Geoff Eley, 1996 Bold new essays on Germany's critical Kaiserreich period **Students, Society and Politics in Imperial Germany** Konrad H. Jarausch, 2014-07-14 Konrad H Jarausch studies the social structure of the German university and the mentality of its students during the Imperial period as an example of a wider European academic desertion of liberalism He finds that German higher education combined scientific world leadership and competent professional training with an eroding liberal education Bildung to create an educated class that was tragically susceptible to the appeal of the Third Reich Originally published in 1982 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Politics and Culture in Wilhelmine Germany**

Matthew Jefferies, 1995-08 Explores the relationship between politics and culture in turn of the century Germany through the unusual medium of industrial architecture which for a time brought together the disparate worlds of politics art and commerce **Electoral Politics in Wilhelmine Germany** Stanley Suval, 1985 The last national election in Wilhelmine

Germany was held on 12 January 1912 Voting was one of the few acts in German society that cut across class lines The precincts were neither overwhelmingly working class nor middle class and from a distance it would have been impossible to tell those voters apart they all wore black clothing Almost all males over twenty five voted in the 1912 election and when the polls closed that Friday at 7 00 P M over 12 million men had cast their ballots 84 2 percent of those eligible Historians have

tended to interpret the Wilhelmine German electorate as though voters were marched to the polls in Prussianized battalions. Because the ballots determined neither the composition of the government nor the national policies the only viable explanation for the heavy voter turnouts was thought to be governmental force. Electoral Politics in Wilhelmine Germany offers a new model of the German electorate which varies considerably from this interpretation. Using techniques of electoral analysis developed for the study of elections in Britain and the United States Stanley Suval argues that the German voters cast their ballots freely and positively. He demonstrates that the ballot was cast not to support the government or forward economic self interest but to express fundamental social relationships present in everyday life. By voting individuals were fulfilling their citizenship roles by expressing their commitments to social groupings. Suval defines these groupings using statistical analysis and qualitative evidence based on religious class and regional variables. He states that voters undertook an act that they felt was important regardless of who won or lost. Electoral Politics in Wilhelmine Germany also disputes the view that the German state worked to undermine the electoral system. Suval contends that the government and its bureaucracy often unwittingly increased the prestige of electoral politics by ensuring against massive fraud and by active participation in voter mobilization. The result was an integrated electoral system fueled by the commitments of the voters. Thus the Weimar Republic was not crippled at birth by its Wilhelmine inheritance. On the contrary the Wilhelmine electorate was as prepared for its citizenship roles as were those in most contemporary democratic countries.

Art and the German Bourgeoisie Carolyn Helen Kay, 2002-01-01. In this new study of art in fin de siècle Hamburg Carolyn Kay examines the career of the city's art gallery director Alfred Lichtwark, one of Imperial Germany's most influential museum directors and a renowned cultural critic. A champion of modern art, Lichtwark stirred controversy among the city's bourgeoisie by commissioning contemporary German paintings for the Kunsthalle by secession artists and supporting the formation of an independent art movement in Hamburg influenced by French impressionism. Drawing on an extensive amount of archival research and combining both historical and art historical approaches, Kay examines Lichtwark's cultural politics, their effect on the Hamburg bourgeoisie, and the subsequent changes to the cultural scene in Hamburg. Kay focuses her study on two modern art scandals in Hamburg and shows that Lichtwark faced strong public resistance in the 1890s, winning significant support from the city's bourgeoisie only after 1900. Lichtwark's struggle to gain acceptance for impressionism highlights conflicts within the city's middle class as to what constituted acceptable styles and subjects of German art, with opposition groups demanding a traditional and pure German culture. The author also considers who within the Hamburg bourgeoisie supported Lichtwark and why. Kay's local study of the debate over cultural modernism in Imperial Germany
