Highly readable, grounded in analysis and full of practical approaches, this book will be an important resource for activists, students, scholars, policy makers, and community development practitioners who seek to use research for more effective and sustainable change. John Gaventa, Fellow, Institute for Development Studies, Sussex, U.K. Drawing from his own experiences and from case studies from across the nation, Stoecker offers an empowering and remarkably accessible discussion of how project-based research models build community and democracy by redistributing both power and responsibility. It is an informative and valuable text that makes a convincing case that research must become daily practice for all who are committed to working for effective social change. Stephen L. Fisher, Director, Appalachian Center for Community Service, Emory Henry College. Stoecker's highly readable book is a great leap forward in expanding the definition and practice of research and documentation through collaboration between academics and community activists. He makes project-based research accessible to readers through lively real examples that involve creative and strategic use of sources and resources. Stoecker shows how good quality research can make meaningful differences in people's lives. The book is perfect for use in both classrooms and nonprofit organizations. Kathleen Staudt, University of Texas at El Paso. At last, a book that demystifies research for both novice and experienced community workers who want to make a difference.
