Socialist Register 91:

The Socialist Register Ralph Miliband,1996 **The Socialist Register 1991** Ralph Miliband,Leo Panitch,1991-01-01

The International Politics of Russia and the Successor States Mark Webber,1996 This textbook examines the external relations of the fifteen new states which emerged from the ashes of the Soviet Union in 1991 Mark Webber examines the consequences of the Soviet collapse and the emergence of a new system of international relations embracing Russia and the other former Soviet republics The author explores both relations between the new states themselves and between these states and the wider world He pinpoints the daunting challenges facing the new states the invention of foreign policy orientations the management of the Red Army s material legacy including nuclear weapons the resolution of regional conflicts and the need for economic revival Two key themes emerge the reassertion of national identities and the special position of Russia which has assumed to some extent the rights and the obligations of the Soviet Union on the world stage whilst having to tackle the chaos of local wars and internal economic collapse **Class, Power and the State in Capitalist Society** P. Wetherly,C. Barrow,P. Burnham,2007-12-14 This collection of new essays re examines and evaluates central themes in the work of Ralph Miliband a leading contributor to Marxist political theory in twentieth century It provides an essential reference point for research within the Marxist tradition and a valuable resource for students on a range of courses in political and social theory *Politics of Security* Holger Nehring,2013-10-10 Focuses on a number of peace movements in Britain and West Germany from the end of Second World War in 1945 to the early 1970s to understand how European societies experienced and reacted to the Cold War Intellectual Radicalism after 1989 Sebastian Berg,2017-03-15 Left wing intellectuals in Britain and the US had long repudiated the Soviet regime Why was the collapse of the Eastern Bloc experienced as a shock that destabilised their identities and political allegiances then What happened to a collective project that had started out to formulate a socialist vision different from both really existing socialism and social democracy This study endeavours to answer both questions focusing on generational networks rather than individuals and investigating political academic journals after 1989 to paint the picture of a Left deeply troubled by the triumph of a capitalism unfettered by any counter force *What Was Neoliberalism?* Neil Davidson,2023-10-24 Eminent scholar activist Neil Davidson s brilliance is on full display in this posthumous work a timely and prescient introduction to the neoliberal era While it is widely agreed that neoliberalism arose in the wake of the global economic crisis of the 1970s there remains much debate about how to understand its significance and even how to define it Is it best seen as an ideology of free market fundamentalism a series of policy decisions gutting the public sector and breaking unions or as an era of capitalist development with its own logic Bringing his considerable intellectual breadth and characteristic generosity to bear on this question Neil Davidson shows that to truly appreciate what is unique about neoliberalism and what marks it out as a continuation of capitalism more generally it is necessary to examine its social dimensions What Was Neoliberalism holds fast to Davidson s conviction that

thoroughly understanding the past means being better prepared for the struggles of the future *Globalisation and Enlargement of the European Union* Andreas Bieler, 2002-11-01 On January 1 1995 Austria and Sweden joined the European Union EU This book examines why these two countries joined at such a moment and studies their accession against the structural background of globalization In this cutting edge analysis Andreas Bieler argues that conventional neo functionalist and intergovernmentalist theories fail to explain such structural change as they take existing power structures as given Therefore he develops a neo Gramscian perspective as an alternative approach to European integration *Marxist Phoenix* Murray E.G. Smith, 2014-05-05 Looking to an increasingly perilous and inequitable future many progressive activists and scholars are seriously questioning the capacity of global capitalism to guarantee the conditions for human well being and sustainability in the 21st century This development inspires the central inquiry of Marxist Phoenix Will the intensifying contradictions and multiple crises of contemporary capitalism incite the emergence of a mass socialist workers movement committed not merely to the reform of capitalism but to its overthrow This collection of new and previously published essays articles and book chapters written over the last two decades makes the case for the indispensability of the Marxist socialist project to the emancipation of humanity from material insecurity and ever worsening social antagonism Only a global workers movement committed to the fundamental tenets of Marxism a triumphant Marxist Phoenix rising from the ashes of the multiple defeats of the 20th century can open the road to real social progress Interdisciplinary rigorous and critically engaged with many currents in contemporary academic discourse this volume is a timely contribution to the rebirth of a Marxist socialism that is at once scientific emancipatory and internationalist in its commitments Between Prague Spring and French May Martin Klimke, Jacco Pekelder, Joachim Scharloth, 2011-06-01 Abandoning the usual Cold War oriented narrative of postwar European protest and opposition movements this volume offers an innovative interdisciplinary and comprehensive perspective on two decades of protest and social upheaval in postwar Europe It examines the mutual influences and interactions among dissenters in Western Europe the Warsaw Pact countries and the nonaligned European countries and shows how ideological and political developments in the East and West were interconnected through official state or party channels as well as a variety of private and clandestine contacts Focusing on issues arising from the cross cultural transfer of ideas the adjustments to institutional and political frameworks and the role of the media in staging protest the volume examines the romanticized attitude of Western activists to violent liberation movements in the Third World and the idolization of imprisoned RAF members as martyrs among left wing circles across Western Europe
