 Gild was also a machine cutting device in the sense that it
 really does vertically as that the sculpture was done while
 while working on it, and also that it is the light and shadow
 and, and final, vertical position. Gild became accustomed to
 this way and measured all his lettering work upright, in the
 In setting letters I find that I work with the stem, in the
 elements. The stem and stem-width largely determine the
 which the letter's vertical or slant orientation, and give the
 approximation in spacing. The stems are the chief means of

ing and modifications of the letter to left or right can most easily
 made with the thick stems. To begin, say, with the stem with a
 cule E would make impossible any change whatever in the width

of the stem, whereas beginning in the center of E's stem would enable
 the cutter, while cutting from the inside out, to correct his spacing and
 proportioning if necessary.

This is especially true when cutting quick letters from industrial
 roughly shaped letters. Of course the rule for cutting thick stems from
 is not without exceptions; there are cases when one cuts the stem before
 the body. For example, one would cut the stem bar in uppercase T first
 in one case when setting the letter, for reasons of space compression.

I find that I start at the center of the letter-stem and chisel out to
 reach the edge. The chisel, held at a moderate cutting angle, advances
 one on each side of the V-like channel until the lower edge is almost
 reached. At this stage, the under-arm, stem bar, and stem-taper are
 cut and finished. The chisel is generally held at a steeper angle in cutting
 out and finished. The chisel cut at the top where one needs a quick
 stroke, especially for the initial cut in the top where one needs a quick
 and exact 'bite' with the chisel. I find that I always cut with force, there

 side over the outer edges of the letters, which then are finished
 sides and into the outer edges of the letters, which then are finished
 in making round shapes I start with the thick walls which are analogous
 to the thick stem.

The Origin Of The Serif Brush Writing And Roman Letters:

The Origin of the Serif Edward M. Catich,1991 This handsomely illustrated book goes beyond a discussion of the serif Here you will find a new approach to the history lineage development of our alphabet a detailed explanation of letter cutting in stone the manner in which the brush differs from all other writing tools the role it played in the shaping of our classic Roman alphabet with a wealth of other information pertinent to the graphic arts During four years 1935 1939 of intensive paleographic epigraphic research in Rome Italy Fr Catich saw formulated the kinesthetic linkage between the inscription letter making of Imperial Rome his own familiar Chicago sign writing The serif is the short cross stroke at the beginning end of letter parts Its origin in Roman inscription letters is one of the uncharted areas of paleography In this book the author questions accepted theories as to the serif s origin advances his own theory with skillful reasoning detailed illustration epigraphic proof

The Origin of the Serif, Brush Writing and Roman Letters Edward M. Catich,1968 *The Art of the Hekatompedon Inscription and the Birth of the Stoichedon Style* Patricia A. Butz,2010-07-26 The purpose of this book is to present the Hekatompedon Inscription at Athens IG I3 4 as a major monument of Greek art legitimately on a par with more famous landmarks of the Greek aesthetic tradition like the Parthenon Frieze Inscribed most probably in the middle of the decade that saw the Greek response to the Persian invasion the Hekatompedon Inscription has long been recognized for its historical and religious importance This study looks at the inscription on its own terms the unique fusion of its visual and textual content in that most Greek of epigraphical layouts the stoikhedon style Such an approach leads to the question of origins where and why was the stoikhedon style formulated and where does the Hekatompedon Inscription stand in that development Egypt s influential system of proportions and use of grids will be considered determinative for the very first time

The Lettering of an Athenian Mason Stephen V. Tracy,1975 Revision of the author s thesis Harvard 1967 The Legibility of Serif and Sans Serif Typefaces John T. E. Richardson,2022-02-15 This open access book provides a detailed and up to date account of the relevant literature on the legibility of different kinds of typefaces which goes back over 140 years in the case of reading from paper and more than 50 years in the case of reading from screens It describes the origins of serif and sans serif styles in ancient inscriptions their adoption in modern printing techniques and their legibility in different situations and in different populations of readers It also examines recent research on the legibility of serif and sans serif typefaces when used with internet browsers smartphones and other hand held devices The book investigates the difference in the legibility of serif typefaces and sans serif typefaces when they are used to produce printed material or when they are used to present material on computer monitors or other screens and it explores the differences in readers preferences among typefaces The book s main focus is on the psychology of reading but there are clear implications for education and publishing Indeed the book can be read with benefit by anyone concerned with communicating with others through written text whether it is printed on paper or displayed on computer screens

The Typographic Medium Kate Brideau,2021-10-19 An

innovative examination of typography as a medium of communication rather than part of print or digital media. Typography is everywhere and yet widely unnoticed. When we read type we fail to see type. In this book, Kate Brideau considers typography not as part of print media or digital media but as a medium of communication itself, able to transcend the life and death of particular technologies. Examining the contradiction between typographic form, often overlooked, and function, often overpowering, Brideau argues that typography is made up not of letters but of shapes and that shape is existentially and technologically central to the typographic medium. After considering what constitutes typographic form, Brideau turns to typographic function and how it relates to form. Examining typography's role in both the neurological and psychological aspects of reading, she argues that typography's functions exceed reading; typographic forms communicate, but that communication is not limited to the content they carry. To understand to what extent the design and operations of the typographic medium affect the way we perceive information, Brideau warns we must understand the medium's own operational logic embodied in the full diversity of typographic forms. Brideau discusses a range of topics from intellectual property protection for typefaces to Renaissance and Enlightenment ideal letterforms and draws on a wide variety of theoretical work, including phenomenological ideas about comprehension, German media archaeology, and the media and communication theories of Vilém Flusser and others. Hand-drawn illustrations of typographic forms accompany the text.
