The Political Development of Modern Thailand Federico Ferrara, 2015-03-26 Based on extensive empirical research The Political Development of Modern Thailand analyses the country s political history from the late nineteenth century to the present day Long known for political instability Thailand was thrust into a deep state of crisis by a royalist military coup staged in 2006 Since then conservative royalists have overthrown more elected governments after violent street protests while equally disruptive demonstrations staged by supporters of electoral democracy were crushed by military force Federico Ferrara traces the roots of the crisis to unresolved struggles regarding the content of Thailand s national identity dating back to the abolition of absolute monarchy in 1932 He explains the conflict s re intensification with reference to a growing chasm between the hierarchical worldview of Thailand s hegemonic royal nationalism and the aspirations that millions of ordinary people have come to harbour as a result of modernisation

Nazism and German Society, 1933-1945 David Crew, 2013-05-13 The image of the Third Reich as a monolithic state presiding over the brainwashed fanatical masses retains a tenacious grip on the general public s imagination However a growing body of research on the social history of the Nazi years has revealed the variety and complexity of the relationships between the Nazi regime and the German people This volume makes this new research accessible to undergraduate and graduate students alike

Convincing Political Stakeholders Klemens Joos, 2023-08-15 In the new edition of his standard work the founder of one of the most successful lobbying companies in the European Union EU Prof Klemens Joos bundles experience acquired over more than three decades to form a scientific theory on governmental relations It focusses on the insight that in view of the increasingly complex decision making structures of the EU the most precise possible knowledge of decision makers and decision making processes is at least equally as important to success as the content aspects of interest representation In a new chapter the author sets out the formula for science based interest

representation developed by him from his practical experience With the Treaty of Lisbon which entered into force on 1 December 2009 the EU de facto became a state territory stretching from Portugal to Finland and from Ireland to Cyprus The European Parliament became an equal status decision maker alongside the Council of the European Union Council The previous co decision procedure was elevated to become the standard procedure ordinary legislative procedure The so called qualified majority 55 percent of the EU member states which simultaneously represent at least 65 percent of the EU population was introduced for all important areas in the Council As a result the outcome of decision making processes has become largely incalculable for the actors on the European Union stage the EU member states EU regions companies associations and organisations The second edition includes a new chapter in which Prof Klemens Joos makes the variables of successful interest representation even more tangible on the basis of his scientific formula at the latest since the Treaty of Lisbon the basic prerequisite for successful interest representation in the EU involves the continuous and close intermeshing of the affected party s content competence of the four classic instruments of interest representation corporate representative offices associations public affairs agencies law firms with process structure competence i e the EU wide maintenance of the required spatial personnel and organisational capacities as well as strong networks across institutions political groups and member states on the part of an independent intermediary The likelihood of success can be increased exponentially if success is achieved firstly in committing to the concern of an affected party through a change of perspective such that the positive effects on the common good are shifted into the foreground for the decision makers in the EU perspective change competence and secondly in successfully integrating the concern into the crucial decision making processes at the political level and continuously supporting it process support competence Guest authors This work includes guest contributions from Prof Christian Bl melhuber Berlin University of the Arts Prof Anton Meyer formerly LMU Munich Prof Armin Nassehi LMU Munich and Prof Franz Waldenberger Director of the German Institute of Japanese Studies Tokyo as well as a foreword by Prof Gunther Friedl Dean of the TUM School of Management and a preface by Prof Thomas F Hofmann President of TU Munich
