Contemporary Drug Policy

Henry Brownstein, 2013-02-11 This book focuses on the use of drugs in our lives and how we respond to them Whereas drug policy typically centres on the problems of illicit drugs or licit drugs used in illicit ways or circumstances Contemporary Drug Policy instead considers the wide variety of substances we call drugs as a normal part of our personal and social experience and asks how and when drugs benefit us as well as how and when they are harmful The evidence is clear that at some times in some circumstances and in some places drugs are a problem This book does not ignore these issues but shifts our attention to making policies that also recognize their legitimate and constructive place in society It focuses on asking questions challenging assumptions and developing responses to drugs based on evidence from scientific study as directed by critical criminological theory rather than mainstream theory or unfounded assumptions Different from other books on drug policy this book does not offer answers or solutions Rather it shows how critical criminological theories can lead scientific research in new directions supportive of policies that offer both solutions to problems that are found to be related to drugs and an appreciation for the benefits that drugs can bring to people and society This book will be of interest to those studying or researching drug policy as well as professionals involved in policy making processes *Journal of Crime & Justice* ,1999

Homeward Bruce Western, 2018-05-04 In the era of mass incarceration over 600 000 people are released from federal or state prison each year with many returning to chaotic living environments rife with violence In these circumstances how do former prisoners navigate reentering society In Homeward sociologist Bruce Western examines the tumultuous first year after release from prison Drawing from in depth interviews with over one hundred individuals he describes the lives of the formerly incarcerated and demonstrates how poverty racial inequality and failures of social support trap many in a cycle of vulnerability despite their efforts to rejoin society Western and his research team conducted comprehensive interviews with

men and women released from the Massachusetts state prison system who returned to neighborhoods around Boston Western finds that for most leaving prison is associated with acute material hardship In the first year after prison most respondents could not afford their own housing and relied on family support and government programs with half living in deep poverty Many struggled with chronic pain mental illnesses or addiction the most important predictor of recidivism Most respondents were also unemployed Some older white men found union jobs in the construction industry through their social networks but many others particularly those who were black or Latino were unable to obtain full time work due to few social connections to good jobs discrimination and lack of credentials Violence was common in their lives and often preceded their incarceration In contrast to the stereotype of tough criminals preying upon helpless citizens Western shows that many former prisoners were themselves subject to lifetimes of violence and abuse and encountered more violence after leaving prison blurring the line between victims and perpetrators Western concludes that boosting the social integration of former prisoners is key to both ameliorating deep disadvantage and strengthening public safety He advocates policies that increase assistance to those in their first year after prison including guaranteed housing and health care drug treatment and transitional employment By foregrounding the stories of people struggling against the odds to exit the criminal justice system Homeward shows how overhauling the process of prisoner reentry and rethinking the foundations of justice policy could address the harms of mass incarceration
