The Politics Of Presidential Selection

Byron E. Shafer, Elizabeth M. Sawyer

The Politics Of Presidential Selection:

Politics of Presidential Selection William Crotty, John S. Jackson, 1996-07 *Eternal Bandwagon* Byron E. Shafer, Elizabeth M. Sawyer, 2020-09-02 Orthodox reporting and conventional scholarship focuses on the factors that distinguish each presidential contest and then attempts to explain them This book rather demonstrates that the politics of presidential nomination has been remarkably stable in the United States since the 1830s and right through to 2020 A common bandwagon dynamic rolling once through party organizations and now through presidential primaries permits a simple measure that has predicted nominations well before the decisive threshold was reached while allowing precise comparisons across the years So it becomes possible to separate the handful of things that matter for winnowing a large and diverse society into two individual presidential nominees This funnel of causality moves through the occupational and careers seedbeds of a field of presidential aspirants squeezing these fields by way of a small set of structural shapers until party factions and factional struggles not rules of the game not candidate characteristics not nominating strategies nor all the other ephemera so beloved of commentators and observers actually choose a given nominee **Presidential Selection** James W. Ceaser, 1979-06-21 Examining the development of the process of presidential selection from the founding of the republic to the present day James Ceaser contends that many of the major purposes of the selection system as it was formerly understood have been ignored by current reformers and modern scholars In an attempt to reverse this trend Professor Ceaser discusses the theories of selection offered by leading American statesmen from the Founders and Thomas Jefferson to Martin Van Buren and Woodrow Wilson From these theories he identifies a set of criteria for a sound selection system that he then uses to analyze and evaluate the recent changes in the selection process Five normative functions of a presidential selection system comprise the author's criteria it should minimize the harmful effects of ambitious contenders for the office promote responsible executive leadership and power help secure an able president ensure a legitimate accession and provide for an appropriate amount of choice and change Professor Ceaser finds that the present system is characterized by weak parties and candidate centered campaigns that lead to the problems of image politics and demagogic leadership appeals He therefore argues for a more republican selection system in which political parties would be strengthened to serve as a restraining force on popular authority public opinion and individual aspirations for executive power *The Selection and Election of Presidents* Daniel Gasman, 2017-07-05 The United States presidential selection process is intricate constantly evolving and imperfectly understood by most American voters The long campaign brings to light conflicting concepts of the role of the president inherent constraints on his powers contradictions in the selection process and possibilities for change or compromise that are at once its strength and its weakness The Selection and Election of Presidents is based on a series of meetings and seminars organized by a French American organization concerned with the presidential selection election process A varied group of experts ranging from former presidential candidates to party leaders to professors engaged each

other in an informal setting with much give and take between the speakers and questions from participants The result is a primer on how political parties operate their relationship to other elements in the American political system and how effectively parties operate in the light of changes or reforms The exchanges resulting from the seminars that are the basis of this volume provide a still valuable outline of how the American system works when presidents are selected

The Selection and Election of Presidents Robert S. Hirschfield, 2011-12-31 The United States presidential selection process is intricate constantly evolving and imperfectly understood by most American voters The long campaign brings to light conflicting concepts of the role of the president inherent constraints on his powers contradictions in the selection process and possibilities for change or compromise that are at once its strength and its weakness The Selection and Election of Presidents is based on a series of meetings and seminars organized by a French American organization concerned with the presidential selection election process A varied group of experts ranging from former presidential candidates to party leaders to professors engaged each other in an informal setting with much give and take between the speakers and questions from participants The result is a primer on how political parties operate their relationship to other elements in the American political system and how effectively parties operate in the light of changes or reforms The exchanges resulting from the seminars that are the basis of this volume provide a still valuable outline of how the American system works when presidents are selected

Controversial Issues in Presidential Selection Gary L. Rose, 1994-01-01 The book is designed to stimulate lively debate and critical thinking about the modern process of presidential selection Eleven issues that impact directly on the selection of the president of the United States are examined in a scholarly and argumentative format Essays pro and con on each issue educate students in the dynamics of presidential selection and help them evaluate competing perspectives on today's pressing issues

Jockeying for the American Presidency Lara M. Brown, 2010 This book will compel scholars to take a new look at the role of political opportunism in the presidential selection process Lara Brown provides a fresh innovative exploration of the roots of opportunism one that challenges conventional wisdom as it advances our understanding of this complex topic Michael A. Genovese Loyola Marymount University

Presidential Selection James W. Ceaser, 2020-07-21 Examining the development of the process of presidential selection from the founding of the republic to the present day James Ceaser contends that many of the major purposes of the selection system as it was formerly understood have been ignored by current reformers and modern scholars In an attempt to reverse this trend Professor Ceaser discusses the theories of selection offered by leading American statesmen from the Founders and Thomas Jefferson to Martin Van Buren and Woodrow Wilson From these theories he identifies a set of criteria for a sound selection system that he then uses to analyze and evaluate the recent changes in the selection process Five normative functions of a presidential selection system comprise the author's criteria it should minimize the harmful effects of ambitious contenders for the office promote responsible executive leadership and power help secure an able president ensure a legitimate accession and provide

for an appropriate amount of choice and change Professor Ceaser finds that the present system is characterized by weak parties and candidate centered campaigns that lead to the problems of image politics and demagogic leadership appeals He therefore argues for a more republican selection system in which political parties would be strengthened to serve as a restraining force on popular authority public opinion and individual aspirations for executive power **The Politics of the Presidency** Joseph A. Pika, John Anthony Maltese, Andrew Rudalevige, 2017-07-06 This book analyses the change and continuity in the presidency during Barack Obama's two terms in an entrenched partisan environment discusses the competitive setting for the 2016 election and looks at the challenges and opportunities President Trump will face Voting for President Wallace Stanley Sayre, Judith H. Parris, 1970 Evaluates the effectiveness of the present system for electing the President and studies the merits and defects of the four interesting alternatives **Presidential Selection** Alexander Heard, Michael Nelson, 1987 This study incorporates three important themes into the study of presidential selection What are the international implications of how the United States chooses its presidents How does the process affect other nations Does it enhance or diminish the ability of the United States to deal effectively with the rest of the world How do the changing characteristics of the presidential selection process affect the shaping of public policies and vice versa For example how have changes in citizen participation campaign technologies and campaign finance laws altered the balance of political power among institutions and interests What is the influence of the Constitution on presidential selection as in the prescribed qualifications for the office and in provisions for unusual circumstances *Controversial Issues in Presidential Selection* Gary L. Rose, 1991-01-01 This book presents an examination of ten major and controversial issues directly affecting the American presidential selection process These issues are addressed in a point counterpoint format to promote lively discussion and scholarly debate The Introduction argues that the modern process of presidential selection has evolved to a point of crisis and that collapse appears imminent while the Conclusion endorses a proposal that may serve as the first step toward improving the process The entire process of presidential selection is included here the nominating phase the convention phase and the general election phase **The Presidential Election Game** Steven J. Brams, 2007-11-30 The Presidential Election Game may change the way you think about presidential elections and for that matter American politics in general It is not filled with statistics about the voting behavior of citizens nor does it give detailed histories of past campaigns Rather it is an analytic treatment of strategy in the race for the presidency fr **Presidential Elections** Nelson W. Polsby, Aaron B. Wildavsky, David A. Hopkins, 2008 Brimming with data and examples from the heated 2004 election and laced with previews of 2008 the twelfth edition of this classic text offers a complete overview of the presidential election process from the earliest straw polls and fundraisers to final voter turnout and exit interviews The newest edition's comprehensive coverage includes campaign strategy with overviews of the changes in campaign finance and the growing role of the Internet Also the twelfth edition explores the effect of the forward creeping presidential nomination process and

the sequence of electoral events All of these aspects and the issues themselves are discussed by a wide array of actors in the electoral process voters interest groups political parties the media and the candidates themselves The twelfth edition is a timely update to this essential text on American elections

Saturday Night Live and the 1976 Presidential Election

William T. Horner, M. Heather Carver, 2018-02-09 The debut of Saturday Night Live and the 1976 presidential election between Gerald Ford and Jimmy Carter had enduring effects on American culture With its mix of sketch comedy and music SNL grabbed huge ratings and several Emmys in its first season President Ford's press secretary Ron Nessen was the first politician to host SNL Ford also appeared on the show via video tape to offer a comic counterpunch to Chevy Chase's signature line I'm Chevy Chase and you're not Since then it has become a rite of passage for national politicians to appear on SNL and the show's treatment of them and their platforms has a continuing impact on political discourse

Legal History of the Presidential Election Campaign Fund Act, 1984 *The Gambia Presidential Election* Commonwealth Observer Group, 2012 The Report of the Commonwealth Expert Team for The Gambia Presidential Election held on 24 November 2011 The Group was led by Professor Bolaji Akinyemi former Foreign Affairs Minister of Nigeria and was comprised of five experts in total

The 2016 US Presidential Election and the LGBTQ Community Pamela J. Lannutti, M. Paz Galupo, 2020-06-04 In this volume researchers explore the effects of the 2016 US Presidential Election on the LGBTQ community from a wide variety of disciplines including communication gender studies nursing political science public health psychology cultural analysis and social work The research in this volume shows that the election had negative effects on the personal well being relationships and families of LGBTQ people The research also explains ways in which members of the LGBTQ community reacted to the election with hope resilience and positive relational outcomes Moving topically from a discussion of the election and the LGBTQ community at the system level the contributors move on to assess the effect of the election at both family level and the individual level as well Representing qualitative quantitative and mixed methodological approaches this interdisciplinary volume will appeal to students and researchers interested in the 2016 US election and those interested in the impact of politics on marginalized communities more broadly This book was originally published as a special issue of the Journal of GLBT Family Studies

The Presidential Election Game, Second Edition Steven J. Brams, 2008 The Presidential Election Game may change the way you think about presidential elections and for that matter American politics in general It is not filled with statistics about the voting behavior of citizens nor does it give detailed histories of past campaigns Rather it is an analytic treatment of strategy in the race for the presidency from the primaries to the general election Using modern game theory and decision theory Brams demonstrates why certain campaign strategies are more effective than others and supports his analysis with historical evidence

Summary of the Foreign Investors Tax of 1966; Presidential Election Campaign Fund Act; and Other Amendments (H.R. 13103; 89th Congress, Public Law 89-809) United States. Congress. Internal Revenue Taxation Joint Committee, 1967
