Rethinking Revolution Leo Panitch, Greg Albo, 2016-12-01 One hundred years ago October 1917 galvanized leftists and oppressed peoples around the globe and became the lodestar for 20th century politics Today the left needs to reckon with this legacy and transcend it Social change as it was understood in the 20th century appears now to be as impossible as revolution leaving the left to rethink the relationship between capitalist crises as well as the conceptual tension between revolution and reform Populated by an array of passionate thinkers and thoughtful activists *Rethinking Revolution* reappraises the historical effects of the Russian revolution positive and negative on political intellectual and cultural life and looks at consequent revolutions after 1917 Change needs to be understood in relation to the distinct trajectories of radical politics in different regions But the main purpose of this Socialist Register edition one century after Red October is to look forward to what might happen next Acclaimed authors interrogate and explore compelling issues including Greg Albo New socialist strategies or detours Jodi Dean Are the multitudes communing Revolutionary agency and political forms today Adolph Reed Are racial minorities revolutionary agents Zillah Eisenstein Revolutionary feminisms today Nina Power Accelerated technology decelerated revolution David Schwartzman Beyond global warming Is solar communism possible Andrea Malm Revolution and counter revolution in an era of climate change The Socialist Register Ralph Miliband, 1994

Ware, 2018-10-14 This book responds to the need for a retrieval and renewal of the work of Karl Marx through close philosophical analysis of his publications manuscripts and letters especially those relevant to politics morality and the future This philosophical study stands out because of its two principal features First it reviews and develops ideas about the future though often only briefly discussed by Marx and his commentators drawn from Marx's work Second it focuses on collective matters that are critical for Marx's ideas but rarely investigated and still problematic Part One introduces Marx with a discussion of emancipation and freedom in community It then discusses the importance of retrieval and the methodology for promoting it Part Two is about misunderstandings of Marx's ideas about productive development division of labour and organisations Part Three discusses nations morality and democracy all of which Marx supported Part Four takes up Marx's significant but misunderstood ideas about the future and his relation to the anarchists *Revolution and World Politics* Fred Halliday, 1999 Reassesses the role of revolution as a force that has shaped the development of world politics **Globalization and Social Movements** Valentine M. Moghadam, 2012-08-02 This clear and concise book examines social movements and transnational networks in the context of globalization in all its forms economic political

cultural and technological alike Deftly combining nuanced theory with rich empirical examples leading scholar Valentine M Moghadam focuses especially on three transnational social movements Islamism feminism and global justice Now updated to explore the European anti austerity protests the Arab Spring and Occupy Wall Street the book considers the ways in which these socio political protests were affected especially by the role of young people and social networking media The book also includes a new chapter on the democratic nature of social movements or the ways in which social movements contribute to democratization at both national and global levels Defining globalization as a complex process in which the movement of capital peoples organizations movements and ideas takes on an increasingly international form the author shows how growing physical and electronic mobility has helped to create dynamic global social movements Exploring the historical roots of Islamism feminism and global justice the book also shows how these movements have been stimulated by relatively recent globalization processes Moghadam examines similarities and differences among the three movements along with internal differentiation within each Her argument is informed by feminist world systems world polity and social movement theories in a seamlessly integrated framework that will be essential reading for all students of globalization **Critical Medical**
