**The Ordeal of Nationalism in Modern Europe, 1789-1945** Endre B. Gastony, 1992 A treatment of nationalism manifesting itself in an endless ordeal of wars and revolutions Based on thousands of original and secondary sources in four languages it is also cross disciplinary consulting works in psychology neurology sociology anthropology and political science

**War and the Rise of the State** Bruce D. Porter, 2002-02-01 States make war but war also makes states As Publishers Weekly notes Porter a political scientist at Brigham Young University demonstrates that wars have been catalysts for increasing the size and power of Western governments since the Renaissance The state s monopoly of effective violence has diminished not only individual rights and liberties but also the ability of local communities and private associates to challenge the centralization of authority Porter s originality lies in his thesis that war breaking down barriers of class gender ethnicity and ideology also contributes to meritocracy mobility and above all democratization Porter also posits the emergence of the Scientific Warfare State a political system in which advanced technology would render obsolete mass participation in war This provocative study merits wide circulation and serious discussion *Canadian Review of Studies in Nationalism* ,1996

konservativen Denken blieb das moderne Verständnis von Nation fremd In der volkischen Bewegung wurden zwar Errungenschaften der Moderne vereinnahmt aber nur um damit eine antimoderne Gesellschaft zu formen Im Zeitalter der Globalisierung und einem prognostizierten Bedeutungsverlust des Nationalstaates scheinen diese Fragestellungen an Bedeutung verloren zu haben allerdings ist bisher keine Vorstellung von einer politischen Gemeinschaft in Sicht die die Funktionen der Nation ersetzen kann
