

This book examines the South Asian constitutional systems (India 1950, Bangladesh 1972, Pakistan 1973, Sri Lanka 1978, Bhutan 2008, Nepal 2015), adopting a comparative law and 'contextual' approach. Social diversity is the main feature of this geographical region, vast in dimension, also according to its demographic profile. This is why studying this area from a legal and institutional perspective is not only a crucial need for comparative law, but also a major methodological and intellectual challenge. The adopted methodology, that goes far beyond legal orientalism, highlights the pragmatic attitude of South Asian legal systems, considering the achievements of constitutionalism in this area as genuinely worthy of in-depth analysis, and not as mere replicas of Western standards. The most interesting contribution of this study concerns the relations between federalism and the multicultural State, showing that the recognition of cultural diversity is the starting point for the elaboration of a constitutional order aimed at ensuring the cohesion of State structures.

preceding beginnings The work concludes with the proposition that the novelty should not only be regarded as contained in the moment of transition It should also be seen as contained in the pledge in the promise and the gesturing towards a future community Distinct from most other studies on the partition and independence the book assumes the constitutive moment as the focal point offering a new approach to the study of partition in British India decolonisation and the institutional of the postcolonial state This work will be of great interest to students and scholars of international relations South Asian studies and political and postcolonial theory

Courts and Democracies in Asia Po Jen Yap,2017-09-28 What is the relationship between the strength of a country s democracy and the ability of its courts to address deficiencies in the electoral process Drawing a distinction between democracies that can be characterised as dominant party for example Singapore Malaysia and Hong Kong dynamic for example India South Korea and Taiwan and fragile for example Thailand Pakistan and Bangladesh this book explores how democracy sustains and is sustained by the exercise of judicial power In dominant party systems courts can only pursue dialogic pathways to constrain the government s authoritarian tendencies On the other hand in dynamic democracies courts can more successfully innovate and make systemic changes to the electoral system Finally in fragile democracies where a country regularly oscillates between martial law and civilian rule their courts tend to consistently overreach and this often facilitates or precipitates a hostile take over by the armed forces and lead to the demise of the rule of law
