The Politics Of Population Control:

The Politics of Population Control Thomas B Littlewood,1979-02 The Politics of Population Stanley

Johnson,2013-11-05 The International Conference on Population and Development in Cairo in 1994 represented a remarkable watershed Not only did it produce an unprecedented degree of agreement among the 179 countries and thousands of non governmental organizations taking part it also created a wide ranging Programme of Action which for the first time offers real chances of progress by putting population policies at the heart of the struggle for social development This book recounts what actually happened in Cairo and how it was achieved The early chapters look in some detail at the preparations for Cairo in the context of over three decades of attempts to integrate population development and environmental issues Focusing on the key controversial questions including abortion contraception and adolescent sex it examines the ways in which attempts were made to reconcile opposing positions Setting the discussion in a much wider context it argues that Cairo witnessed a quantum leap in the way the population issue is seen and the need to give them control over their own lives central to the discussion about population resources and development The Programme of Action which emerged from the conference particularly the parts dealing with gender issues included here in appendices is the most forward looking ever adopted As a whole the Programme is probably one of the most important social documents of our time This book captures both the drama and the detail of its creation Stanley Johnson edited *The Population Problem* 1974 and is the author of *World Population and the United Nations* 1987 and *World Population Turning the Tide* 1994 as well as numerous other books including eight novels Originally published in 1995 **The Politics of Population in Brazil** Peter McDonough,Amaury DeSouza,2014-08-27 The population of Brazil increased tenfold from 10 to over 100 million between 1880 and 1980 nearly half of this increase occurring since the end of World War II *The Politics of Population in Brazil* examines the attitudes toward population planning of Brazilian government officials and other elites bishops politicians labor leaders and business owners in comparison with mass public opinion The authors findings that elites seriously underestimate the desire for family planning services while the public views birth control as a basic issue represent an important contribution on a timely issue A major reason for this disparity is that the elites tend to define the issue as a matter of national power and collective growth and the public sees it as a bread and butter question affecting the daily lives of families McDonough and DeSouza document not only the real gulf between elite and mass opinion but also the propensity of the elites to exaggerate this gap through their stereotyping of public opinion as conservative and disinterested in family planning Despite these differences the authors demonstrate that population planning is less conflict ridden than many other controversies in Brazilian politics and probably more amenable to piecemeal bargaining than some earlier studies suggest In part this is because attitudes on the issue are not closely identified with opinions regarding left versus right disputes In addition for the public in general religious sentiment affects attitudes toward family planning only indirectly This separation which reflects the historical lack of

penetration of Brazilian society on the part of the church further attenuates the issue's potential for galvanizing deep seated antagonisms As the authors note this situation stands in contrast to the fierce debates that moral issues have generated in Spain and Ireland The study is noteworthy not only for its original approach the incorporation of mass and elite data and the departure from the standard concerns with fertility determinants in population but also for its sophisticated methodology and lucid presentation *The Politics of Expertise* Ole Jacob Sending, 2015-12-15 A groundbreaking analysis that sheds new

light on global governance **The Politics of (M)Othering** Obioma Nnaemeka, 2005-08-04 This collection is a study of African literature framed by the central and multi faceted idea of mother motherland mothertongue motherwit motherhood mothering looking at the paradoxical location of mother as both central and marginal Whilst the volume stands as a sustained feminist analysis it engages feminist theory itself by showing how issues in feminism are in African literature recast in different and complex ways *The Politics of Motherhood* Jadwiga E. Pieper Mooney, 2009-12-06 With the 2006 election

of Michelle Bachelet as the first female president and women claiming fifty percent of her cabinet seats the political influence of Chilean women has taken a major step forward Despite a seemingly liberal political climate Chile has a murky history on women's rights and progress has been slow tenuous and in many cases non existent Chronicling an era of unprecedented modernization and political transformation Jadwiga E Pieper Mooney examines the negotiations over women's rights and the politics of gender in Chile throughout the twentieth century Centering her study on motherhood Pieper Mooney explores dramatic changes in health policy population paradigms and understandings of human rights and reveals that motherhood is hardly a private matter defined only by individual women or couples Instead it is intimately tied to public policies and political competitions on nation state and international levels The increased legitimacy of women's demands for rights both locally and globally has led to some improvements in gender equity Yet feminists in contemporary Chile continue to face strong opposition from neoconservatism in the Catholic Church and a mixture of public apathy and legal wrangling over reproductive rights and health **The Politics of Replacement** Sarah Bracke, Luis Manuel Hernández Aguilar, 2023-12-01

The Politics of Replacement explores current demographic conspiracy theories and their entanglement with different forms of racism and exclusionary politics such as sexism The book focuses on population replacement conspiracy theories that is those imaginaries and discourses centered on the idea that the national population is under threat of being overtaken or even wiped out by those considered as alien to the nation and that this is the result of concerted efforts by elites Replacement conspiracy theories are on the rise again from Eurabia fantasies to Renaud Camus The Great Replacement white supremacist discourses are thriving and increasingly broadcasting in mainstream venues To account for their rise and spread this edited volume brings together research on various dimensions of population replacement conspiracy theories different theoretical and methodological approaches different social scientific and humanities inter disciplinary backgrounds different geographical case studies across Europe North America Southeast Asia and Oceania different time periods medieval archives

colonial archives Nazi archives postcolonial migrations post 9 11 and different forms of racialization and racisms Islamophobia antisemitism racism against migrants and refugees It also explores the entanglement of population replacement discourse with gendered violence The book is organized into four sections 1 exploring the historical background of the current rise of demographic conspiracy theories 2 tracing the neoliberal governmentalities in and through which replacement discourse operates 3 analyzing the particularly intense focus on the threat of Muslims in contemporary replacement conspiracy theories and 4 investigating the connection between replacement conspiracies gender and violence This title is essential reading for scholars journalists and activists interested in the contemporary far right conspiracy theories and racisms

The Politics of Right Sex Courtenay W. Daum, 2020-08-01 Examines the limitations of rights based mobilization and litigation for advancing the interests of trans individuals in the contemporary United States While the growing attention to trans rights and the development of trans specific interest groups suggest that the time is right for a trans rights movement akin to prior civil rights movements The Politics of Right Sex explores the limitations of rights based mobilization and litigation for advancing the interests of trans communities Synthesizing critical theory transgender studies and extant law and society research Courtenay W Daum argues that trans individuals particularly those situated at the intersection of gender race class and immigration status are regulated by myriad forces of governmentality that work to maintain the sex and gender binaries and associated power hierarchies Because many informal practices and norms are located beyond the reach of civil rights laws a trans politics of rights may produce some modest legal and legislative reforms but will not eliminate the disciplinary forces that work to subject trans individuals It will also privilege those who are able to conform with dominant gender norms at the expense of the interests of those individuals who are gender nonconforming gender queer trans people of color and others unable or unwilling to embrace a transnormative presentation of self and or lifestyle In order to disrupt the dominant discourse and hierarchical power arrangements in pursuit of collective liberation for all as opposed to rights for some The Politics of Right Sex advocates for a more confrontational approach that directly engages and challenges the hegemonic power structures that govern and discipline trans individuals

The Politics of Population Control George Omaku Ehusani, 1994 Towards an Understanding of the Politics of Population Control Lori Nan Silverberg, 1978 *The Politics of Religion in South and Southeast Asia* Ishtiaq Ahmed, 2011-05-04 The notion of a politics of religion refers to the increasing role that religion plays in the politics of the contemporary world. This book presents comparative country case studies on the politics of religion in South and South Asia including India, Pakistan and Indonesia. The politics of religion calls into question the relevance of modernist notions of secularism and democracy with the emphasis instead on going back to indigenous roots in search of authentic ideologies and models of state and nation building. Within the context of the individual countries, chapters focus on the consequences that politics of religion has on inclusive nation building, democracy and the rights of individuals, minorities and women. The book makes a contribution to both the theoretical and conceptual literature on the politics of religion as well as shed light on the implications and ramifications of the politics of religion on contemporary South Asian and South East Asian countries. It is of interest to students and scholars of South and South East Asian Studies as well as Comparative Politics. **The Politics of Duplicity** Gail Kligman, 2023-09-01 The political hypocrisy and personal horrors of one of the most repressive anti-abortion regimes in history came to the world's attention soon after the fall of Romanian dictator Nicolae Ceausescu. Photographs of orphans with vacant eyes, sad faces and wasted bodies circled the globe as did alarming maternal mortality statistics and heart-breaking details of a devastating infant AIDS epidemic. Gail Kligman's chilling ethnography of the state and of the politics of reproduction is the first in-depth examination of this extreme case of political intervention into the most intimate aspects of everyday life. Ceausescu's reproductive policies among which the banning of abortion was central affected the

physical and emotional well being not only of individual men women children and families but also of society as a whole Sexuality intimacy and fertility control were fraught with fear which permeated daily life and took a heavy moral toll as lying and dissimulation transformed both individuals and the state This powerful study is based on moving interviews with women and physicians as well as on documentary and archival material In addition to discussing the social implications and human costs of restrictive reproductive legislation Kligman explores the means by which reproductive issues become embedded in national and international agendas She concludes with a review of the lessons the rest of the world can learn from Romania's tragic experience The political hypocrisy and personal horrors of one of the most repressive anti abortion regimes in history came to the world's attention soon after the fall of Romanian dictator Nicolae Ceausescu Photographs of orphans with vacant eyes sad faces and w

Security Theology, Surveillance and the Politics of Fear Nadera Shalhoub-Kevorkian, 2015-05-28 This examination of Palestinian experiences of life and death within the context of Israeli settler colonialism broadens the analytical horizon to include those who keep on existing and explores how Israeli theologies and ideologies of security surveillance and fear can obscure violence and power dynamics while perpetuating existing power structures Drawing from everyday aspects of Palestinian victimization survival life and death and moving between the local and the global Nadera Shalhoub Kevorkian introduces and defines her notion of Israeli security theology and the politics of fear within Palestine Israel She relies on a feminist analysis invoking the intimate politics of the everyday and centering the Palestinian body family life memory and memorialization birth and death as critical sites from which to examine the settler colonial state's machineries of surveillance which produce and maintain a political economy of fear that justifies colonial violence

Eugenics at the Edges of Empire Diane B. Paul, John Stenhouse, Hamish G. Spencer, 2017-11-16 This volume explores the history of eugenics in four Dominions of the British Empire New Zealand Australia Canada and South Africa These self governing colonies reshaped ideas absorbed from the metropole in accord with local conditions and ideals Compared to Britain and the US Germany and Scandinavia their orientation was generally less hereditarian and more populist and agrarian It also reflected the view that these young and enterprising societies could potentially show Britain the way if they were protected from internal and external threat This volume contributes to the increasingly comparative and international literature on the history of eugenics and to several ongoing historiographic debates especially around issues of race As white settler societies questions related to racial mixing and purity were inescapable and a notable contribution of this volume is its attention to Indigenous populations both as targets and on occasion agents of eugenic ideology
