

RICHARD S. KIRKENDALL

Social Scientists and Farm Politics in the Age of Roosevelt

"The strength of this book is to show the fight on
both sides, and the strength is in showing that Americans will
challenge bureaucratic bureaucracies and institutions with
good intentions. This is a major contribution to the study of
American agriculture and American politics."

—J. L. Brown, *Book Review*

Social Scientists and Farm Politics in the Age of Roosevelt Richard S. Kirkendall, 1973 **Social Scientists and Farm Politics in the Age of Roosevelt** Richard Stewart Kirkendall, 1982 **Social Scientists and Farm Politics in the Age of Roosevelt** Richard Stewart Kirkendall, 1966 Originated in a seminar at the University of Wisconsin and emerged first as a dissertation Bibliography p 331 349 **America's Political Class Under Fire** David A. Horowitz, 2013-12-02 While the clash between what has been called the modern and undeveloped worlds has led to America's military involvement in the Middle East and other places few people realize the tension between the modern and the traditional within the United States Beginning in the 1920's professional intellectuals and academics began influencing the nation's public policy on matters as diverse as education economics and public health In this thoughtful work David A Horowitz analyzes the tension between the so called New Class of knowledge professionals and their critics who accused them of being out of touch with the common sense of everyday people strangers to the American Way even Communists America's Political Class Under Fire is organized over nine periods of 20th century history providing a window into everything from the Scopes evolution trial and McCarthyism to affirmative action and the Clinton health care fiasco Along the way the book explores the New Left populist conservatism and the mid 90's reaction to political liberalism which saw Newt Gingrich rise to the top post in the House of Representatives In telling these stories Horowitz seeks to encourage a more balanced and fair minded assessment of the consequences of expertise and applied intellect to democratic existence in the United States FDR: The First Hundred Days Anthony J. Badger, 2009-06-09 The Hundred Days FDR's first 15 weeks in office was a time of unprecedented governmental activity in America In this account Anthony J Badger reinterprets the period as an exercise in exceptional political craftsmanship *The Preservation of the Village* Suzanne Forrest, 1998 The New Mexico difference The roots of dependence The mystique of the village Assault on Arcadia The New Mexico Mexico new deal connection Federal relief comes to New Mexico Implementing the cultural agenda Restoring village lands The final years and later Reprise *Public Policy and Agricultural Technology* Don F. Hadwiger, William P. Browne, 1987-06-18 *Bringing the State Back In* Peter B. Evans, Dietrich Rueschemeyer, Theda Skocpol, 1985-09-13 Until recently dominant theoretical paradigms in the comparative social sciences did not highlight states as organizational structures or as potentially autonomous actors Indeed the term state was rarely used Current work however increasingly views the state as an agent which although influenced by the society that surrounds it also shapes social and political processes The contributors to this volume which includes some of the best recent interdisciplinary scholarship on states in relation to social structures make use of theoretically engaged comparative and historical investigations to provide improved conceptualizations of states and how they operate Each of the book's major parts presents a related set of analytical issues about modern states which are explored in the context of a wide range of times and places both contemporary and historical and in developing and advanced industrial nations The first part examines

state strategies in newly developing countries The second part analyzes war making and state making in early modern Europe and discusses states in relation to the post World War II international economy The third part pursues new insights into how states influence political cleavages and collective action In the final chapter the editors bring together the questions raised by the contributors and suggest tentative conclusions that emerge from an overview of all the articles As a programmatic work that proposes new directions for the analysis of modern states the volume will appeal to a wide range of teachers and students of political science political economy sociology history and anthropology Harvard Guide to American History Frank Freidel, Frank Burt Freidel, Richard K. Showman, 1974 Editions for 1954 and 1967 by O Handlin and others **Planning Democracy** Gilbert, Jess, 2015-01-01 Late in the 1930s the U S Department of Agriculture set up a national network of local organizations that joined farmers with public administrators adult educators and social scientists The aim was to localize and unify earlier New Deal programs concerning soil conservation farm production control tenure security and other reforms and by 1941 some 200 000 farm people were involved Even so conservative anti New Dealers killed the successful program the next year This book reexamines the era s agricultural policy and tells the neglected story of the New Deal agrarian leaders and their visionary ideas about land democratization and progressive social change
