederate Navies in the War of the Rebellion United States. Navy Department, 1902 *The One-shot War* Brian O'Connor, 1980 **The Maritime Blockade of Germany in the Great War** John D. Grainger, 2020-11-25 The Tenth Cruiser Squadron of the Grand Fleet had the task of patrolling the seas between Scotland and Greenland to intercept enemy ships trying to escape into the ocean and merchant ships who could be carrying goods destined for Germany This was a task of great political sensitivity since almost all the ships intercepted were neutrals and requiring great physical endurance from ships and men in the violent North Atlantic The Maritime Blockade of Germany in the Great War is a comprehensive collection of the records of the Northern Patrol It consists of regular reports of the admirals in command to which are added other relevant official records and more informal documents There are the chatty letters of Captain Vivian and HMS Patia the appalling experiences of young officers placed in barely seaworthy sailing ships to see that they went into port for examination the pathetic mutiny by a bored distressed and underpaid black gang the diary of Able Seaman Style demonstrating the tedium of the patrol and the self satisfied diary of Dr Shaw There are also the casualties ships overwhelmed by storms sunk by enemy action torpedoed The ships of the Patrol were perhaps the most constantly active Royal Navy vessels in the Great War a barely acknowledged yet vital component in the eventual Allied victory The War of the Rebellion United States. War Department, 1882 Official records produced by the armies of the United States and the Confederacy and the executive branches of their respective governments concerning the military operations of the Civil War and prisoners of war or prisoners of state Also annual reports of military departments calls for troops correspondence between national and state governments correspondence between Union and Confederate officials The final volume includes a synopsis general index special index for various military divisions and background information on how these documents
