Social Policy European Union 2ed Hb:

Europe's Second Constitution Markus W. Gehring, 2020-09-24 European constitutionalisation has met with scepticism this book analyses the steps necessary to move to EU's Second Constitution

Soviet Street Children and the Second World War Olga Kucherenko, 2016-07-14 A time of great hardship the Second World War became a consequential episode in the history of Soviet childhood policies The growing social problem of juvenile homelessness and delinquency alerted the government to the need for a comprehensive child protection programme Nevertheless by prioritizing public order over welfare the Stalinist state created conditions that only exacerbated the situation transforming an existing problem into a nation wide crisis In this comprehensive account based on exhaustive archival research Olga Kucherenko investigates the plight of more than a million street children and the state's role in the reinforcement of their ranks By looking at wartime dislocation Soviet child welfare policies juvenile justice and the shadow world both within and without the Gulag Soviet Street Children and the Second World War challenges several of the most pervasive myths about the Soviet Union at war It is therefore as much an investigation of children on the margins of Soviet society as it is a study of the impact of war and state policies on society itself

The Social Construction of Swedish Neutrality Christine Agius, 2006-07-30 Since the end of the Cold War and particularly in the post 9 11 international environment neutrality has been conceptualised as a problematic subject With the end of bipolarity neutrality as a foreign and security policy lost much of its justification and in the ongoing War on Terror no state according to the Bush Administration can be neutral However much of this debate has gone unnoticed in IR literature This book newly available in paperback examines the conceptualisation of neutrality from the Peloponnesian War to the present day uncovering how neutrality has been a neglected and misunderstood subject in IR theory and politics By rethinking neutrality through constructivism this book argues that neutrality is intrinsically linked to identity Using Sweden as a case study it links identity sovereignty internationalism and solidarity to the debates about Swedish neutrality today and how neutrality has been central to Swedish identity and its world view

Migrant Penalties in Educational Achievement Camilla Borgna, 2025-10-01 The integration of second generation immigrants has proved to be a major challenge for Europe in recent years Though these people are born in their host nations they often experience worse social and economic outcomes than other citizens This volume focuses on one particular important challenge the less successful educational outcomes of second generation migrants Looking at data from seventeen European nations Camilla Borgna shows that migrant penalties in educational achievement exist in each one but that unexpectedly the penalties tend to be greater in countries in which socio economic inequalities in education are generally more modest a finding that should prompt reconsideration of a number of policy approaches

Evaluating Reforms of Local Public and Social Services in Europe Ivan Koprić, Hellmut Wollmann, Gérard Marcou, 2017-10-20 This book explains the increasing demand for evaluation as a result of the increasing frequency of reforms to local services influenced by the New Public Management doctrine the

severe austerity policy in many European countries and the wish to increase quality and reduce costs of public services especially at the local sub national level Positioned at the interface of local services and evaluation research it will enable the utilization of evaluation generated knowledge in evidence based policy making by focusing on the lessons learned from evaluation of local service delivery It encompasses local public and social services including waste water public transport healthcare education and eldercare and examines the hypothesis that there is a North West South East divide in Europe in terms of the evaluation of local service reforms Particular attention is devoted to the explanatory function of evaluation Providing fresh insight into the functioning of local government machinery in contemporary Europe this book will appeal in particular to practitioners and students of local government public economy public administration and policy
