Socialist Register 9:

Global Flashpoints Leo Panitch, Colin Leys, 2007 New forces of resistance have emerged to both American imperialism and neoliberalism But how far do these forces represent a progressive alternative This volume surveys the key flashpoints of resistance today The main arena of resistance to imperialism is the Middle East Six essays explore the ambivalent nature of Islamic anti imperialism and the West's crucial role in making it so significant as well as the different forms it takes as a political creed and they provide particular insight into the relationship between religion and politics today in Iraq Palestine and Turkey **Socialist Register** John Saville, Ralph Miliband, 1991-01-01 Israel and the European Left Colin Shindler, 2011-12-22 Why has the European Left become so antagonistic towards Israel To answer this question Colin Shindler looks at the struggle between Marxism Leninism and Zionism from the October Revolution to today Is such antagonism in opposition to the policies of successive Israeli governments Or is it due to a resurgence of anti-Semitism The answer is far more complex Shindler argues that the new generation of the European Left was more influenced by the decolonization movement than by wartime experiences which led it to favor the Palestinian cause in the post 1967 period Thus the Israeli drive to settle the West Bank after the Six Day war enhanced an already existing attitude but did not cause it Written by a respected scholar this accessible and balanced work provides a novel account and analytical approach to this important subject Israel and the European Left will interest students in international politics Middle Eastern studies as well as anyone who seeks to understand issues related to today's Left and the Arab Israeli conflict *The New Left, National Identity, and the Break-up of Britain* Wade Matthews, 2013-08-08 In *The New Left National Identity and the Break Up of Britain* Wade Matthews charts the nexus between socialism and national identity in the work of key New Left intellectuals E P Thompson Raymond Williams Stuart Hall Perry Anderson and Tom Nairn Matthews considers these New Left thinkers response to Britain's various national questions including decolonization and the End of Empire the rise of European integration and separatist nationalisms in Scotland and Wales and to the national and nationalist implications of Thatcherism Cold War and the fall of communism Matthews establishes a contestatory dialogue around these issues throughout the book based around different New Left perspectives on what has been called the break up of Britain He demonstrates that national questions were crucial to New Left debates *Dictionary of Labour Biography* K. Gildart, D. Howell, 2016-04-30 Volume XIII of the *Dictionary of Labour Biography* maintains the standard of original and thorough scholarship for which the series has earned its outstanding reputation A unique study of nineteenth and twentieth century British history each entry is written by a specialist and engages with recent developments in the field of labour history *Anarchist Seeds beneath the Snow* David Goodway, 2011-12-12 From William Morris to Oscar Wilde to George Orwell left libertarian thought has long been an important but neglected part of British cultural and political history In *Anarchist Seeds beneath the Snow* David Goodway seeks to recover and revitalize that indigenous anarchist tradition This book succeeds as simultaneously a cultural history of

left libertarian thought in Britain and a demonstration of the applicability of that history to current politics Goodway argues that a recovered anarchist tradition could and should be a touchstone for contemporary political radicals Moving seamlessly from Aldous Huxley and Colin Ward to the war in Iraq this challenging volume will energize leftist movements throughout the world

Political Women Maggie Andrews, 2025-11-04 The lives of women changed immeasurably during the twentieth century not just because of technological and economic advances but as a result of a multiplicity of small and large local national and international political campaigns by women The activities of the Edwardian suffrage campaigns are the most well known example of this but in less well known political struggles women fought with equal tenacity sacrifice and inventiveness to demand for example equal pay analgesics for women and childbirth an end to virginity testing at airports or wages for housework This book focuses on 15 such campaigns and the thousands of women who sought to influence decision making exercise and challenge power in the twentieth century These political activities were sometimes small scale and short lived or seemingly unsuccessful but together they helped to bring about immeasurable changes in women's lives during the twentieth century With limited financial resources and hefty domestic responsibilities women have often chosen to pick their political battles very carefully Some fought for workers rights or the right to education some prioritised stopping male violence on the streets in the home or between nations others like Radcliffe Hall campaigned so women could define their own sexuality Women organised self help childcare rape crisis centres and peace camps They set up birth control clinics and women's refuges Ordinary women took on exploitive landlords immigration officers international companies local councils the media and successive governments A few of the hundreds of thousands of these political women like Maggie Wintringham and Nancy Astor were MPs others became local councillors However women's access to traditional areas of political power was limited even when Britain had its first woman prime minister in 1979 she was one of only 19 women MPs in parliament Consequently women sought other spheres of activity through which to fight for change using all the resources and imagination at their disposal to challenge injustice and abuse They employed deeds and words petitions and protests legal and illegal devices peaceful and violent strategies to further their political aims Their motivations and contributions were varied many made sacrifices to be involved in political battles but this book seeks to celebrate some of these unsung heroines who tried to make a difference

The Legacy of Ernest Mandel Gilbert Achcar, 1999 Ernest Mandel 1923 1995 was a member of what is now a very rare breed he was a theorist of an activist Marxism Leader of the international Trotskyist movement lifelong revolutionary and scholar of world renown Mandel was one of those few individuals who combined the untiring activism of a political leader with intellectual work that commands the respect of the academy

C B Macpherson Jules Townshend, 2019-08-08 In this sympathetic restatement of C B Macpherson's ideas Townshend provides an overview of Macpherson's theory of possessive individualism and critique of liberal democracy He suggests that criticism of Macpherson has been misplaced and asks whether his theories should now be given more prominence by political theorists This is the

first book to deal comprehensively with the issues surrounding Macpherson's work previous studies have used him as a point of departure rather than the focus of detailed analysis and none have included an overall assessment of his thought Key Features Examination of Macpherson's project in its totality Defence of Macpherson against his liberal feminist Marxist and ecological critics Defence of his interpretation of Hobbes and Locke Demonstration of his continuing relevance for contemporary political philosophy and for the study of politics generally *Socialist Register 2005* Colin Leys, Leo Panitch, 2004 How does the new American empire work Who runs it How stable is it What is the new American Empire's impact throughout the world What is its influence on gender relations On the media On popular culture This book provides the answers
