Sociological Human Ecology Contemporary Issues And Applications:

Sociological Human Ecology Michael Micklin, Harvey M Choldin, 2019-09-18 First published in This volume grew out of concerns raised by the contributors and a few others over the current status of human ecology within the field of sociology Stemming from conferences and subsequent discussions by a group of sociologist demographers on recent developments in sociological human ecology which started at the annual meeting of the Population Association of America in 1976 the original essays contained in this book are designed to review and assess the current state of knowledge in the field Sociological Human Ecology Michael Micklin, Harvey M. Choldin, 1984-01-01

Continuities in Sociological Human Ecology Michael Micklin, Dudley L. Poston, 2013-11-11 The completion of this volume would not have been possible without the generous and dedicated help of numerous people The book had its genesis in a conference held at Cornell University in the fall of 1990 that was organized by Dudley Poston Paul Eberts and Michael Hannan all professors at the time at Cornell With the very generous financial assistance of David Call then the dean of Cornell s College of Agriculture and Life Sciences Poston Eberts and Hannan put together a two day conference of lectures and papers by human ecologists from Cornell University and elsewhere The conference focused on sociological human ecology and celebrated the fortieth anniversary of the publication of Amos Hawley s Human Ecology Ronald Press 1950 Professor Hawley was the keynote speaker at the conference Many of the authors of the chapters in this volume presented earlier versions at the Cornell conference in 1990 Cornell s Departments of Rural Sociology and Sociology also contributed financial assistance however without Dean Call s very generous support the conference would not have been possible A few months after the conference Poston and Michael Micklin discussed the possibility of asking the various authors of the Cornell conference papers to revise them for publication in a volume on sociological human ecology Many opted to do so but others did not because of time and other kinds of commitments and constraints

The Handbook of Community Practice Marie Weil, Michael S. Reisch, Mary L. Ohmer, 2013 Written by some of the most influential scholars in the field this Handbook covers community development organizing planning and social change as well as key issues fields of practice and global approaches

The Community in Rural America Kenneth P. Wilkinson, 2023-03-15 The Community in Rural America by Kenneth P Wilkinson is a foundational theoretical work that both defines the interactional approach to the study of the community in rural areas and frames its application to encourage and

promote rural community development Recognized for its detailed theoretical construction and logic for understanding human interactions this book has been widely adopted and used by researchers extension faculty and community development practitioners for over thirty years Presenting Wilkinson s groundbreaking work in its original form with a new foreword aimed at clarifying several key concepts in interactional theory this edition of *The Community in Rural America* will appeal to new students of the community as well as established scholars in the field *Ecosystem Management* William Burch,1998-12-01 This text looks at the management of critical resources and the fact that the definition of what is and is not seen as a critical resource for survival varies by time and culture *The Forest and the Trees* Allan Johnson,2014-09-12 If sociology could teach everyone just one thing what would it be *The Forest and the Trees* is one sociologist s response to the hypothetical the core insight with the greatest potential to change how people see the world and themselves in relation to it Amazon com **Micro-Macro Links and Microfoundations in Sociology** Vincent Buskens,Werner Raub,Marcel Van Assen,2014-07-16 *Micro Macro Links and Microfoundations in Sociology* focuses on two main issues in sociology Firstly how macro conditions can explain macro outcomes mediated by actor behaviour at the micro level micro macro links Secondly how alternative micro models affect macro outcomes microfoundations The contributions reflect key features of micro macro modelling in sociology as well as recent progress in this field The chapters address core features of explanations of social phenomena using micro macro models the problem of cooperation heterogeneity of actors structural balance opinion formation segregation and problems of micro macro models that are based on rational choice assumptions Moreover the contributions show how different research methods can be applied fruitfully such as laboratory experiments equilibrium analysis and agent based modelling As a result the book can be a guide for graduate students who want to develop their skills in building micro macro models In addition the book provides specialists of the different substantive research areas with up to date new developments in their research area This book was originally published as a special issue of *Journal of Mathematical Sociology* *The Fragile Community* Mara B. Adelman,Larry R. Frey,2020-07-24 This book examines the concept of community focusing on how communication practices help manage the tensions of creating and sustaining everyday communal life amidst the crisis of human loss While acknowledging how the contradictory and inconsistent nature of human relationships inevitably affects community this intimate and compelling text shows how community is created and sustained in concrete communication practices The authors explore these ideas at Bonaventure House an award winning residential facility for people with AIDS where the web of social relationships and the demands of a life threatening illness intersect in complex ways Facing a life threatening illness can defy meaningful social connections but it can also inspire such ties sometimes in ways that elude us in the course of daily life By understanding how collective communication practices help residents forge a sense of community out of the fragility and chaos of living together with AIDS we are able to better understand how communication is inexorably intertwined with the formation of community in other environments Based on

seven years of ethnographic research including participant observation in depth interviews and questionnaires this book weaves together narratives and visual images with conceptual analysis to uncover the ongoing oppositional forces of community life and to show how both mundane and profound communication processes ameliorate these tensions and thereby sustain this fragile community Because the average length of stay for a resident is seven months in which time he or she moves from being a newcomer to a community member to someone the community remembers the text reflects this short but crystallized life starting with the day a new resident opens the door to the day he or she passes away The writing is rich intimate engaging personal compelling and vivid The stories told discuss such deeply personal topics as the dilemmas of romantic relationships in a context fraught with many perils issues of power authority and control that enable and constrain social life and communicative practices that help residents cope with bereavement over the loss of others as well as their own impending deaths The text concludes by examining the lessons learned from Bonaventure House about creating and sustaining a health community and serves as an inspiration for strengthening interpersonal relationships and communities in other environments
