The Double Perspective Of Yeast's Aesthetic:

Of Sheep, Oranges, and Yeast Julian Yates, 2017-01-10 In what senses do animals plants and minerals write How does their writing mark our lives our past present and future Addressing such questions with an exhilarating blend of creative flair and theoretical depth *Of Sheep Oranges and Yeast* traces how the lives of yes sheep oranges gold and yeast mark the stories of those animals we call human Bringing together often separate conversations in animal studies plant studies ecotheory and biopolitics *Of Sheep Oranges and Yeast* crafts scripts for literary and historical study that embrace the fact that we come into being through our relations to other animal plant fungal microbial viral mineral and chemical actors The book opens and closes in the company of a Shakespearean character talking through his painful encounter with the skin of a lamb in the form of parchment This encounter stages a visceral awareness of what Julian Yates names a multispecies impression the way all acts of writing are saturated with the writing of other beings Yates then develops a multimodal reading strategy that traces a series of anthropo zoo genetic figures that derive from our comaking with sheep keyed to the story of biopolitics oranges keyed to economy and yeast keyed to the notion of foundation or infrastructure Working with an array of materials published and archival across disciplines and historical periods Classical to postmodern the book allows sheep oranges and yeast to dictate their own chronologies and plot their own stories What emerges is a methodology that fundamentally alters what it means to read in the twenty first century
