Social Institutions Ibn Khalduns Social Thought:

Social Institutions Fuad Baali, 1992-06-30 This book deals with Ibn Khaldun's social perspective of the major institutions: the family, education, religion, politics, and economics. The family is seen in its association with city life. The role of the family and education in the development of human personality is emphasized. Ibn Khaldun dealt with the social dimension of knowledge in its many ramifications. Religion is discussed by stressing the social perspective rather than the theological, especially the reciprocal relationship between group solidarity and religion. Moreover, social solidarity plays a dynamic role in the formation and decline of political groups. Even economic activities are culturally defined. Such activities have a great impact upon social interaction, especially in dealing with the value of human labor and socioeconomic stratification. In spite of its highly innovative appearance, the Khaldunian theory was a product of a long series of the Islamic Arabic movements of thought.

Sociological Thought Nahla Abdo, 1998-10-28 Sociological Thought Beyond Eurocentric Theory is designed to provide students of sociology with an alternative vision of social theory. In an exciting and original introduction to the book, Abdo provides an innovative critique of the Eurocentric and male-oriented nature of conventional sociological textbooks and provides us with a new approach to understanding the field. The horizons of social theory are expanded by the inclusion of a chapter by Rosa Luxemburg and a chapter by the fourteenth-century Arab North African scholar Ibn Khaldun.

A History of Social Thought Emory Stephen Bogardus, 1922

Applying Ibn Khaldūn Syed Farid Alatas, 2014-06-05 The writings of Ibn Khaldūn, particularly the *Muqaddimah* (Prolegomenon), have rightly been regarded as being sociological in nature. For this reason, Ibn Khaldūn has been widely regarded as the founder of sociology or at least a precursor of modern sociology. While he was given this recognition, however, few works went beyond proclaiming him as a founder or precursor to the systematic application of his theoretical perspective to specific historical and contemporary aspects of Muslim societies in North Africa and the Middle East. The continuing presence of Eurocentrism in the social sciences has not helped in this regard; it often stands in the way of the consideration of non-Western sources of theories and concepts. This book provides an overview of Ibn Khaldūn and his sociology, discusses reasons for his marginality, and suggests ways to bring Ibn Khaldūn into the mainstream through the systematic application of his theory. It moves beyond works that simply state that Ibn Khaldūn was a founder of sociology or provide descriptive accounts of his works. Instead, it systematically applies Khaldūn's theoretical perspective to specific historical aspects of Muslim societies in North Africa and the Middle East, successfully integrating concepts and frameworks from Khaldūnian sociology into modern social science theories. Applying Ibn Khaldūn will be of interest to students and scholars of sociology and social theory.
