*The Social Practice of Symbolisation* Ivo Strecker, 2021-03-10 The author explores the cognitive basis of symbolization and symbolization as a social practice from the London School of Economics Monographs on Social Anthropology this book is intended for students of anthropology and development studies      The Social Practice of Symbolization Ivo A. Strecker, 2006

*Theorizing Rituals* Jens Kreinath, Michael Stausberg, 2006 Volume two of *Theorizing Rituals* mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of theorizing rituals      *Social Intelligence and Interaction* Esther N.

Goody, 1995-03-23 There is a growing view that intelligence evolved as a product of social interdependence The unique development of human intelligence was probably linked to the use of spoken language but language itself evolved in the context of social interaction and in its development it has shaped and been shaped by social institutions Taking as their starting point the social production of intelligence and of language scholars across a range of disciplines are beginning to rethink fundamental questions about human evolution language and social institutions This volume brings together anthropologists linguists primatologists and psychologists all working on this new frontier of research      *Mambila*

*Divination* David Zeitlyn, 2020-02-20 This book offers a major contribution to the study and analysis of divination based on continuing fieldwork with the Mambila in Cameroon It seeks to return attention to the details of divinatory practice using the questions asked and life histories to help understand the perspective of the clients rather than that of the diviners Drawing on a corpus of more than 600 cases David Zeitlyn reconsiders theories of divination and compares Mambila spider divination with similar systems in the area A detailed case study is examined and analysed using conversational analytic principles The regional comparison considers different kinds of explanation for different features of social organization leading to a discussion of the continuing utility of moderated functionalism The book will be of interest to area specialists and scholars concerned with religion rationality and decision making from disciplines including anthropology African studies and philosophy      Theorizing Rituals, Volume 2: Annotated Bibliography of Ritual Theory, 1966-2005 Jens Kreinath, J.A.M.

Snoek, Michael Stausberg, 2007-09-30 Volume two of *Theorizing Rituals* mainly consists of an annotated bibliography of more than 400 items covering those books edited volumes and essays that are considered most relevant for the field of ritual theory Instead of proposing yet another theory of ritual the bibliography is a comprehensive monument documenting four decades of theorizing rituals      **Language in Late Modernity** Ben Rampton, 2006-02-23 Provides a sociolinguistic account of classroom interaction based on research in an inner city high school      *Words and Processes in Mambila Kinship* David

Zeitlyn, 2005-01-01 *Words and Processes in Mambila Kinship* presents a set of studies of the way that Mambila speakers in Cameroon talk about themselves and their kin Author David Zeitlyn employs conversational analytic methods to further the

study of kinship terminologies This book takes an important step toward a new synthesis between the practice of ethnography and the study of language while presenting African natural language data still rare in mainstream linguistics in an accessible format     *Professional Identities* Shirley Ardener, Fiona Moore, 2007 In both professional and academic fields there is increasing interest in the way in which white collar workers engage with institutions and networks which are complex social constructions Covering a wide variety of countries and types of organization this volume examines the diverse ways in which individuals ethnic gender corporate and professional identities interact This book brings together fields often viewed in isolation ethnographies of groups traditionally studied by anthropologists in new organisational contexts and examinations of the role of identity in corporate life opening up new perspectives on central areas of contemporary human activity It will be of great interest to those concerned with practical management of institutions as well as those of us who find ourselves working within them     **Ibss: Anthropology: 1988** British Library of Political and Economic Science, 1992 This bibliography lists the most important works in anthropology published in 1988
