Tindle, 2023-11-16 Minerals of Britain and Ireland is a completely comprehensive treatment of the minerals found in Britain Ireland and the surrounding islands [Exodus from Cardiganshire](#) Kathryn J Cooper, 2011-06-15 Was migration from Victorian Cardiganshire simply a flight from rural poverty This book relates the rate and timing of the outward movements from the county to the prevailing social and economic conditions **Welsh Minerals** Richard E. Bevins, 1982 **The Welsh Industrial Heritage** C. S. Briggs, 1992 **Bibliography of the History of British Metal Mining** Roger Burt, Peter Waite, 1988 **Bronze Age Connections** Peter Clark, 2009-09-03 New and exciting discoveries on either side of the English Channel in recent years have begun to show that people living in the coastal zones of Belgium southern Britain northern France and the Netherlands shared a common material culture during the Bronze Age between three and four thousand years ago They used similar styles of pottery and metalwork lived in the same kind of houses and buried their dead in the same kind of tombs often quite different to those used by their neighbours further inland The sea did not appear to be a barrier to these people but rather a highway connecting communities in a unique cultural identity the People of La Manche Symbolic of these maritime Bronze Age Connections is the iconic Dover Bronze Age boat one of Europe s greatest prehistoric discoveries and testament to the skill and technical sophistication of our Bronze Age ancestors This monograph presents papers from a conference held in Dover in 2006 organised by the Dover Bronze Age Boat Trust which brought together scholars from many different countries to explore and celebrate these ancient seaborne contacts Twelve wide ranging chapters explore themes of travel exchange production magic and ritual that throw new light on our understanding of the seafaring peoples of the second millennium BC **Mountains and Orefields** Nigel Jones, Mark Walters, Pat Frost, 2004 The extraction of natural resources has had a profound effect on the Welsh landscape and the exploitation of metal ores has been a feature of rural upland landscapes since the Bronze Age This report breaks new ground by providing a synthesis of information on a range of non ferrous metal mining sites and a broad chronological framework from Roman to Victorian times focusing in most detail on the period of rapid expansion in workings during the 18th and 19th centuries **The Gold Mines of Merioneth ...** George William Hall, 1975 **The Place-names of Cardiganshire** Iwan Wmffre, 2004 In these three volumes Iwan Wmffre presents a dictionary of some 15 000 place names in Cardiganshire Although Wmffre states that the work is not definitive it does succeed in its aim to demonstrate the historical evolution of place names and pronunciation highlighting trends in location and chronology The catalogue is preceded by a discussion of sources geography spelling variations and Welsh elements The bibliography is extensive **Bibliotheca Celtica** , 1985

Second Stages in Researching Welsh Ancestry John Rowlands, Sheila Rowlands, 1999 Anyone who has had any success in researching their Welsh ancestry will know that a grasp of specialized Welsh genealogical methods and sources is only one of several factors that contributed to that success They will know for example how important it is in Welsh research

to have some understanding of the social cultural religious and economic background of the communities in which those ancestors lived This book attempts to broaden that understanding especially for the period prior to 1800 when most researchers begin to experience difficulties In addition it aims to make readers more aware of some little known sources and the special uses that may be applied to the information found in these sources
