The Ostpolitik Of The Federal Republic Of Germany

Hans Wilhelm Gatzke

The Ostpolitik Of The Federal Republic Of Germany:

Germany's Ostpolitik: Relations Between the Federal Republic and the Warsaw Pact Countries Lawrence L. Whetten, 1971 The Federal Republic of Germany and NATO Emil Kirchner, James Sperling, 2016-07-27 This book provides a systematic approach which explores the domestic regional and systemic factors shaping Germany's role in NATO Initially intended as stock taking of West Germany's interest and role in NATO over a forty year period this book has been transformed by events into a retrospective of what NATO has meant for West Germany and its partners between 1949 and 1989 and what NATO may mean in the future for a unified Germany for a Europe spanning the Atlantic to the Urals and for the USA The Ostpolitik and Political Change in Germany R. B. Tilford, 1975 **Federal Republic of Germany, a Country Study** Richard F. Nyrop, 1983 **Anatomy of Mistrust** Deborah Welch Larson, 2000 Synthesizing different understandings of trust and mistrust from the theoretical traditions of economics psychology and game theory Larson analyzes five cases that might have been turning points in U S Soviet relations *A History of Modern Germany* Dietrich Orlow, 2025-09-09 Now in its ninth edition A History of Modern Germany provides the most up to date and comprehensive survey of this complex country's history beginning in 1871 and ending in the present day Orlow tells the story of Germany's troubled past Prusso German authoritarianism the Nazi dictatorship and the Holocaust whilst also uncovering the long standing traditions of political cultural and economic pluralism that have existed alongside Over the years historians have debated the cause of Germany's volatile and unpredictable trajectory this textbook offers readers insight into this lively historiography While taking Germany as its focus this book also covers its interaction with the rest of the world including the two world wars and Germany's brief colonial experience This ninth edition is the only textbook that brings the story to the present day its new chapter on the years 2017 2024 delves into Germany's role in the global balance of power With Im Mittelpunkt In the Spotlight features on key figures and an expanded list of Suggestions for Further Reading this new edition remains the perfect grounding for all students of German history **The German Problem Transformed** Thomas Banchoff, 2010-05-06 Does the new more powerful Germany pose a threat to its neighbors Does the new German Problem resemble the old The German Problem Transformed addresses these questions fifty years after the founding of the Federal Republic and ten years after the fall of the Berlin Wall Many observers have underscored the reemergence of Germany as Europe's central power After four decades of division they contend Germany is once again fully sovereign without the strictures of bipolarity its leaders are free to define and pursue national interests in East and West From this perspective the reunified Germany faces challenges not unlike those of its unified predecessor a century earlier The German Problem Transformed rejects this formulation Thomas Banchoff acknowledges post reunification challenges but argues that postwar changes not prewar analogies best illuminate them The book explains the transformation of German foreign policy through a structured analysis of four critical postwar junctures the cold war of the 1950s the détente of the 1960s and 1970s the new

cold war of the early 1980s and the post cold war 1990s Each chapter examines the interaction of four factors international structure and institutions foreign policy ideas and domestic politics in driving the direction of German foreign policy at a key turning point This book will be of interest to scholars and students of German history German politics and European international relations as well as policymakers and the interested public Thomas Banchoff is Assistant Professor of Government Georgetown University

Germany and the United States, a "special Relationship?" Hans Wilhelm Gatzke,1980 A discerning statement about Germany and other nations this book reevaluates for the general reader and the historian the impact of rapid industrialization the origins of the world wars the question of war guilt the decade of Weimar democracy and the rise and fall of Hitler Gatzke looks anew at the economic miracle in West Germany and the consequences of making prosperity the cornerstone of a new republic

The Ostpolitik of the Federal Republic of Germany: 1950-1970 Dennis Copeland Malone,1973

Politics and Government in the Federal Republic of Germany Carl Christoph Schweitzer,1984

Britain, Germany and the Cold War R. Gerald Hughes,2007-06-11 This well researched book details the ambiguity in British policy towards Europe in the Cold War as it sought to pursue détente with the Soviet Union whilst upholding its commitments to its NATO allies From the early 1950s Britain pursued a dual policy of strengthening the West whilst seeking détente with the Soviet Union British statesmen realized that only through compromise with Moscow over the German question could the elusive East West be achieved Against this the West German hard line towards the East endorsed by the United States was seen by the British as perpetuating tension between the two blocs This cast British policy onto an insoluble dilemma as it was caught between its alliance obligations to the West German state and its search for compromise with the Soviet bloc Charting Britain's attempts to reconcile this contradiction this book argues that Britain successfully adapted to the new realities and made hitherto unknown contributions towards détente in the early 1960s whilst drawing towards Western Europe and applying for membership of the EEC in 1961 Drawing on unpublished US and UK archives Britain Germany and the Cold War casts new light on the Cold War the history of détente and the evolution of European integration This book will appeal to students of Cold War history British foreign policy German politics and international history

Germany in the World: A Global History, 1500-2000 David Blackbourn,2023-06-06 Brilliantly conceived and majestically written this monumental work of European history recasts the five hundred year history of Germany With Germany in the World award winning historian David Blackbourn radically revises conventional narratives of German history demonstrating the existence of a distinctly German presence in the world centuries before its unification and revealing a national identity far more complicated than previously imagined Blackbourn traces Germany's evolution from the loosely bound Holy Roman Empire of 1500 to a sprawling colonial power to a twenty first century beacon of democracy Viewed through a global lens familiar landmarks of German history the Reformation the Revolution of 1848 the Nazi regime are transformed while others are unearthed and explored as Blackbourn reveals Germany's leading role in creating modern

universities and its sinister involvement in slave trade economies A global history for a global age Germany in the World is a bold and original account that upends the idea that a nation's history should be written as though it took place entirely within that nation's borders

Modern Germany Volker Rolf Berghahn, 1987-11-27 Modern Germany presents a comprehensive overview and interpretation of the development of Germany in the twentieth century a country whose history has decisively shaped the map and the politics of modern Europe and the world in which we live Professor Berghahn is not merely concerned with politics diplomacy but also with social change economic performance and industrial relations For this new edition Professor Berghahn has broadened and extended his discussion of the two Germanies He also has updated the tables and bibliography

Germany 1989 Lothar Kettenacker, 2014-01-14 In autumn 1989 the world watched transfixed as East German citizens demonstrating under the banner We are the people staged the only successful totally peaceful revolution in German history By October 1990 the process of reunification was formally concluded bringing together a nation that had been divided for almost four decades Now nearly twenty years later it is possible to judge the causes and consequences of the revolution more clearly Was the fall of the Berlin Wall an unexpected fluke or was it in fact the result of a long process of engagement between East and West And did the momentous events of 1989 really signal the start of a bright new future for a united Germany In this probing and wide ranging account Lothar Kettenacker considers the background behind the division of Germany and explains how the Berlin Wall and its death trap border proved to be the most horrendous manifestation of East West antagonism He also looks beyond 1990 to show how the confusion caused by the sudden collapse of the GDR and the fusion of two radically different economies is proving to be a challenge that will preoccupy Germany for generations to come

State & Government in the Federal Republic of Germany N. Johnson, 2013-10-22 The second edition of Government in the Federal Republic of Germany first published in 1973 has been substantially rewritten and expanded and the title altered in recognition of an emphasis already present in the first edition and greatly enhanced after revision Since the first appearance of this authoritative text many changes in the details of organization and procedure have taken place as well as extensive changes in personnel and to some extent in the problems and policy issues which now face those responsible for government in the Federal Republic In considering these changes the author presents a view of the political institutions of the Federal Republic which develops logically and naturally from his earlier perspective

A History Of U.s. Military Forces In Germany Daniel J. Nelson, 2019-04-08 Discussing why the U S will remain in the FRG for the foreseeable future this book examines the U S military presence in Germany It shows how that presence has affected the development of the political and diplomatic relationship between the two countries

Russia and Germany Reborn Angela E. Stent, 2000-03-13 The relationship between Russia and Germany has been pivotal in some of the most fateful events of the twentieth century the two World Wars the Cold War and the emergence of a new Europe from the ashes of communism This is the first book to examine the recent evolution of that tense and often violent relationship from both the Russian and

German perspectives Angela Stent combines interviews with key international figures including Mikhail Gorbachev with insights gleaned from newly declassified archives in East Germany and her own profound understanding of Russian German relations She presents a remarkable review of the events and trends of the past three decades the onset of détente the unification of Germany the collapse of the Soviet Union and the rise of an uncertain new European order Stent reveals the chaos and ambivalence behind the Soviet negotiating strategy that led against Gorbachev's wishes to that old Soviet nightmare a united Germany in NATO She shows how German strength and Russian weakness have governed the delicate dance of power between recently unified Germany and newly democratized Russia Finally she lays out several scenarios for the future of Russian German relations some optimistic and others darkened by the threat of a new authoritarianism Russia and Germany Reborn is crucial reading for anyone interested in a relationship that changed the course of the twentieth century and that will have a powerful impact on the next

Area Handbook for East Germany Eugene K. Keefe, 1972
