Social Structure Studies Presented:

Social Structure Alfred Reginald Radcliffe-Brown, 1963 **The Theory of Social Structure** S.F. Nadel, 2013-11-05 The main feature of this book is a discussion of role analysis and its relevance to social structure Arguing that the role system of a society is the matrix of its social structure the author presents a detailed theoretical analysis of the problems inherent in this approach Chapters cover The problems of role analysis Conformity and deviance The coherence of role systems Degrees of abstraction Structure time and reality Originally published in 1957 **Social Structure. Studies Presented to A.R. Radcliffe-Brown. Edited by Meyer Fortes. [By Various Writers. With a Portrait.]** afterwards RADCLIFFE-BROWN BROWN (Alfred Reginald), Meyer Fortes, 1949 **Social Structure. Studies Presented to A. R. Radcliffe-Brown. Meyer Fortes** Meyer Fortes, 1963 Human Organizations and Social Theory Murray J. Leaf, 2010-10-01 In the 1930s George Herbert Mead and other leading social scientists established the modern empirical analysis of social interaction and communication enabling theories of cognitive development language acquisition interaction government law and legal processes and the social construction of the self However they could not provide a comparably empirical analysis of human organization The theory in this book fills in the missing analysis of organizations and specifies more precisely the pragmatic analysis of communication with an adaptation of information theory to ordinary unmediated communications The study also provides the theoretical basis for understanding the success of pragmatically grounded public policies from the New Deal through the postwar reconstruction of Europe and Japan to the ongoing development of the European Union in contrast to the persistent failure of positivistic and Marxist policies and programs Anthropology in Theory Henrietta L. Moore, Todd Sanders, 2014-01-28 This second edition of the widely praised *Anthropology in Theory* Issues in Epistemology features a variety of updates revisions and new readings in its comprehensive presentation of issues in the history of anthropological theory and epistemology over the past century Provides a comprehensive selection of 60 readings and an insightful overview of the evolution of anthropological theory Revised and updated to reflect an on going strength and diversity of the discipline in recent years with new readings pointing to innovative directions in the development of anthropological research Identifies crucial concepts that reflect the practice of engaging with theory particular ways of thinking analyzing and reflecting that are unique to anthropology Includes excerpts of seminal anthropological works key classic and contemporary debates in the discipline and cutting edge new theorizing Reveals broader debates in the social sciences including the relationship between society and culture language and cultural meanings structure and agency identities and technologies subjectivities and trans locality and meta theory ontology and epistemology **The Structuralist Controversy** Richard A. Macksey, Eugenio Donato, 2007-09-04 At a 1966 international symposium hosted by the Johns Hopkins University many of the leading figures of European structuralist criticism first presented their ideas to the American academic community The proceedings of this event which proved epoch making on both sides of the Atlantic were first published by the Johns Hopkins University Press in

1970 and are now available once again with a reflective new preface by editor and symposium convener Richard Macksey

Thicker Than Water Melissa Meyer, 2014-02-04 Blood is more than a fluid solution of cells platelets and plasma It is a symbol for the most basic of human concerns life death and family find expression in rituals surrounding everything from menstruation to human sacrifice Comprehensive in its scope and provocative in its argument this book examines beliefs and rituals concerning blood in a range of regional and religious contexts throughout human history Meyer reveals the origins of a wide range of blood rituals from the earliest surviving human symbolism of fertility and the hunt to the Jewish bris and the clitoridectomies given to young girls in parts of Africa The book also explores how cultural practices influence gene selection and makes a connection with the natural sciences by exploring how color perception influences the human proclivity to create blood symbols and rituals

The Realism Reader Colin Elman, Michael Jensen, 2014-08-12 The Realism Reader provides broad coverage of a centrally important tradition in the study of foreign policy and international politics After some years in the doldrums political realism is again in contention as a leading tradition in the international relations sub field Divided into three main sections the book covers seven different and distinctive approaches within the realist tradition classical realism balance of power theory neorealism defensive structural realism offensive structural realism rise and fall realism and neoclassical realism The middle section of the volume covers realism s engagement with critiques levelled by liberalism institutionalism and constructivism and the English School The final section of the book provides materials on realism s engagement with some contemporary issues in international politics with collections on United States U S hegemony European cooperation and whether future threats will arise from non state actors or the rise of competing great powers The book offers a logically coherent and manageable framework for organizing the realist canon and provides exemplary literature in each of the traditions and dialogues which are included in the volume Offering substantial commentary and analysis and including enhanced pedagogy to facilitate student learning The Realism Reader will provide a one stop shop for undergraduates and masters students taking a course in contemporary international relations theory with a particular focus on realism

Middle Class African Marriage Christine Oppong, 2023-07-05 In the 1970s among peoples of the third world migration paid employment and urban living had caused changes in domestic economies in decision making in households and in the sexual division of labour and power This was particularly so in areas formerly subjected to colonial domination and therefore the influence of European mores and institutions This book previously published in 1974 as *Marriage Among a Matrilineal Elite* this edition in 1981 provides one of the few detailed accounts of such changes by a writer who has lived the kind of life she describes that of the urban educated Akan of Southern Ghana people who have migrated from farming and fishing villages to Accra the capital to find employment in government institutions after protracted higher education often overseas The study is particularly interesting because it focuses upon people from an ethnic area practicing matrilineal descent and inheritance in which women and men have traditionally both worked in agriculture in which

husbands and wives have customarily resided in separate houses affording both sexes considerable autonomy as spouses and in which women have held important political offices as well as sharing responsibilities for maintenance of dependent children Akan women provide an important model of responsible energetic females who have in the past and to some extent in the present avoided the domestic trap of wifely dependence But as we read the trap is open to those who forsake traditional patterns of economic endeavour or whose resources vis vis their men folk are reduced The book was also a significant contribution to the comparative sociology of the family at the time providing an exercise in methodology in which the aim has been to evolve ways of documenting and comparing two major aspects of change in conjugal family relationships On one hand the division of labour resources and power between spouses the jointness or segregation of the conjugal role relationship and on the other the extent to which the conjugal family is a functionally discrete unit in a number of domestic activity areas in popular and ambiguous terms whether the family is extended or nuclear The use of sociological concepts developed in other areas of the world gives this book a significant position in the development of a cross culturally valid sociology of the family The subject matter and conceptual frameworks used here will thus be of interest to sociologists economists and anthropologists in general and to specialists in African and Black studies Women s Studies and Sex Roles in particular as well as to the male and female feminists around the world
