The Politics Of Violence:

The Politics of Violence Carl Leiden, 1973 *The Politics of Memory in Post-Authoritarian Transitions, Volume Two*
Joanna Marszałek-Kawa, Anna Ratke-Majewska, Patryk Wawrzyński, 2017-01-06 History is a powerful tool in the hands of politicians and can be a destructive weapon as power over the past is the power to decide who is a hero and who is a traitor. Tradition, the remembrance of ancestors' experiences of previous generations are keys that unlock the doors to citizens' minds and allow certain ideas, visions and political programs to flourish. However, can history be a proper political weapon during democratization processes when the past is decisively divided from the present? Are the new order and society founded on the basis of some interpretation of the past or rather are they founded only with reference to the imagined future of the nation? This book explores such questions through a detailed description of the use of remembrance policies during political transformations. It discusses how interpretations of the past served the realization of transitional objectives in countries as varied as Chile, Estonia, Georgia, Poland, South Africa and Spain. The book is a unique journey through different parts of the world, different cultures and different political systems, investigating how history was remembered and forgotten by certain democratic leaders. Individual chapters discuss how governments' remembrance policies were used to create a new citizen, to change a political culture and to justify a vision of society promoted by new elites. They explain why some sore topics were avoided by politicians and why sometimes there was no transitional justice or punishment of leaders of the authoritarian state. The book will be of interest to anyone wishing to explore policies of remembrance, democratization and the role of memory in contemporary societies.

Politics and the Concept of the Political James Wile, 2016-05-26 A recent trend in contemporary western political theory is to criticize it for implicitly trying to conquer, displace or moralize politics. James Wile's book takes the next step from criticizing contemporary political theory to showing what a more politics-centered political theory would look like by exploring the meaning and value of politics in the writings of Max Weber, Carl Schmitt, Paul Ricoeur, Hannah Arendt, Sheldon Wolin, Claude Lefort and Ernesto Laclau and Chantal Mouffe. These political theorists all use the concept of the political to explain the value of politics and defend it from its detractors. They represent state-centered, republic-centered and society-centered conceptions of politics as well as realist, authoritarian, idealist, republican, populist and radical democratic traditions of political thought. This book compares these theorists and traditions of the political in order to defend politics from its critics and to contribute to the development of a politics-centered political theory. *Politics and the Concept of the Political* will be a useful resource to general audiences as well as to specialists in political theory.

Understanding Political Violence Vincenzo Ruggiero, 2006-03-16 *Understanding Political Violence* introduces political violence in the context of sociological and criminological debates. Vincenzo Ruggiero discusses and critiques

the contribution of criminological theory to understanding political violence He draws on stimulating case studies to illustrate the theory including interviews with former members of the Red Army Faction in Germany and the Brigade Rosse in Italy The concluding chapter examines the recent development of a criminology of war and calls for a general ceasefire and the criminalisation of war the most extreme form of institutional violence This is essential reading for students and researchers in criminology political studies sociology and war and conflict studies

United Nations Peacekeeping and the Politics of Authoritarianism Sarah von Billerbeck, Birte Julia Gippert, Kseniya Oksamytna, Oisín Tansey, 2025-01-11 What impact does UN peacekeeping have on the politics of authoritarianism in host countries This book advances a theoretically innovative and empirically rich answer to this question while the UN does not intentionally promote authoritarianism it faces a number of constraints and dilemmas that give rise to what we call authoritarian enabling Enabling can occur through two mechanisms capacity building and the creation of a permissive environment which enhance the ability of host governments to engage in authoritarian behavior and signal to them that doing so is low cost This book illustrates these two mechanisms with four in depth case studies of UN peacekeeping operations UNTAC in Cambodia MONUC MONUSCO in the Democratic

Republic of Congo MINUSTAH in Haiti and UNMIL in Liberia The analysis is based on primary interview data from over 200 interviews The authors explore the sources of enabling identifying the trade offs and contradictions that give rise to these two mechanisms They include respect for sovereignty the importance of working relations with the host government the tension between democracy and other mission goals the pressure to demonstrate quick results and divergences within missions and the broader international community While enabling stops short of the outright promotion of authoritarianism it explains why the UN s activities often appear to contradict its stated objectives and the outcomes it delivers fall short of its goals In addition to its theoretical and empirical contributions the book suggests how these dilemmas and challenges can be overcome *The Politics of Terrorism and Counterterrorism in Bangladesh* Saimum Parvez, Mohammad Sajjadur

on which to base a retrospective of the book and simultaneously to reflect upon the evolution of the black liberation struggle more formally called African American politics In the present age there is not much talk about a black nation certainly not as was heard during the 1960s and mid 1970s Yet there is a persistent sense of separateness in that there is constant thought and talk of Black America as a significantly separate communal entity Black Americans are seen as a racially and culturally distinct community holding to social political economic interests which have special significance and poignancy for them Holden s perception of the nature of the times in the early seventies stands in sharp contrast to how contemporary analysts of African American politics tend to perceive the nature of African Americans role in political life and their position in American society in the present age In this retrospective readers have the opportunity to get a sense of what Holden argued of the seven essays that make up his seminal volume and to consider how well Holden s observations have stood the tests of time In addition to the essays presented at the symposium which pointedly discuss Holden s work there are essays dealing with African American Politics in Constancy and Change by contributors including Charles Henry David Covin Robert C Smith Clyde Lusane Cheryl Miller D Linell Finley and Sekou Franklin among others Other features are a highly informative discussion of the Literary Digest magazine s Straw Vote Presidential Polls 1916 1936 and a review essay by Peter Ronaye in which he discusses America as New World Power U S Foreign Policy in the Post Cold War Era The volume concludes with fifteen book reviews by knowledgeable scholars The Politics of the Black Nation is a timely thought provoking volume It will be of immense value to ethnic studies specialists African American studies scholars political scientists historians and sociologists Georgia A Persons is professor in the School of Public Policy at the Georgia Institute of Technology and the current editor of the National Political Science Review

The Politics of Conflict Monica Ingber, 2015-04-01 By looking at the problem of complicity in political violence from a social versus a legal perspective The Politics of Conflict offers readers new insight into the ways in which violence operates To do this Monica Ingber applies Gilles Deleuze s analysis of the novellas of Leopold Sacher Masoch particularly Venus in Furs to the politics of violence in Iraq Specifically Ingber develops the concept of transubstantiatory violence to think through the relationship between social complicity and political violence By assessing politics in Iraq through the lens of transubstantiatory violence it becomes possible to see how social complicity validates what would be otherwise viewed as illegitimate forms of violence This legitimization of violence is addressed through the problematization of the modern correlation of security law and the social contract by exploring three key areas of socio politics state making and nation building political movements and the popular militia A serious study that makes important contributions to political science political philosophy and conflict studies The Politics of Conflict demonstrates an alternative view of violence that is provocative in its ability to destabilize dominant understandings of regime violence and the counter reactions of opposition movements
