The Opal Desert Explorations Of The American Southwest:

The Opal Desert Peter Wild, 2010-07-22 The opalescent deserts of the American Southwest have become romantic icons in the public imagination through the words of writers the images of artists and photographers and the visual storytelling of filmmakers In this spirited personal beautifully written book Peter Wild explores the lives and works of sixteen writers whose words have shaped our visions of the opal desert Wild begins with Cabeza de Vaca whose Relaci n of his desert wanderings sent treasure hungry Spaniards searching for cities of gold He goes on to discuss the works of both widely read and lesser known nineteenth and twentieth century authors including such luminaries as Mary Austin Joseph Wood Krutch Edward Abbey Ann Zwinger and Charles Bowden He links all the writers as explorers of one kind or another searching for tangible or intangible treasures some finding and some losing their dreams in the opal desert **Writing the Southwest** David King Dunaway, Sara L. Spurgeon, 2003 The accompanying CD provides excerpts from the interviews with the authors **The New Desert Reader** Peter Wild, 2006 A slow change in outlook dominates the book as attitudes shift from viewing the desert as a place of sanctity then a land to be despised or exploited and back to an appreciation of it as a special place an arena of highly complex natural communities and a wild refuge for the human body and soul *Writing Arizona, 1912-2012* Kim Engel-Pearson, 2017-09-28 From the year of Arizona's statehood to its centennial in 2012 narratives of the state and its natural landscape have revealed and reconfigured the state's image Through official state and federal publications newspapers novels poetry autobiographies and magazines Kim Engel Pearson examines narratives of Arizona that reflect both a century of Euro American dominance and a diverse and multilayered cultural landscape Examining the written record at twenty five year intervals *Writing Arizona 1912-2012* shows us how the state was created through the writings of both its inhabitants and its visitors from pioneer reminiscences of settling the desert to modern stories of homelessness and from early twentieth century Native American as told to autobiographies to those written in Natives own words in the 1970s and 1980s Weaving together these written accounts Engel Pearson demonstrates how government leaders and boosters promotion of tourism often at the expense of minority groups and the environment was swiftly complicated by concerns about ethics representation and conservation Word by word story by story Engel Pearson depicts an Arizona whose narratives reflect celebrations of diversity and calls for conservation yet at the same time a state whose constitution declares only English words official She reveals Arizona to be constructed understood and inhabited through narratives a state of words as changeable as it is timeless **Getting Over the Color Green** Scott Slovic, 2001 Desert vistas are often deemed vacant inhospitable wastelands Don't suggest that to Joy Harjo Pat Mora or other contemporary southwestern writers In these arid stretches often devoid of green today's southwestern writers see pyrotechnic colors and Gothic shapes that excite and often overwhelm the imagination And they capture this excitement in words that fix these desert images in the minds of readers who may too often look at the world through green colored glasses This anthology of contemporary nature writing from the

Greater Southwest brings together a host of writers including peers of Edward Abbey such as Charles Bowden and Ann Zwinger and representatives of a new generation of writers such as Rick Bass and Terry Tempest Williams The book is an eclectic blend of nonfiction and fiction field notes and poetry through which artists of diverse backgrounds both celebrate and illuminate the unique vitality and complexity of southwestern literature proving that green is only one of many colors on their palette The selections included here range all across the southwestern landscape and explore adventures in the wild topics in natural history living close to the land and efforts at conservation and restoration They clearly demonstrate that there is grace and beauty in this often maligned part of the world both in the human traditions that have developed in the region and in the natural features of the desert itself [The Poetics and Politics of the Desert](#) Catrin Gersdorf,2009-01-01 This study explores the ways in which the desert as topographical space and cultural presence shaped and reshaped concepts and images of America Once a territory outside the geopolitical and cultural borders of the United States the deserts of the West and Southwest have since emerged as canonical American landscapes Drawing on the critical concepts of American studies and on questions and problems raised in recent debates on ecocriticism [The Poetics and Politics of the Desert](#) investigates the spatial rhetoric of America as it developed in view of arid landscapes since the mid nineteenth century Gersdorf argues that the integration of the desert into America catered to the entire spectrum of ideological and political responses to the history and culture of the US maintaining that the Americanization of this landscape was and continues to be staged within the idiomatic parameters and in reaction to the discursive authority of four spatial metaphors garden wilderness Orient and heterotopia [A Land Apart](#) Flannery Burke,2017-05-02 A new kind of history of the Southwest mainly New Mexico and Arizona that foregrounds the stories of Latino and Indigenous peoples who made the Southwest matter to the nation in the twentieth century Provided by publisher **The Invention of the Western Film** Scott Simmon,2003-06-30 Table of contents [The Immeasurable World](#) William Atkins,2018-07-24 Winner of the Stanford Dolman Travel Book of the Year UK William Atkins is an erudite writer with a wonderful wit and gaze and this is a new and exciting beast of a travel book Joy Williams In the classic literary tradition of Bruce Chatwin and Geoff Dyer a rich and exquisitely written account of travels in eight deserts on five continents that evokes the timeless allure of these remote and forbidding places One third of the earth s surface is classified as desert Restless unhappy in love and intrigued by the Desert Fathers who forged Christian monasticism in the Egyptian desert William Atkins decided to travel in eight of the world s driest hottest places the Empty Quarter of Oman the Gobi Desert and Taklamakan deserts of northwest China the Great Victoria Desert of Australia the man made desert of the Aral Sea in Kazakhstan the Black Rock and Sonoran Deserts of the American Southwest and Egypt s Eastern Desert Each of his travel narratives effortlessly weaves aspects of natural history historical background and present day reportage into a compelling tapestry that reveals the human appeal of these often inhuman landscapes [The Desert Encyclopedia](#) Robert Hauptman,2024-08-06 This reference work is the first English

language A Z compendium on all topics related to deserts including geography geology meteorology climatology hydrology botany zoology anthropology art music film culture sports as well as the specific and diversely different deserts that one finds in all parts of the world Definitions explanations and clarifications will be contained in more than 2 300 entries that vary in length from a brief sentence to detailed overviews of more complex subjects The Desert Encyclopedia will be invaluable as a source of data and information but it is also enjoyable to read straight through It is also replete with line drawings black and white illustrations maps and images from outstanding photographers *The Frontier of Leisure* Lawrence

Culver,2012-06-07 Tracing the history of Southern California from the late 19th century through the late 20th century this book reveals how this region did much more than just create lavish resorts like Santa Catalina Island and Palm Springs it literally remade American attitudes towards leisure *Tributary Voices* Paul A. Formisano,2022-04-26 The Colorado River is in crisis Persistent drought climate change and growing demands from ongoing urbanization threaten this life source that provides water to more than forty million people in the U S and Mexico Coupled with these challenges are our nation s deeply rooted beliefs about the region as a frontier garden and wilderness that have created competing agendas about the river as something to both exploit and preserve Over the last century and a half citizens and experts looked to law public policy and science to solve worsening water problems Yet today s circumstances demand additional perspectives to foster a more sustainable relationship with the river Through literary rhetorical and historical analysis of some of the Colorado River s lesser known stakeholders Tributary Voices considers a more comprehensive approach to river management on the eve of the one hundredth anniversary of the signing of the Colorado River Compact which governs the allocation of water rights to the seven states in the region Ranging from the early twentieth century to the present Tributary Voices examines nature writing women s narratives critiques of dam development the Latina o communities appeals for river restoration American Indian authors and tribal nations claims of water sovereignty and teachings about environmental stewardship and provident living This innovative study models an interdisciplinary approach to water governance and reinvigorates our imagination in achieving a more sustainable water ethic **Contested Waters** April R. Summitt,2013-04-15 To fully understand this river and its past one must examine many separate pieces of history scattered throughout two nations seven states within the United States and two within Mexico and sort through a large amount of scientific data One needs to be part hydrologist geologist economist sociologist anthropologist and historian to fully understand the entire story Despite this river s narrow size and meager flow its tale is very large indeed From the conclusion The Colorado River is a vital resource to urban and agricultural communities across the Southwest providing water to 30 million people Contested Waters tells the river s story a story of conquest control division and depletion Beginning in prehistory and continuing into the present day Contested Waters focuses on three important and often overlooked aspects of the river s use the role of western water law in its over allocation the complexity of power relationships surrounding the river and the concept of sustainable use and how it has been

either ignored or applied in recent times It is organized in two parts the first addresses the chronological history of the river and long term issues while the second examines in more detail four specific topics metropolitan perceptions American Indian water rights US Mexico relations over the river and water marketing issues Creating a complete picture of the evolution of this crucial yet over utilized resource this comprehensive summary will fascinate anyone interested in the Colorado River or the environmental history of the Southwest

The Culture of Hunting in Canada Jean L. Manore,Dale Miner,2011-11-01 The Culture of Hunting in Canada is about a pivotal but little studied aspect of Canadian history culture and society It covers elements of the history of hunting from the pre colonial period until the present in all parts of Canada featuring essays by practitioners and scholars of hunting and by pro and anti hunting lobbyists The result crosses the boundaries between scholarship and personal reflection and between academia and advocacy The essays collected here address important historical and contemporary issues regarding the culture and practice of hunting Topics include hunting identities conservation and its relationship to hunting tensions between hunters and non hunters and between Aboriginal and non Aboriginal hunting groups hunting ethics debates over hunting practices and regulations animal rights and gun control The discussion involves consideration of the social political and economic context as well as class and racial tensions between sport hunters and subsistence hunters The Culture of Hunting in Canada makes an unprecedented contribution to the study of hunting in Canada and its role in our culture It will appeal to sociologists anthropologists and historians of hunting culture wildlife biologists natural resource managers and environmentalists and not least hunters and anyone interested in the culture of hunting

The Most Defiant Devil Gregory J. Dehler,2013-08-12 The late nineteenth and early twentieth century were a brutal time for American wildlife with many species pushed to the brink of extinction Some are endangered to this day And yet these decades also saw the dawn of the conservationist movement Into this contradictory era came William Temple Hornaday a larger than life dynamo who almost uncannily embodies these conflicting threads in our history In The Most Defiant Devil a compelling new biography of this complex figure Gregory Dehler explores the life of Hornaday the hunter museum builder zoologist author conservationist and anti Bolshevik crusader A deeply religious man he was nonetheless anything but peaceful and was racist even by his era s standards going so far as to display an Mbuti pygmy as a living specimen in a zoo A passionate hunter Hornaday killed thousands of animals including some of the last wild buffalo in America but he was far ahead of his time in his influential views on the protection of wildlife Hornaday designed and built the New York Zoological Park which became the Bronx Zoo and was chief taxidermist for what would later become the Smithsonian Museum of Natural History In this single fascinating individual we can discern some of the Progressive Era s most destructive forces and some of its most enlightened visions
