Society And Culture In Late Antique Gaul Revisiting The Sources:

Society and Culture in Late Antique Gaul Ralph Mathisen, Danuta Shanzer, 2017-07-05 Late Roman Gaul is often seen either from a classical Roman perspective as an imperial province in decay and under constant threat from barbarian invasion or settlement or from the medieval one as the cradle of modern France and Germany Standard texts and moments have emerged and been canonized in the scholarship on the period be it Gaul aflame in 407 or the much disputed baptism of Clovis in 496 508 This volume avoids such stereotypes It brings together state of the art work in archaeology literary social and religious history philology philosophy epigraphy and numismatics not only to examine under used and new sources for the period but also critically to reexamine a few of the old standards This will provide a fresh view of various more unusual aspects of late Roman Gaul and also it is hoped serve as a model for ways of interpreting the late Roman sources for other areas times and contexts

Social Mobility in Late Antique Gaul Allen E. Jones, 2009-07-20 In Social Mobility in Late Antique Gaul Allen Jones explores the situation of the non elite living in Gaul during the late fifth and sixth centuries Drawing especially on evidence from Gregory of Tours writings he formulates a social model based on people of all ranks who were acting in ways that were socially advantageous to them such as combining resources serving at court and participating in ostentatious religious pursuits such as building churches Viewing the society as a whole and taking into account specific social groups such as impoverished prisoners paupers active at churches physicians and wonder working enchanters Jones creates an image of Barbarian Gaul as an honor driven brutal and flexible society defined by social mobility His work also addresses topics such as social engineering and competition magic and religion and the cult of saints

The Oxford Handbook of Late Antiquity Scott Fitzgerald Johnson, 2015-11 The Oxford Handbook of Late Antiquity offers an innovative overview of a period c 300 700 CE that has become increasingly central to scholarly debates over the history of western and Middle Eastern civilizations This volume covers such pivotal events as the fall of Rome the rise of Christianity the origins of Islam and the early formation of Byzantium and the European Middle Ages These events are set in the context of widespread literary artistic cultural and religious change during the period The geographical scope of this Handbook is unparalleled among comparable surveys of Late Antiquity Arabia Egypt Central Asia and the Balkans all receive dedicated treatments while the scope extends to the western kingdoms and North Africa in the West Furthermore from economic theory and slavery to Greek and Latin poetry Syriac and Coptic literature sites of religious devotion and many others this Handbook covers a wide range of topics that will appeal to scholars from a diverse array of disciplines The Oxford Handbook of Late Antiquity engages the perennially valuable questions about the end of the ancient world and the beginning of the medieval while providing a much needed touchstone for the study of Late Antiquity itself

Bishops, Community and Authority in Late Roman Society Rebecca Devlin, 2025-10-01 When the bishop Hydatius found himself held hostage in Gallaecia a Roman province in the northwestern Iberian Peninsula by a band of Sueves in the year 460 he deployed his experience as an

ambassador for his congregation and used his captivity as a tool for negotiating peace. As this example shows, bishops held considerable economic, political, and social power in the early Middle Ages. The expansion of ecclesiastical influence was not, however, a simple consequence of the legalization of Christianity or a power vacuum that followed the withdrawal of imperial authority. The transformation of the episcopate resulted instead from dynamic processes to which all status groups contributed and that are best understood through contextual and diachronic analysis. This monograph focuses on the clerical community in Gallaecia and employs a case study and interdisciplinary approach incorporating written and material evidence to put bishops like Hydatius in their larger social and economic contexts to elucidate why the people living and working in their sees would imbue them with increasing authority and explain how their roles within their local communities expanded. This book analyses the accumulation of political power, social capital, and local influence by bishops, approaching them as part of a larger social system understood as a whole that experienced transformative change across all of its layers. It deploys all evidence, written, material, etc., without privileging one form over the other, a priori, to produce a deep reconstruction of the social and physical contexts, micro-historical landscapes in which bishops operated to explain their rise to prominence. It turns the problem of Iberian early medieval written sources on its head, i.e., the NW and clerical authors are overrepresented by engaging in a series of diachronic case studies to develop a rich understanding of episcopal influence in the NW as a point of departure for understanding broader developments in the late and post-Roman periods.

Attila - the quest for the Sword of Mars M. Traugott Huber, 2024-08-14 The Huns are part of Europe's rich history. The direct Hunnic impact on Europe as it stood around 370 was massive. Attila is one of the few names from antiquity that is still instantly recognised. Three famous experts on the Huns: Otto Maenchen Helfen (1973), Edward Thompson (1948, 1996), and Mischa Meier (2020) contributed significantly to our knowledge, but they failed to answer the five most important questions on Attila and the Huns: Which was the native country of the Huns? Where are the capitals and tombs of Attila's royal ancestors Uldin, Charaton, and Ruga? Where did Attila's decisive Battle of the Catalaunian Plains really take place? Where is Attila's lost capital? Where is Attila's legendary tomb with his fabled Sword of Mars? This book provides answers to each of these five questions while also solving other mysteries: the identity of the enigmatic river Drecon, the name of the village of Attila's sister-in-law, and the true course of Attila's Gallic campaign in 451 and his Italian campaign in 452.

Emotional Communities in the Early Middle Ages Barbara H. Rosenwein, 2006 This highly original book is both a study of emotional discourse in the Early Middle Ages and a contribution to the debates among historians and social scientists about the nature of human emotions.

Transformations of Romanness Walter Pohl, Clemens Gantner, Cinzia Grifoni, Marianne Pollheimer-Mohaupt, 2018-07-09 Roman identity is one of the most interesting cases of social identity because in the course of time it could mean so many different things for instance Greek-speaking subjects of the Byzantine empire, inhabitants of the city of Rome, autonomous civic or regional groups, Latin speakers under barbarian rule in the West, or increasingly representatives of the Church of Rome. Eventually, the

Christian dimension of Roman identity gained ground The shifting concepts of Romanness represent a methodological challenge for studies of ethnicity because depending on its uses Roman identity may be regarded as ethnic in a broad sense but under most criteria it is not Romanness is indeed a test case how an established and prestigious social identity can acquire many different shades of meaning which we would class as civic political imperial ethnic cultural legal religious regional or as status groups This book offers comprehensive overviews of the meaning of Romanness in most former Roman provinces complemented by a number of comparative and thematic studies A similarly wide ranging overview has not been available so far
