MetroGreen Donna Erickson, 2012-09-26 In metropolitan areas across the country you can hear the laments over the loss of green space to new subdivisions and strip malls But some city residents have taken unprecedented measures to protect their open land and a growing movement seeks not only to preserve these lands but to link them in green corridors Many land use and urban planning professionals along with landscape architects and environmental advocates have joined in efforts to preserve natural areas MetroGreen answers their call for a deeper exploration of the latest thinking and newest practices in this growing conservation field In ten case studies of U S and Canadian cities paired for comparative analysis Toronto and Chicago Calgary and Denver and Vancouver and Portland among them Erickson looks closely at the motivations and objectives for connecting open spaces across metropolitan areas She documents how open space networks have been

successfully created and protected while also highlighting the critical human and ecological benefits of connectivity MetroGreen's unique focus on several cities rather than a single urban area offers a perspective on the political economic cultural and environmental conditions that affect open space planning and the outcomes of its implementation

Sweeney, 2016-08-30 Arguably the most transformative force in contemporary society is the commitment to justice through diversity A prime example is the change justice through diversity has wrought on who enters teaches and administers the university It has changed the content of what is taught and the mission statements that define the purpose of higher education What is rarely defined however is justice and how it is related to diversity If justice is equality are all differences equal Are all differences in race gender sexual orientation national origin ethnicity religion and culture equal Should such differences be weighted differently and thus hierarchically On what basis are those differences to

be weighted and ranked to ensure equality Justice Through Diversity brings together a Who's Who of contemporary scholars to explore these questions and others in an attempt to understand one of the central commitments in the modern world

Overcoming America / America Overcoming Stephen C. Rowe, 2013-03-13 In *Overcoming America* America Overcoming Stephen Rowe shows how the moral disease and political paralysis that plague America are symptomatic of the fact that America herself has been overtaken by the modern values which she exported to the rest of the world He points to a way out of this current and potentially fatal malaise join other societies which are also struggling to move beyond the modern and consciously reappropriate those elements of tradition which have to do with cultivation of the mature human being To avoid fundamentalism Rowe discusses how this reappropriation must be undertaken in dialogue with those who also have come to recognize the unsustainable quality of the modern life and who have been able to live beyond the nihilistic wish to tear it down This book supports the call for an emerging global ethic and spirituality providing resources of articulation and interpretation that allow for an ongoing dialogue between traditional and modern values both worthy and problematic in their own ways through which reliable policy and healthy living become possible **Routledge Handbook of Global**

Populism Carlos de la Torre, 2018-10-10 This volume illustrates the diversity of populism globally When seeking power populists politicize issues and point to problems that need to be addressed such as inequalities the loss of national sovereignty to globalization or the rule of unresponsive political elites Yet their solutions tend to be problematic simplistic and in most instances instead of leading to better forms of democracy their outcomes are authoritarian Populists use a playbook of concentrating power in the hands of the president using the legal system instrumentally to punish critics and attacking the media and civil society Despite promising to empower the people populists lead to processes of democratic erosion and even transform malfunctioning democracies into hybrid regimes The Routledge Handbook of Global Populism provides instructors students and researchers with a thorough and systematic overview of the history and development of populism and analyzes the main debates It is divided into sections on the theories of populism on political and social theory and populism on how populists politicize inequalities and differences on the media and populism on its ambiguous relationships with democratization and authoritarianism and on the distinct regional manifestations of populism Leading international academics from history political science media studies and sociology map innovative ideas and areas of theoretical and empirical research to understand the phenomenon of global populism *The Underground Church* Robin Meyers, 2012-02-13 A new way to follow Jesus that draws on old ways of following Him The Underground Church proposes that the faithful recapture the spirit of the early church with its emphasis on what Christians do rather than what they believe Prominent progressive writer speaker and minister Robin Meyers proposes that the best way to recapture the spirit of the early Christian church is to recognize that Jesus following was and must be again subversive in the best sense of the word because the gospel taken seriously turns the world upside down No matter how the church may organize itself or

worship the defining characteristic of church of the future will be its Jesus inspired countercultural witness Debunks commonly held beliefs about the early church and offers a vision for the future rooted in the past Proposes that the church of the future must leave doctrinal tribalism behind and seek a unity of mission instead Archbishop Emeritus Desmond Tutu said Robin Meyers has spoken truth to power and the church he loves will never be the same **Stop the Next War Now** Medea Benjamin, Jodie Evans, 2010-11-12 Violence begets violence so believes the majority of people around the world who have stood up in protest against war Stop the Next War Now is a reflective look and call to action to end violence by acclaimed peace activists experts and visionaries including Eve Ensler Barbara Lee Arianna Huffington Janeane Garafalo Nancy Pelosi Maxine Hong Kingston and many more The book shares expert insight on the issues and powers that be that encourage war including the media politicians global militarization and the pending scarcity of natural resources A powerful smart and passionate work this book aims to educate and reflect on the effectiveness of peace movement activities and offer hope through shared ideas action steps and checklists to transform a culture of violence to a culture of peace How can people humanize each other ask the authors and act as responsible global citizens With vitality joy and a dash of CODEPINK style humor Stop the Next War Now insists that the time is ripe for the first ever global movement to put an end to war and tells readers what they can do about it **Global Extremes** Barbara A. sustainable world **Everyday Writing Center** Anne Ellen Geller, Michele Eodice, Frankie Condon, Meg Carroll, Elizabeth H. Boquet, 2007-04-01 The Everyday Writing Center challenges some of the most comfortable traditions in its field and it does so with a commitment and persuasiveness that one seldom sees in scholarly discussion The book at its core is an argument for a new writing center consciousness one that makes the most of the writing center's unique and uniquely fluid identity Writing center specialists live with a liminality that has been acknowledged but not fully explored in the literature Their disciplinary identity is with the English department but their mission is cross disciplinary their research is pedagogical but they often report to central administration Their education is in humanities but their administrative role demands constant number crunching This fluid identity explains why Trickster an icon of spontaneity shape shifting and the creative potential of chaos has come to be a favorite cultural figure for the authors of this book Adapting Lewis Hyde and others these authors use Trickster to develop a theme of ordinary disruptions the everyday as a source of provocative learning moments that can liberate both student writers and writing center staff At the same time the authors parlay Etienne Wenger's concept of community of practice into an ethos for a dynamic learner centered pedagogy that is especially well suited to the peculiar teaching situation of the writing center Through Trickster they question not only accepted approaches to writing center pedagogy but conventional approaches to race time leadership and collaboration as well They encourage their field to exploit the creative potential in ordinary events that are normally seen as disruptive or defeating and they challenge traditions in the field that tend to isolate a writing center director from the department and campus Yet all is not random for the authors anchor this high risk high yield approach in their commitment to a version of Wenger's community of practice Conceiving of themselves their colleagues student writers and student tutors as co learners engaged together in a dynamic life of learning the authors find a way to ground the excess and randomness of the everyday while advancing an ethic of mutual respect and self challenge Committed to testing a region beyond the edge of convention the authors of The Everyday Writing Center constantly push themselves and their field toward deeper more significant research and more reflective dynamic teaching
