As in the Heart, So in the Earth

Pierre Rabhi, 2006-06-06 The world's leading expert on reversing soil desertification shows how ecology can flourish only when spiritual elements are present Uses a parable from the African oral tradition to provide a living testimony of what has been lost with the rise of modern technology Provides a vital account of the strong relationship between soil and soul and how this relationship can be restored As in the Heart So in the Earth is a strong indictment of a civilization that while seeking domination over the earth mutilates tortures and desecralizes it For Pierre Rabhi ecology is inseparable from spirituality He shows how the growing desertification of North Africa is a reflection of the desert that is claiming the hearts and souls of the inhabitants of the Western world how dead soil is mirrored in our deadened souls and how reconciliation with Mother Earth must be accompanied by relearning our ancestors reverence for the soil Using a traditional African parable grounded in the very wisdom of the earth Pierre Rabhi seeks to initiate the reader into a time when the people that dwelled on this planet did so harmoniously and could converse easily with the land Village elder Tyemoro recounts the gradual destruction of his village's culture and all that has sustained it as the miracles promised by modern technology brought more harm than good This

same drama is recurring throughout the world where indigenous value systems that have endured for millennia are torn apart by contact with modern civilization Yet Rahbi offers hope if those in the modern world will stop to hear the words of their ancestors who worked the land for our destiny is linked irrevocably to that of the earth **The Complete Works of Friedrich Nietzsche** Friedrich Wilhelm Nietzsche,1911 Science John Michels (Journalist),1889 Since Jan 1901 the official proceedings and most of the papers of the American Association for the Advancement of Science have been included in Science **A History of the Earth and Animated Nature** Oliver Goldsmith,1881 The Heart of the Earth Floyd Allen Marble,1987 **Earth as a Topical Application in Surgery** Addinell Hewson,1872 Earth Frank Townshend,1929
