Chemistry of Tin P.J.

Smith,2012-12-06 In common with the editor of the first edition my own personal involvement with tin chemistry began when I had the privilege of studying for a PhD degree under the supervision of Professor Alwyn G Davies FRS at University College London UCL almost exactly 30 years ago Then following 21 years service with the International Tin Research Institute it was a great pleasure for me when the wheel turned full circle and in 1994 Alwyn now an Emeritus Professor asked me to return to UCL as an Honorary Research Fellow in the Chemistry Department One of my first tasks was when I received an invitation from Blackie A P to edit the second edition of the Chemistry of Tin which I was delighted to accept since it enabled me to continued my life long interest in tin chemistry and to maintain contact with my former friends and colleagues many of whom have contributed to this book Systematic Nomenclature of Organic, Organometallic and Coordination Chemistry Ursula Bünzli-Trepp,2007-01-01 For the first time chemists biochemists pharmacologists scientists at all levels in both academia and industry documentalists editors and software developers can rely on a user friendly book which contains everything required for the construction or interpretation of systematic names of organic organometallic or coordination compounds as well as those for more complicated molecules
