The Ordinary Is Extraordinary How Children Under Three Learn:

The Ordinary is Extraordinary Amy Laura Dombro, Leah Wallach, 2016-04-19 Today's parents feel pressured to spend quality time preparing their child for success in school and life. This landmark book shows parents how and why everyday moments they share with their child, for instance preparing and eating dinner, giving the child a bath, and changing a child's diaper, are the most valuable educational activities of all. Home visitor's handbook for the Head Start home-based program option, 2004 Explorations with Young Children Anne W. Mitchell, Judy David, 1992 From the Bank Street College an approach to designing a curriculum which meets children's needs **Preschool Clues** Angela C. Santomero, Deborah Reber, 2018-04-03 The award-winning creator of Blue's Clues Super Why and Daniel Tiger's Neighborhood shares the secret sauce behind her shows' powerful transformative results in the form of eleven research-based foundational clues to ensure that preschoolers flourish academically, socially, and emotionally during this critical time. The preschool years, when children are between the ages of two and five, are the most influential important years in a child's life. Studies show that pausing to interact, playing to solve problems, diffusing with humor, and using repetition are the hidden clues conscious parents use to raise successful kids and help them learn critical thinking skills, foster empathy, and nurture their sense of self-worth. Angela C. Santomero, MA, the award-winning creator of children's television phenomena, knows this better than anyone and has spent decades working to instill confidence in her young viewers. In *Preschool Clues*, she breaks down the philosophy behind her shows, educating, inspiring, and empowering kids into concrete strategies that parents and educators can incorporate into their family and classroom to set their preschoolers up for success, such as intentionally pausing to foster bonding, independence, and resilience; developing empathy and confidence through soliciting preschoolers' help; becoming fluent in the language of preschoolers; playing; igniting your preschooler's curiosity; being an involved co-player every day; designing a healthy media diet. In *Preschool Clues*, Angela shares the latest research from top thinkers in child development and education. Through her practical, straightforward advice and inspiring conversational approach, you will not only understand exactly what your children are learning from the shows they watch and why these shows are so effective, you'll know exactly how to apply these same proven approaches in your daily life and with the same powerful results. **Concepts for Care** John Ronald Lally, Peter L. Mangione, Deborah Greenwald, 2006 Leading experts in infant/toddler development have contributed succinct essays drawn from research, theory, clinical case studies, and carefully documented practice. Each essay represents current thinking in the field of infant/toddler development and care. Individually and as a collection, the essays provide a springboard for reflection, discussion, and further exploration, especially for infant/toddler professionals seeking to enhance their programs and for students in the field of early care and education. **Working Mother**, 1988-07 The magazine that helps career moms balance their personal and professional lives.
