Client and Agency John Mayer, 2017-07-12 It is a startling and somewhat disturbing fact that social work researchers as well as research psychiatrists and psychologists have rarely explored the treatment situation from the standpoint of the client *Client and Agency* first published in the 1960s

explores by means of free flowing interviews a close up picture of the client s experiences at a social work agency There has been a growing awareness of the importance of consumer opinion in the social services following the wide spread impact of consumer groups particularly those concerned with educational and medical services Social work agencies have hesitated uncertain about the researchers and their methods and fearful of the outcome But it is desirable that they incorporate the views of consumer groups because client opinion is one way of checking the effectiveness of their work The practice of social work requires the application of knowledge derived from a variety of sources and academic disciplines It is frequently difficult to relate conflicting evidence and diverse theories about human behavior for use in day to day work with acutely troubled and deprived people It points to the need for more extensive studies of both consumers and suppliers of social work services because it raises many pertinent questions In Client and Agency clients of a Family Welfare Association discuss the kind of help they expect to receive their impressions of the social worker and the treatment process and the ways they felt they were helped or not helped Welfare in Review ,1971 **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 First multi year cumulation covers six years 1965 70 **Re-settlement of Ex-servicemen in India** Satyendra Kishore,1991 Study conducted in Bihar and Haryana states **The Structural Approach to Direct Practice in Social Work** Gale Goldberg Wood,Ruth R. Middleman,1989 Structural social work assumes that clients are adequate people in untenable situations The social worker must display active appreciation for the client s competence in telling about what does matter rather than what the practitioner thinks should matter *Subject Catalog* Library of Congress,1979 **Social Environment and Behavior** Hayim Granot,1971
