THE SOCIAL SCIENCE IMPERIALISTS

BY JOHN HODGKINSON

Social Science Imperialists

G. C. Harcourt, Peter Kriesler

Social Science Imperialists:

Social Science as Imperialism Claude Ake, 1982 Claude Ake's study is primarily concerned with what he terms the most pernicious form of imperialism namely scientific knowledge Ake analyses how Western social sciences whether consciously or inadvertently foist capitalist values and capitalist development on the Third World and serve imperialist ends He unravels the theory of political development westernisation exposing its ideological character and condemning Western development studies as worse than useless He then develops his analysis of the imperialist and ideological characteristics of Western social sciences to posit alternatives which may more successfully overcome permanent underdevelopment and advocates a struggle for a new model of social sciences which is socialist orientated and that developing countries reject Western models The study was first published in 1979 revised in 1982 is newly reissued and for the first time widely available outside Africa Claude Ake 1939 1996 was one of Africa's most distinguished political and social scientists and democrats of the twentieth century writing widely and polemically on what were his life long concerns of democracy and the future of the African continent

Unmasking Social Science Imperialism Mentan, Tatah, 2015-02-03 Contemporary social science is a product of the capitalist world system and Eurocentrism is constitutive of the geoculture of this system characterized by the parochiality of its universalism assumptions about the superiority of Western civilization and imposition as the sole theory of global progress The creation of these structures of knowledge specifically the institutionalization of the social sciences is a phenomenon that is inextricably linked to the very formation and maturation of Europe's capitalist world system or imperialism There is therefore nothing that is natural logical or accidental about the institutionalization of the social sciences These Europeanized structures of knowledge are imposed ways of producing knowledge of the world This Eurocentrism of social science has justifiably come under increasingly vigorous scrutiny especially in the period since 1945 with the formal decolonization of Africa Asia and much of the Caribbean This book forcefully argues that if social science is to make any progress in the twenty first century it must overcome its Eurocentric heritage that has distorted social analyses and its capacity to deal with the problems of the contemporary world and embrace other non Western funds of knowledge production

The Social Science Imperialists Geoffrey Colin Harcourt, 1982 **The Social Science Imperialists** G. C. Harcourt, 2013-11-05 The essays in this volume present a comprehensive view of modern economics They range from technical papers on a specific issue such as that devoted to a critique of Kaldor's model of income distribution through evaluation of a wide ranging literature with special emphasis on the Cambridge controversies in the theory of capital Intellectual portraits of Eric Russell Joan Robinson and Lorie Tarshis are also included The concluding essay *The Social Science Imperialists* gives an overview of the issues and trends that have dominated economics in recent years

Economics as Social Science Roberto Marchionatti, Mario Cedrini, 2016-10-14 There is a growing consensus in social sciences that there is a need for interdisciplinary research on the complexity of human behavior At an age of crisis for both

the economy and economic theory economics is called upon to fruitfully cooperate with contiguous social disciplines The term economics imperialism refers to the expansion of economics to territories that lie outside the traditional domain of the discipline Its critics argue that in starting with the assumption of maximizing behaviour economics excludes the nuances of rival disciplines and has problems in interpreting real world phenomena This book focuses on a territory that persists to be largely intractable using the postulates of economics that of primitive societies In retracing the origins of economics imperialism back to the birth of the discipline this volume argues that it offers a reductionist interpretation that is poor in interpretative power By engaging with the neglected traditions of sociological and anthropological studies the analysis offers suggestions for a more democratic cooperation between the social sciences Economics as Social Science is of great interest to those who study history of economic thought political economy and the history of economic anthropology as well as history of social sciences and economic methodology

Economics Imperialism and Interdisciplinarity: Before the Watershed Ben Fine, 2023-10-20 In *Economics Imperialism and Interdisciplinarity Before the Watershed* Ben Fine offers a selection of his key articles charting the rise of economics imperialism Each article is accompanied by a preamble that sets the context in which it appeared with an overall introduction drawing out the overall significance for contemporary scholarship Ranging over mainstream and heterodox economics the disputes between them the relationship between economics and other disciplines and thinkers as diverse as Kuhn Becker and Bourdieu the collection offers a unique and compelling account of how mainstream economics has both changed dramatically whilst its core and narrow principles have remained as sacrosanct as they are invalid The volume is imperative for those engaging in political economy across the social sciences

The ^AOxford Handbook of Post-Keynesian Economics, Volume 2 G. C. Harcourt, Peter Kriesler, 2013-08-16 These two volumes cover the principal areas to which Post Keynesian economists have made distinctive contributions The contents include the significant criticism by Post Keynesians of mainstream economics but the emphasis is on positive Post Keynesian analysis of the economic problems of the modern world and of policies with which to tackle them

The ^AOxford Handbook of Post-Keynesian Economics, Volume 1 G. C. Harcourt, Peter Kriesler, 2013-08-16 These two volumes cover the principal areas to which Post Keynesian economists have made distinctive contributions The contents include the significant criticism by Post Keynesians of mainstream economics but the emphasis is on positive Post Keynesian analysis of the economic problems of the modern world and of policies with which to tackle them

Scientific Imperialism Uskali Mäki, Adrian Walsh, Manuela Fernández Pinto, 2017-10-16 The growing body of research on interdisciplinarity has encouraged a more in depth analysis of the relations that hold among academic disciplines In particular the incursion of one scientific discipline into another discipline s traditional domain also known as scientific imperialism has been a matter of increasing debate Following this trend Scientific Imperialism aims to bring together philosophers of science and historians of science interested in the topic of scientific imperialism and in particular interested

in the conceptual clarification empirical identification and normative assessment of the idea of scientific imperialism Thus this innovative volume has two main goals Indeed the authors first seek to understand interdisciplinary relations emerging from the incursion of one scientific discipline into one or more other disciplines such as in cases in which the conventions and procedures of one discipline or field are imposed on other fields or more weakly when a scientific discipline seeks to explain phenomena that are traditionally considered proper of another discipline s domain Secondly the authors explore ways of distinguishing imperialistic from non imperialistic interactions between disciplines and research fields The first sustained study of scientific imperialism this volume will appeal to postgraduate students and postdoctoral researchers interested in fields such as Science and Technology Studies Sociology of Science Technology Philosophy of Science and History of Science
