The Pope's Soldiers David Alvarez, 2011-05-09 Most students of history assume that the age of the warlord popes ended with the Renaissance but long after the victory of Catholic powers at the Battle of Lepanto in 1571 the Papacy continued to entangle itself in martial affairs The Vatican participated in six major military campaigns between 1796 and 1870 flew the papal flag over a warship as late as 1878 and during the Second World War mobilized more than 2 000 of its own troops to defend the Pope David Alvarez now opens up this little known aspect of the Papacy in the first general history of the papal armed forces His is the first book in English to provide a comprehensive chronicle of the modern Vatican's military and security forces from 1796 when the armies of revolutionary France invaded the Papal States through the wars for unification to the present day deployment of modern weapons technology and skills to protect the Holy Father and the Vatican from terrorists and assassins Most papal histories make little reference to military affairs while the few that address them do so only in passing or focus narrowly on particular units or campaigns Alvarez's history expands our understanding of the Papacy's military through the exceptional research he has done as the first American scholar to gain access to the archive of the Pontifical Swiss Guard and the modern military records in the Vatican Secret Archive He is also the first historian of any nationality to use the records of the Vatican Gendarmeria Alvarez chronicles the exploits of the Vatican's military leaders and soldiers in their campaigns and battles focusing on how those units under the Pope's authority including the Vatican navy engaged in actual military operations He also deals extensively with the Vatican Gendarmeria as well as the Pope's Noble Guards Palatine Guards and Swiss Guards describing their distinctive responsibilities and revealing the competition and internal tensions that sometimes undermined the morale preparedness and cohesion of the Pope's guards Filled with information that will surprise scholars of the Papacy and military historians alike Alvarez's highly original work illuminates a shadowy corner of Vatican history and will fascinate all readers interested in the role of the church in the broader world

This Horrid Practice Paul Moon, 2008-08-04 Though stronger evidence of this horrid practice prevailing among the inhabitants of this coast will scarcely be required we have still stronger to give Captain James Cook This Horrid Practice uncovers an unexplored taboo of New Zealand history the widespread practice of cannibalism in pre European Maori society Until now many historians have tried to avoid it and many Maori have considered it a subject best kept quiet about in public Paul Moon brings together an impressive array of sources from a variety of disciplines to produce this frequently contentious but always stimulating exploration of how and why Maori ate other human beings and why the practice shuddered to a halt just a few decades after the arrival of Europeans in New Zealand The book includes a comprehensive survey of cannibalism practices among traditional Maori carefully assessing the evidence and concluding it was widespread Other chapters look at how explorers and missionaries saw the practice the role of missionaries and Christianity in its end and in the final chapter why

there has been so much denial on the subject and why some academics still deny that it ever happened This Horrid Practice promises to be one of the leading works of New Zealand history published in 2008 It is a highly original work that every New Zealand history enthusiast will want to own and read The Papacy Since 1500 James Corkery, Thomas

16th century naval battle between the Ottoman Empire and Pope Pius V's Holy League The battle of Lepanto has long been considered one of the decisive naval battles of history Yet the savage fighting on October 7th 1571 left the strategic map unchanged The defeated Ottoman Turks were able to replace their losses and launch a new fleet the following year In Lepanto 1571 historian Nic Fields reexamines the battle and concludes that its importance was psychological It sank the perception of Ottoman dominance and the inevitability of Islam's westward encroachment beyond the Balkans With over 200 ships per side it was the largest naval battle in sixteen centuries and the last major fight between fleets composed entirely of the muscle driven galley These slender ships were the direct descendants of the Classical trireme but carried cannon and marines bearing firearms although massed archery and cold steel still played a major role on the fateful day Nic Fields gives an excellent account of this fascinating and spectacular battle **Absolute Monarchs** John Julius Norwich, 2011-07-12
